JANUARY, 1972

Judge Horrocks, Mr. Grenier, members of the School Committee, members of the City Council, Reverend Clergy, Honored Guests, my Fellow Citizens of New Bedford:

This is not a day of triumph, rather it is a day for acceptance of a trust placed in us by the people of New Bedford. It is a day to speak frankly and with candor, not of the details of how this administration will answer the problems of the next two years but of the attitude we know must be present in the leadership of New Bedford. For the people have registered a mandate that they want direct vigorous action to stabilize the cost of local government, attract new and expand present industry, assure the safety of citizens on our streets and maintain the quality and efficient services the city should provide. They have decided that although they want a better New Bedford, progress must be achieved consistent with the City's ability to pay the bill.

We shall meet this challenge. Our municipal government must and will continue to strive to make New Bedford a better place in which to live . . . work . . . and raise a family. We can insist on no less, but insist it be done frugally and with an eye constantly fixed on the city's ability to raise the necessary revenue.

My administration takes office with all indications of a substantial treasury deficit. Promissory notes of past administrations are coming due. The city's bonded indebtedness is at an all time high. These obligations must be met as they accrue. It is no exaggeration to state the plain fact that the city is in deep financial crisis.

It will do no good, however, to drown ourselves in a sea of pessimism. That is not the spirit of this great city; that was not the spirit of New Bedford seafarers who brought the proud name of this city to every port on our planet; that was not the spirit of the early industrialists who made New Bedford a major American manufacturing center; and that was not the spirit which brought . . . and still brings, waves of immigrants to this city. Compared with the perils of our forefathers we still have much to be thankful for. New Bedford was a proud city and together we can restore to this city the imprimatur of pride. We must intelligently and resourcefully attack the problems which beset the City.

In our plans for a better New Bedford we must not assume too much, because assumptions have a way of falling before the merciless assault of facts. It is best then not to rely on promises and dreams as it is clear that if we do all we hope to do in the next two years, there will still be many perplexing problems to be solved. We must take one step at a time, always forward, never surrendering to the pressures which afflict New Bedford. No one man can win this fight. There must be a fusion of the city's talent. I ask for the help of all of our citizens in this great challenge. I ask in particular, for the help of our City Council, the School Committee and other (elected) city officials. We cannot go it alone . . . returning pride and prosperity to this City will require a close and, I hope, a fruitful partnership with the state and national governments. I have confidence that Governor Sargent, our state legislators, Senators Kennedy and Brooke and our Congressman, as well as other officials, will do all that they can do to assist us in meeting our needs. We, on the other hand, must create within our city a willingness to work with other cities and towns to maximize regional planning and resources for our common good.

In this area of cooperative planning I cite the educational needs of many New Bedford students. Academic education aimed at preparing students for four year colleges and universities has dominated our public education system. There can be no doubt that high schools have sacrificed preparation for employment for preparation for college. Such a system sadly neglects a great many young people in schools.

Technological advancements have produced changes in the characteristics of the work force needed by industry and society. Years ago only those students entering the professions required specialized education. Today the relationship between education and work exists for all men and for all work.

Hopefully, New Bedford is on the threshold of providing a relevant educational opportunity to all its students. In September, a modern comprehensive high school with a diversified curricula will open. It has the potential to meet the educational needs of most of our children, but not all. Those young boys and girls desirous of occupational, vocational, and technical education must have the same opportunity as their brothers and sisters interested in an academic program. Our present Vocational High School can provide the quality of instruction but cannot accept the large number of students seeking admittance because of the limits of its physical plant. However, preparation for the world of work should be a part of everyone's education. Accordingly, we have initiated procedures to establish a Regional Vocational School District with the towns of Dartmouth and Fairhaven. It is our hope that this school will be under construction before the end of 1972. Keeping in mind the financial crisis New Bedford faces, I am convinced that a Regional School District is the most practical manner to satisfy the needs of so many young people.

Regionalization is not only practical in Vocational Education but also in planning for our future in water, sewerage, transportation, recreation, employment and economic needs.

We will examine our role with the Southeastern Regional Planning and Economic Development District with an eye toward leadership. New Bedford is the largest community in this part of Massachusetts, and therefore, is the key to progress for the area. We have had difficulties in the past in attempting to regionally solve problems for we do not want to create another bureaucracy of red tape. There is sure to be disagreement between communities in the future, but we will not look back; we will move forward towards cooperative planning for only in an openminded atmosphere will we develop our city and our sister communities.

Just as we re-examine our role in regional planning we shall also evaluate the city's participation with existing federal agencies such as Onboard and Model Cities. Onboard is understandable evidence that programs designed for improving the quality of life can only do so if they are properly administered and have the confidence of the people they seek to serve. The services these federally funded agencies should provide are needed and they shall be provided. I intend to review expenditures and budgeting of the Model Cities Program carefully so as to obtain maximum economics and effectiveness of all projects. I will, as directed by Federal authorities, assume a greater role in directing and coordinating the program particularly to integrate its overall administration into the City Government Structure. The Model Cities Administration has shown its willingness to cooperate with me in improving planning, management, and effectiveness of the program, and we expect to accomplish our objectives in close coordination with other agencies.

The test of government's effectiveness is often judged by the caliber of people the government employs. It is therefore important that all of our city's people have confidence in our public servants. This confidence will never exist if minority members of the community are not employed in the various areas of our government. We expect our Police, Fire and other agencies of the government to actively recruit young minority group members for career opportunities as public servants. We also expect that businesses having contracts or seeking contracts with the city will follow our example. However, just as merit will be the only test of service in my administration; I expect this criteria to be the same with any other programs or projects operating in New Bedford with or without local funding. We trust there will be room for honest disagreement and human error within our municipal government and various agencies, but we give notice to all who serve the city, in whatever capacity, that there will be no tolerance in this administration for indolence, incompetence, or waste. We must establish a moral and ethical tone which will pervade every department and agency with deep respect for honesty, decency, and hard work. In this way we will enlarge pride in our city.

I wish to add a word about crime, and its effect on our city. A wise man has said, "Crime is the ultimate human degradation, A civilized people have no higher duty than to do everything in their power to seek its reduction."

We cannot fool ourselves . . . crime is increasing in New Bedford just as it is throughout this country. It is a growing problem and we must, as civilized citizens, concern ourselves with its reduction. Crime control depends on the efficient utilization of a high professional and broadly skilled police force which has a tradition of fair and impartial enforcement by strict adherence to law. My experience as a lawyer in the criminal courts convinced me that the New Bedford Police Department is such a police force. This admistration intends to further professionalize the department by leaving the day to day administration of the police to the Chief of Police and his deputies. This administration will not weaken the hand of law enforcement. We pledge to the citizens of New Bedford that every effort will be made to combat terror in the streets.

We will have the rule of law in this city by fighting wrong with rigorous and diligent law enforcement which is free of outside influences. Lawlessness will not be tolerated nor negotiated and enforcement of the law will be done with the rights and privileges of all citizens protected.

Although New Bedford has many problems, as do most cities in the United States, I firmly believe that we have the talent available, the spirit of purpose and the capacity and skills to solve these issues. An example of such talent and spirit can be found with our downtown merchants who want and are willing to work for a revitalization of downtown. I have already met with these representatives of the Chamber of Commerce and we have established a task force to plan and construct a mall and parking garage, both of which will be self sustaining. This group is a cooperative venture of the local government and private enterprise. In a similar vein I have also created a Mayor's Advisory Commission on Marine Fisheries. Its purpose will be to meet periodically with the Mayor to plan and coordinate methods in which local government can help expand the fishing industry in New Bedford. This administration will make itself available to the people. We will be seen. I am confident that by bringing government to the people we shall overcome the difficulties now before us. We will leave no stone unturned, no advice unlistened to, in order to make New Bedford the city where all people are proud to live and raise their families.

I cannot predict whether at the end of two years, this administration will be beloved by many, but I do hope and trust that it will be respected by all.

We ask God's help in giving us the strength and courage which will be required to face the task ahead. With His help and yours, I know that we shall persevere.

Thank you.

25th Annual Report

of the

AIRPORT MANAGER

of the

NEW BEDFORD MUNICIPAL AIRPORT

For the Year Ending December 31, 1971

December 31, 1971

To the Honorable John A. Markey, Mayor, and the Members of the City Council of the City of New Bedford.

Gentlemen:

There is enclosed the Annual Report of the Airport Manager for the year 1971.

Respectfully submitted,

NEW BEDFORD AIRPORT COMMISSION

Robert L. Xifaras

Chairman

NEW BEDFORD AIRPORT COMMISSION

Year Ending December 31, 1971

NAME	TERM EXPIRES
Chairman	
Robert L. Xifaras	January 1974
Vice-Chairman	
Leo Martin	January 1974
Members	
Peter Augustus, III	January 1973
William Carmo	January 1973

Isidore Eisner	January 1972
Albert Signorella	January 1974
William A. Silveira	January 1972

The New Bedford Airport Commission:

Gentlemen:

December 31, 1971 marks the end of the twenty-fifth full year during which the City of New Bedford has operated its Municipal Airport.

The number of takeoffs and landings recorded by the Federal Aviation Administration Control Tower during 1971 totaled 85,075 compared with 66,811 during 1970, an increase of 18,264.

The following percentages, based on the total number of takeoffs and landings of the past two years, show clearly the type of aircraft now using the field:

Type		1970		1971
Air Carrier		2.14%		1.42%
Itinerant Aircraft:				
Military	1.60%		2.14%	
Civil	60.62%	62.22%	63.20%	65.34%
Local Aircraft:				
Military	5.45%		8.00%	
Civil	30.19%	35.64%	25.24%	33.24%

YEAR'S ACTIVITIES:

Scheduled air carrier service this year by Northeast Airlines has been further curtailed to one flight daily using the DC-9 until November at which time the DC-9 was replaced by the FH-227. There are several reasons for the deterioration of service to this community by Northeast. The main one appears to be the poor timing of their flights and the nearness of the Boston and Providence airports via our newly constructed expressways. However, in all fairness I must add that when the New Bedford Airport Commission did, in the past, arrange for the service that this community said it desired, the people did not support it. So therefore, it is my firm belief that the blame does not fall entirely on Northeast Airlines but is a situation that has resulted from a combination of the above mentioned factors, including Northeast's financial status, and more recently, the economy in general.

On the bright side of the picture I am pleased to say that Air New England, our scheduled air taxi carrier, has done an exceptionally fine job of filling the gap although they are not getting the support that I feel they should.

In the late spring Executive Airlines took over Mass Air's services which included scheduled air taxi service. This, in turn, gave the greater New Bedford area the best service we have ever had. It now became possible to go to New York or the Islands by one of the three carriers serving us practically any time of the day. It looked like we were on the road back, regardless of the economy, when suddenly Executive Airlines was forced to file for bankruptcy under

Chapter 11 of the laws of the Commonwealth of Massachusetts. If it weren't for the fact that Air New England was doing such a fine job there is no doubt that we would have been in real trouble.

In May Argo Air, primarily a freight carrier, commenced operations using this airport as its base. Although there was a great deal of enthusiasm and high hopes they were forced to go out of business within a few months due to lack of capital and absentee management.

During the summer the city hangar was given two coats of paint on the exterior and one on the interior which, incidentally, was badly needed. This was accomplished under the federally funded STEP program at a savings of approximately $4,000 to the City of New Bedford.

Under the Federal and State Aid to Airports program taxiways to Runways 14 and 23 and the two cutoff taxiways to Runways 14 and 32 were overlaid at a total cost of $62,475.12. Ninety percent of this cost was paid for by the federal and state governments, the remainder by the City of New Bedford.

In the fall the missing link between Routes 140 and 195 was completed. This now gives us excellent access to both expressways and it is my hope that this will benefit us in many ways.

With the new mandatory sanitary fill program now under way at the Refuse Plant, and requirements for burrow being large, the Airport Commission authorized the Department of Public Works to remove burrow from the approach to Runway 23 free of charge. This greatly helped to expedite the sanitary fill program and, in turn, practically eliminated the sea gull problem at the airport which was originally caused by the former open dump conditions.

During the summer the Local 77 Joint Apprenticeship Trust completed building their school located on airport property and in September exercised their option on additional adjacent airport property. The building, which is a permanent type structure, was constructed with the finest of materials and is a definite asset to the airport from both a financial and esthetic standpoint.

This year proved more fruitful than the last two relative to the acquisition of government surplus equipment. In November we acquired eight G.M.C. 6 x 6 two and a half ton trucks with automatic transmissions in excellent condition valued at over $50,000 at no cost to the city. This also included a large supply of new parts. These trucks will be used for snow removal and it is our hope to have them equipped for this purpose by next fall.

To sum up our financial condition for the year I am happy to say that we increased our income over that of last year even though we have been in the middle of a recession which greatly affects the aviation industry. Our expenses for the year were up approximately $2,000 over that of last year due mainly to Salary and Wage increases and the inflated prices of materials bought.

Progress on the Air Industrial Park continued to be slow mainly due to the fact that funding by the federal and state governments for the site improvements has a very low priority.

The major improvements that should be accomplished next year are as follows:

1. Construct tie-down apron between the administration building and the Mass Air apron under the Federal and State Airport Development Aid Program which would include additional lighting to the parking lot.
2. Continue efforts to obtain federal and state funds for the Air Industrial Park.

In conclusion I wish to thank all those that helped us through the year.

Respectfully submitted,

JASON G. TAYLOR

Airport Manager

CITY OF NEW BEDFORD

NEW BEDFORD MUNICIPAL AIRPORT

New Bedford, Massachusetts

STATEMENT OF INCOME AND EXPENSES

January 1, 1971 to December 31, 1971

INCOME

25th ANNUAL REPORT

of the

NEW BEDFORD MUNICIPAL AIRPORT

for the year ending December 31, 1971

IN CITY COUNCIL

March 23, 1972

Received, placed on file and ordered printed in the City Documents.

ELLEN M. GAUGHAN

City Clerk

ANNUAL REPORT

OF

SUPERINTENDENT

AND

INSPECTOR OF BUILDINGS

1971

CITY OF NEW BEDFORD

MASSACHUSETTS

BAKER PRINTING • NEW BEDFORD, MASS.

SUPERINTENDENT AND INSPECTOR OF BUILDINGS

ANNUAL REPORT

1971

In accordance with Chapter 5, Section 3-511 of the City Code of the City of New Bedford, I hereby submit a report of the activities of the Superintendent of Buildings for the calendar year of 1971.

BUILDING DEPARTMENT

Eight Hundred Thirty-Eight permits were issued in 1971, amounting to Fifteen Million, One Hundred Fifty-Five Thousand, Two Hundred Twenty Dollars ($15,185,220.00). This was one hundred ninety-six permits less than 1970 and the total valuation was Sixteen Million, One Hundred Ninety-Seven Thousand, Three Hundred Eighty-Five Dollars less than 1970. This was due to the 155 permits issued to Mass. General Housing for the duplex units on Potter Street, Hathaway Boulevard, Hanover Street, Morton Avenue, in December of 1970.

List of some of the large permits issued in 1971:

Tichon Processing N.E. Cor. Conway and Cape Sts. Fish Processing Plant	$ 878,000.00
First National Stores Inc. S.W. Cor. McArthur Dr. and Conway St. Retail Store	600,000.00
United States Investment W.S. Church St., N.W. Cor. of Hamlin St. Erect 8 Buildings, 150 apts. and 1 Community Bldg.	2,500,000.00
Maritime Terminal Inc. N.E. Cor. Whalers Way and No. Water Street Freezer	1,000,000.00
Edward Sylvia W.S. Bourne Street Apartment Building, 12 units	95,000.00
King Realty Trust S.S. Kings Highway Erect Retail Stores	300,000.00
Brooklawn Nursing Homes Inc. E.S. Acushnet Avenue, 2738' No. of Peckham Rd. Nursing Home	350,000.00
Combs & McBeth W.S. Church Street, 298' So. of Dutton Street Metal Building	80,000.00
My Bread Baking Company S.E. Cor. No. Front St. and Phillips Avenue Storage Garage	200,000.00
Attorney Edward Sylvia E.S. Church Street 1435' No. of Lynn Street Mini-Mall	70,000.00
A. J. Fournier E.S. Shawmut Avenue 54½' No. of Topham Street Apartment Building	50,000.00
Polaroid Corp. 100 Duchaine Boulevard Install Sewage Treatment Plant	1,100,000.00

O'Hara Realty Inc. W.S. Kings Highway Erect Garage and Showroom	104,000.00
N. B. Hotel Corp. Pleasant Street Alter Building, 112 apartments	750,000.00
Continental Screw Company 459 Mt. Pleasant Street Pump House	60,000.00
Mass. General Housing Corp. E.S. Caroline between Parker and Tilton Streets Erect 6 Buildings — 64 Units	350,000.00
N.B.A.A.C.P. W.S. Cedar St. between Kempton and Mill Streets Office Building	65,000.00
N.B. Five Cents Savings Bank E.S. County St. 90' No. of William St. Bank Building	75,000.00
Big G Stores N.E. Cor. Rockdale Avenue and Bolton Street Retail Store	55,000.00
Polaroid Corp. 100 Duchaine Boulevard — Alpha Building Concrete Deck	419,000.00
American Flex Conduit Company 969 Shawmut Avenue Addition to Manufacturing Plant	70,000.00
Arnold Briden S.S. Clifford St. 78' W. of Brook St. Apartment Dwelling — 8 Units	60,000.00
Field Street Realty Trust W.S. Field Street 142' So. of Grape St. Medical Office Building	150,000.00
Domina Suprenant W.S. Church St. 77' No. of Brooklawn Avenue Automotive Building	65,000.00
Carmo Construction Co. E.S. Shawmut Avenue 55' No. of Topham St. 9 Unit Apartment House	110,000.00

The following report was submitted to us by Owen F. Hackett Jr. and Associates on the progress at the New Senior High School.

The Perini Corporation of Framingham, Massachusetts and his various sub contractors were approximately 80% complete with their construction contract for the new high school.

This spring the site work, bituminous paving, and lawns and planting will be completed 100%. At the present time, the interior finish work is in the process of being completed — such as composition floors, interior painting, classroom cabinet work, and accoustical ceilings. The swimming pool, building elevator, food service equipment, plumbing, heating, ventilating and air conditioning, and electrical work are all progressing on schedule.

Barring any unforseen difficulties, the Perini Corporation's schedule calls for final inspection on the new high school in late spring 1972. Substantial completion is anticipated in late June or early July 1972.

For your information, the high school complex contains 576,000 square feet of floor space and is finished exteriorly with 1,226,305 bricks and 450 tons of white precast stone. There are 393,000 square feet of metal deck and 2,742 tons of structural steel in the framework. Reinforcing steel weighed 500 tons, and concrete amounted to 15,560 cubic yards.

The Building Department signed a contract for the demolition of an uninhabited and substandard building as follows:

3/9/71	33 Delano Street	Kidd Constr. Co.	$1,475.00.

Specifications were prepared by Haldeman & Goransson Associates, Inc. for the demolition of the Knowlton School destroyed by fire. Bids were opened July 29, 1971. Three bids were received.

Contract was signed August 16, 1971, for $18,000.00 with the Gracia Bros. of Fairhaven, Massachusetts.

Plans and specifications were prepared by the Building Department for the stair repairs at the Kerwin Parking Garage. Six bids were received.

The contract was awarded the low bidder, American Welding Company of West Warwick, Rhode Island. Contract was signed December 22, 1971 for $5,900.00.

SUMMARY OF BUILDING PERMITS

1971

*NEW CONSTRUCTION	*Permits*	*Estimated Cost*
Dwellings	217	$ 7,108,500.00
Stores, Bus., Mfg.	30	5,472,000.00
Filling Stations	4	172,500.00
Garages	17	18,700.00
Hosp., Schools, Institutions	4	430,000.00
Swimming Pools	33	80,790.00
	305	$13,282,490.00

**ALTERATIONS AND ADDITIONS		
Dwellings	336	1,474,195.00
Stores, Bus. and Mfg.	69	362,850.00
Hosp., Schools and Churches	6	16,190.00
Misc.	19	6,445.00
	430	$ 1,859,680.00

*New Construction	305	$13,282,490.00
**Alterations and Additions	430	1,859,680.00
Heating	15	13,050.00
Demolitions	88	....
	838	$15,155,220.00

The Two Hundred and Seventeen Dwellings consisted of One Hundred Sixty-Seven (167) One Family Dwellings and Seven (7) Two Family Dwellings and Forty-Two (42) Apartment Buildings having Three Hundred Ninety-Seven apartments, making a total of Five Hundred Seventy-Eight (578) units.

There were also 134 new apartments added by conversion; a total of 125 tenements were eliminated by demolitions.

COMPARATIVE SUMMARY OF CONSTRUCTION FOR THE LAST FIVE YEARS

Year	*No. of Permits*	*Estimated Cost*
1967	684	$ 5,297,094.00
1968	633	5,138,369.00
1969	816	11,915,954.00
1970	1034	31,352,605.00
1971	838	15,155,220.00

Special investigations are made as a result of a complaint by a tenant or a neighbor relative to a violation of zoning or building code. A total of 58 special investigations were made in 1971.

There were 17 sign applications during 1971 which were forwarded by the City Clerk to be approved by this Department as to construction, site of location, and method of erection and maintenance.

A total of 36 appeals from the ruling of the Inspector of Buildings were forwarded to the Board of Appeals.

Granted	30
Denied	3
Withdrawn	2
Cancelled	1
	36

Appeals that are granted are reversals of the rulings of the Inspector of Buildings: while appeals that were denied upheld the Inspector's ruling.

Places of assembly must be carefully examined according to Chapter 143 of the General Laws, as amended, before a license for their use can be obtained. This includes every building or part thereof, used as a place of public assembly and capable of accommodating 50 or more people; where 10 or more people are employed; rooming houses and apartment houses having eight rooms or 10 people above the second floor.

The following places of assembly were checked and issued certificates during 1971.

	Renewal
Cafes, Clubs, Halls, etc.	74
Industrials	0
Funeral Homes	0
Bowling Alleys	1

Inspections were made on Boarding Houses, Convalescent Homes, and Nurseries providing day care services for children.

Under the Subdivision Regulations, as adopted in 1964, the Superintendent of Buildings was empowered to endorse subdivisions plans not requiring Board of Survey approval. During the year of 1971, One Hundred and Three plans submitted for endorsement were so endorsed.

BUILDING MAINTENANCE

The employees in this division have had many projects during 1971.

They have erected speaker's stands and bandstands for various public functions and civic organizations.

The Municipal Building has had miscellaneous repairs to plumbing and electrical work. Through the courtesy of the N.B. Redevelopment Authority, lighting fixtures were obtained from the buildings being demolished and the lights were installed in various departments in the Municipal Building.

Under the STEP program and EEA we have painted several offices in the building. These two programs have been done at a great saving to the City as only materials were required to do these jobs.

In September the switchboard in the Municipal Building was updated by the installation of a double position board. and the installation of WATS lines.

Extensive plumbing Boiler Room Repairs and Electrical work was done at the North and South End Comfort Stations.

At the Board of Health Annex general repairs were made to windows, doors and screens, Exterior painting, some interior painting and installing an Air Conditioner.

Plumbing Repairs and Electrical Repairs were made at the City Yard, City Garage, Airport. Incinerator. Minimum Housing, Parks, Beaches, and Cemeteries.

Fire Stations #2 and #11 required interior painting. At Fire Stations #3, 4, 5, 6, 7, windows, doors and floors were repaired. Fire Station #10; a handrail installed and entry lights, doors and windows repaired.

At the Center Library partitions were installed, doors and windows repaired, and a generator set installed. Electrical repairs were made at Buttonwood, Wilks, and Green Libraries.

Respectfully submitted,

EVELYN HENDRICKS
Clerk of the Cemetery Board

BOARD OF CEMETERY COMMISSIONERS

To the Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

The Cemetery Board herewith presents its seventy-seventh Annual Report for the year ending, December 31, 1971.

At the meeting of January 20, 1971, the board voted to sell single graves, in advance, and they are to be sold consecutively, as in the past.

A letter was posted in each of our cemeteries stating that employees will not assist in the servicing of vaults brought in by outside contractors.

The Recreation Commission requested permission to use Pine Grove Cemetery; the undeveloped west side of Ashley Boulevard, for the purpose of Mini-Bike Riding. This request was denied due to an opinion given by the City Solicitor, stating that no matter how many warning signs are posted relative to accidents, the City could be sued if an accident occurred.

A resolution was incorporated into letters of appreciation which were sent to former board members Ralph E. Saltus, J. Tunstall Parham and James E. Ferry, upon their resignation from the Cemetery Board, for their many years of service to the department.

Mr. Fred W. Thornhill, Assistant Superintendent of Cemeteries, retired January 3, 1971 with over twenty-two and one-half (22½) years of service with the department.

Under Article II of the 1971 New Bedford Municipal Employees Union Agreement, Local 851, all employees are required to pay union dues or what is referred to as an agency fee, now that the Union has an Agency Shop.

Mr. Cardinal McD. Ollivierre was appointed to represent the department on the Citizen's Commission.

The Cemetery Board voted to accept the responsibility of appropriately decorating the graves of any present and future medal of Honor recipient buried in any cemetery under its jurisdiction.

Miss Evelyn Hendricks and Mrs. Marguerite S. McCuen were promoted to Head Administrative Clerk and Head Clerk, respectively, subject to qualifying examination for same.

Mrs. Wanda M. Lisak was promoted from Clerk and Janitress to Senior Clerk.

At the meeting of September 23, 1971, it was voted to allow mausoleums hich are sold for immediate use. When they are requested, the two-crypt ausoleums are to be erected on lots measuring at least fifteen feet (15') y twenty-feet (20'), the size of a ten-grave lot. The size of the lot for a ngle-crypt mausoleum is to be left to the discretion of the Superintendent. the case of above-ground interments in mausoleums sold for immediate se, a perpetual care deposit for the care of the mausoleum alone is to be the me as the lot price or a minimum of one thousand dollars ($1,000). For xample: a ten-grave lot sells, at present, for fourteen hundred dollars $1,400), including perpetual care, therefore, an additional deposit of fourteen ndred dollars ($1,400) must be deposited for the perpetual care of the ausoleum itself. If a lot sells for eight hundred forty dollars ($840), an additional deposit of one thousand dollars ($1,000) will be required for the peretual care of the mausoleum itself. A charge of seventy-five dollars ($75) for ntombing bodies in same, being the amount charged for regular gravepening.

The following five (5) laborers were appointed under the Emergency mployment Act of 1971, and are working at our three cemeteries: Dudley aul Fontaine, Bruce Molina, Joseph Krisnosky, Ralph C. Costa and William . Reedy.

The American Municipal Cemetery Association bestowed an honorary fe membership to Superintendent John Thornhill in honor of his many years municipal service. He is the first member of this association to receive this onor. He was instrumental in its formation some fifteen (15) years ago.

The following securities were purchased with funds deposited for peretual care lots:

10M Rochester Telephone Corporation First Mortgage Bonds 7⅝%, due March 1, 2001.

20M Southern Railroad Equipment Trust AA Bonds 7%, due October 1, 1984.

The New Equipment purchased in 1971, was the following:

- One (1) Lindsay Portable Air Compressor with Electric Starter and Accessories
- One (1) three inch (3") Homelite Diaphragm Water Pump
- Five (5) Jacobsen Power Mowers
- One (1) Olivetti Editor #2 Electric Typewriter
- One (1) Adler 21F Electric Typewriter

The need for new mowers and trimmers cannot be too strongly stressed, as we cut grass on approximately five thousand (5,000) lots, each year. In order to fulfill our contract with the lot owners and keep our own property in satisfactory condition, we must replace the equipment annually.

Recording fees amounting to one hundred sixty-six dollars ($166) were turned over to the City Clerk's office, representing payments for the following transactions:

Cemetery	Graves Sold	Lots Sold	Transfers of Lots and Graves	Burial Right Assignments	Total
Rural	25	40	7	15	87
Oak Grove	0	3	4	8	15
Pine Grove	21	35	1	7	64
	—	—	—	—	—
Totals	46	78	12	30	166

We take this opportunity to express our sincere thanks and appreciation for the kindness, assistance and cooperation received from His Honor the Mayor, members of the City Council, Department Heads and our own department personnel.

Respectfully submitted,

John E. Medeiros, Chairman
Cardinal McD. Ollivierre, Secretary
Lionel J. Souza
Arthur A. Mastine
Vincent J. Worden

SUPERINTENDENT'S REPORT

To the Board of Cemetery Commissioners

Gentlemen:

I herewith submit the annual report of the work done under my supervision during the year 1971 and recommendations for 1972.

RURAL CEMETERY

Approximately one thousand (1,000) cubic yards of excess dirtfill was removed by the Department of Public Works for landfill purposes. We still have about eight hundred (800) cubic yards which I hope can be removed in 1972.

Vandalism continues to be a problem. In 1971, thirteen (13) water faucets and eight (8) small trees were damaged. The toolhouse was broken into and thirty-eight (38) water pails were taken. All of these acts were reported to the police, but they were unable to apprehend the vandals.

We had four (4) "No Dogs Allowed" signs made at New Bedford Vocational High School. These signs were erected at the four (4) entrances to Rural Cemetery.

A large elm tree overhanging onto Dartmouth Street was removed by the Forestry Department.

OAK GROVE CEMETERY

In the September windstorm, we lost two (2) trees and twenty (20) panes of glass in the greenhouse.

Because of the amount of vandalism in this cemetery, five-foot high gates were erected at the Robeson Street entrance. The office building and greenhouse were broken into, causing only minor damage. One (1) generator and one (1) power mower were stolen from this cemetery during the month of August. Three (3) faucets were damaged, one hundred fifteen (115) stones were overturned and one (1) was broken.

Members of the City Council made an official visit to our greenhouses, and we received many good comments relative to its condition and upkeep.

Flowers were planted, by the department, at the grave of Sergeant William H. Carney, a Civil War Veteran who had received the Medal of Honor.

The office building and part of the greenhouse were painted on the outside.

Forty-five (45) stones were overturned at the Peckham West Cemetery.

PINE GROVE CEMETERY

Single-grave section 21 has now been graded and seeded. We are now filling in land south of the office building so that it may be developed for future use.

Complaints relative to rodent control by people on Pine Grove Street have ended after consultation with the officials of the Board of Health.

The drain from our pond to our east line, was picked up by a contractor building a home on Pine Grove Street. It now empties into a catch basin on Pine Grove Street.

The gate at Pontiac Street was closed and this has stopped much of the vandalism in this cemetery.

One (1) faucet was damaged by vandals and seven (7) stones were overturned.

All other cemeteries under our control have been kept in a presentable condition during the year 1971.

GENERAL

All of the equipment in the Department has been lettered as ordered by the City Council.

The department planted flowers at the American War Mothers Square at Rockdale Avenue and Hathaway Boulevard.

The fence at the Tobey Family Burial Ground was repaired.

Board member, Mr. Arthur A. Mastine donated two thousand (2,000) jonquil bulbs and five hundred (500) lily bulbs which have been planted at Oak Grove Cemetery.

Ten (10) loads of wood were picked up from the Water Department; four (4) of which were taken to the Oak Grove Cemetery and six (6) were delivered to the Rural Cemetery.

In-as-much as I shall retire after thirty-one (31) years of municipal service on February 1, 1972, I take this opportunity to thank all of the Cemetery Board members that I have worked with, especially the present board. Because of your help and kind consideration, you have made my employment in the department very productive. Together, we have come a long way physically, financially and otherwise. We could not have made this progress without the cooperation of our office staff and all of the employees of the Cemetery Department.

I also thank all of the Mayors that I have worked with, members of the City Councils, Department Heads and their personnel.

If I can be of any help to my successor or to the department in any way, please feel free to call on me.

Thank you all and "Good Bye"!

REPORT OF CARETAKER

of

SOLDIERS' AND SAILORS' GRAVES

New Bedford, Massachusetts
January 1, 1972

To the Honorable City Council of the
City of New Bedford

Gentlemen:

I, hereby, submit the following report of the work done, during 1971, on neglected lots and graves where soldiers and sailors are interred, as authorized in Chapter 218, Acts of Legislature, 1920:

	Care of Lots and Graves
Rural Cemetery	178
Oak Grove Cemetery	145
Pine Grove Cemetery	22
Peckham West Cemetery	24
Congregational Church Cemetery	2
Griffin Street Cemetery	9
	380

The amount appropriated for this work was $2,500.00 and this amount was expended for cutting grass.

Respectfully submitted,

John Thornhill
Caretaker of Soldiers' and
Sailors' Graves

ANNUAL REPORT

BOARD OF CEMETERY COMMISSIONERS

for the year ending December 31, 1971

IN CITY COUNCIL, September 28, 1972

Received, placed on file and ordered printed in the City Documents.

Ellen M. Gaughan, City Clerk

Attest:

Ellen M. Gaughan,
City Clerk

ANNUAL REPORT

OF THE

CITY AUDITOR

OF THE

CITY OF NEW BEDFORD

MASSACHUSETTS

FOR THE YEAR 1971

CITY OF NEW BEDFORD

Office of the City Auditor

To His Honor John Markey, Mayor of New Bedford, and the Honorable City Council:

Submitted herewith are the following statements and schedules showing the receipts and expenditures for the City of New Bedford for the calendar year ending December 31, 1971 and the financial conditions.

Exhibit A—Balance Sheet as of December 31, 1971.

Exhibit B—Statement of Receipts for the year ending December 31, 1971.

Exhibit C—Statement of Expenditures for the year ending December 31, 1971.

Exhibit D—Summary of Receipts and Expenditures for the year ending December 31, 1971.

Exhibit E—Schedule of Indebtedness Payable at the close of the calendar years 1948 through 1971.

Exhibit F—Schedule of Bonded Debts and Sinking Funds as of December 31, 1971.

Exhibit G—Summary of Bonded Debt and Sinking Funds as of December 31, 1971.

The City of New Bedford closed the calendar year 1971 with a balance of $496,040.26 in the Excess and Deficiency Account.

I certify that in the course of the audit of the books and records of the City of New Bedford the cash on deposit and several trust funds in the custody of the trustees and city treasurer were verified and found that the same were in agreement with reports and records rendered by said trustees and city treasurer to the City Council.

Respectfully submitted,

WILLIAM S. MAHONEY,
City Auditor

CITY COUNCIL

The New Bedford City Council held its organizational meeting on January 5, 1971, at which time Richard A. Bachand, Councillor from Ward Two, was elected president of the City Council for the year 1971. On January 8, 1971, a convention of the City Council and School Committee was called to fill a vacancy caused by the resignation of School Committeeman Vincent J. Worden. This convention was called by President Bachand, as Acting Mayor, in the absence of Mayor Rogers who was out of town. Mayor Rogers returned to the City prior to the time of the meeting and countermanded the notice thereof. The convention was held, however, with only one member of the School Committee present. Attorney Raymond A. Letourneau was elected to fill the vacancy on the School Committee, but the Committee refused to accept his credentials and seat him as a member. On February 24, 1971, another joint convention was called upon the signature of the required number of members of both bodies. Three members of the School Committee attended this meeting, with one of them abstaining from voting. Mr. Letourneau was again elected, and this election was upheld by a Court decision.

In all, the City Council held 22 regular meetings and 23 special meetings in addition to the two conventions with the School Committee and seven meetings as a quasi committee of the whole to consider the Mayor's Budget. The 1971 budget was submitted to the City Council on February 11, 1971, in two parts; — one was the regular budget order in the total amount of $31,285,323.12 and the second was a supplementary budget totalling $634,455.35. After 7 meetings as a quasi committee of the whole, including an unusual all-day session on a Saturday, the City Council, on March 29th, adopted the regular budget order after amending it by various cuts to a new total of $30,924,891.03. The supplementary order was also adopted on March 29th after various amendments which reduced the total to $269,307.76.

Ordinances passed by the City Council in 1971 included:

February 18, 1971:	Amending ordinance re Duties of City Property Committee.
May 13, 1971:	Authorizing Issuance of Licenses for Charitable Purposes. (City Clerk to issue "tag day" permits)
May 13, 1971:	Establishing Environmental Quality Control Council.
May 13, 1971:	Setting forth Powers of Dept. of Public Health in Matter of Environmental Control.
May 13, 1971:	Requiring Purchasing Agent to Time Stamp Bids. (passed over Mayor's veto)
May 27, 1971:	Establishing Fire Limits
May 27, 1971:	Transferring Collection of Parking Meter Monies to Traffic Commission.
May 27, 1971:	Establishing Parking Supervisor Program. (meter maids)
May 27, 1971:	Establishing Police Cadet Program.
June 10, 1971:	Repealing ordinance which established Narcotics Information Council and Center.
June 10, 1971:	Establishing New Bedford Historical Commission.
August 19, 1971:	Order-reducing membership of Industrial Development Commission to 9.
August 19, 1971:	Ordinance Increasing City Council Salary to $5200 per annum (referendum petition filed by Attorney Louis J. Ostric — insufficient signatures)
September 9, 1971:	Establishing fees for Use of Municipal Lockup by Surrounding Towns.
October 28, 1971:	Requiring Bids to be Signed.

December 11, 1971: Requiring Lettering of City Cars (excepting certain police vehicles and car assigned to Human Relations Commission) — passed over Mayor's veto.

The controversial Third Year Action Plan of Model Cities Agency was finally approved December 2, 1971, with an amendment that excluded funds allocated for a residential center for delinquent boys on County Street, in the face of vehement opposition of abutters; and with a stipulation that while the concept of the south-central school is approved, no approval is being given to any specific site or size for said school.

The City Council, as the Board of Survey, held 8 meetings. The sub-division of the White farm property, approved by the Board of Survey in 1970, on which an appeal was taken and ultimately upheld by the Court on the grounds that one abutter had not been given notice of the hearing, was once again filed with Board. On August 26, 1971, the Board reversed itself and declined to approve the plan. An appeal from the Decision of the Board is pending.

GENERAL

The City Clerk's office experienced its usual busy year, with two new items added to our work load; namely, Beano applications, which are processed through the City Clerk's office insofar as approval of the Mayor and City Council is concerned, and the issuance of "Tag Day" permits.

In the field of vital statistics, two major changes in the law were instituted this year; — "color" was eliminated from marriage intentions, and the legal age limit at which a resident male may be married without parental consent was lowered to 18.

Other legislation which affected this office was the increase in dog license fees.

At this time, I would like to express appreciation to my staff for their assistance in effecting an orderly and well-organized execution of the various duties of this office, with a special thank you to my two assistants — Asst. City Clerk Florence Whalley and Asst. Council Clerk Lucille Furtado, for their invaluable contribution to the over-all efficiency of the department.

Respectfully submitted,
ELLEN M. GAUGHAN,
City Clerk

Raymond C. Lantz, Jr.
Armand Fernandes, Jr.
Assistant City Solicitors

December 31, 1971

To the Honorable

The City Council

Gentlemen and Dear Madam:

In accordance with the provisions of Section 1-208 of the City Code, I submit the following report on the activities of the City Solicitor's Office for the year 1971.

93 legal opinions were rendered to the Mayor, City Council and various department heads. In addition to the foregoing written opinions, the attorneys in this office provided City officials and department heads with legal advice on countless problems which arose in ordinary course of business during the year.

303 industrial accident claims were processed under the Workmen's Compensation Law.

157 claims for personal injuries and property damage were filed against the City during the year 1971. The major portion of these claims were due to defective streets and sidewalks and automobile collisions involving City-owned vehicles.

98 claims were honored and paid in the total sum of $14,330.33.

32 claims in which suit was instituted against the City for personal injuries or property damage were resolved; the total amount of these settlements was $31,591.43.

375 contracts were submitted to this office for review and approval as to legality and form.

Numerous legal documents were prepared by this office, such as deeds, leases, easements, contracts, City Council orders for land takings, street layouts and street discontinuances.

$14,038.24 was collected through the efforts of this office on accounts due the City for property damage, and for work performed and services rendered by various departments.

As of December 31, 1971, the following cases in which the City is defendant were unsettled and pending further court action:

A. Personal injury and property damage cases arising out of defects in public ways and auto accidents involving City vehicles:

SEVENTH ANNUAL REPORT

OF THE

CONSERVATION COMMISSION

OF THE

CITY OF NEW BEDFORD

MASSACHUSETTS

FOR THE YEAR 1971

BAKER PRINTING - NEW BEDFORD, MASS.

January 1, 1972

To The Honorable Mayor
and members of the City Council of New Bedford, Massachusetts.

Gentlemen:

The Conservation Commission presents it Annual Report for 1971.

Respectfully submitted,
Earle M. Carter, Sr., Chairman
Richard F. Bailey, Jr.
Adra J. Cook
Anne F. Fazendeiro
Flora B. Peirce
David C. Thoen
Paul B. Turner

REPORT OF THE CONSERVATION COMMISSION

December 31, 1971 marked seven and one half years of activities by the Conservation Commission of New Bedford. June 6, 1963 the City Council accepted the enabling legislation of the General Court, Acts of 1957, Chapter 40, Section 8C, amended, authorized a commission, and appointed members. One year passed before members were called to organize on June 1, 1964.

Herewith is the seventh annual report of the seven member commission. Appointments are for three year terms.

Regular meetings in 1971 were scheduled on the third Wednesday afternoons of the month at four o'clock in the Park Board office, City Hall. During the year two meetings were held in the Mayor's office and three field trips were made to the Apponagansett Nature Trail with the commission as a whole.

Mr. Earle M. Carter, Sr. and Mr. Paul B. Turner were reappointed for three year terms. Mrs. Anne F. Fazendeiro was appointed to fill a vacancy. Her term expires June 1973.

At a reorganization meeting Mr. Carter was elected chairman, Mr. Richard F. Bailey, Jr. vice chairman, and Miss Flora B. Peirce re-elected secretary. Mr. Allen C. Haskell, Miss Huldah Hathaway, and Lieutenant Colonel Samuel S. Wagstaff continued as associate members. Mr. Daniel St. Lawrence and Mr. William Caron, aids of the Mayor, were assigned to attend the meetings.

A Trail Advisory Committee was organized carrying out one suggestion of the NRTT (Natural Resources Technical Team), federal, state, and county agents advising the commission. The following delegates with their respective organizations acknowledged the invitation to participate on the committee — Attorney Alan S. Novick, Cacholot Council, Inc., Boy Scouts of America, and Boy Scout Aron

Lansky; Miss Louise Avelar, Young Women's Christian Association; Anthony Ferreira, Biology Club of the New Bedford High School; Mrs. Hazel McCrohan, Roosevelt Junior High School; Mr. Jonathan Allen, Southeastern Massachusetts University Ecology Action Association; and Mrs. Barbara Chandler, 4-H Club, Heads and Tails.

In the fall students from Senior and Junior High Schools, public and parochial, youth groups of the YWCA and the YMCA, and the Girl and Boy Scouts were invited to a meeting for the purpose of organizing youths interested in conservation. Approximately fifty responded and "The Junior Associates to the New Bedford Conservation Commission" was accepted by the commission. The commission anticipates recognition of the group by the city government.

The commission continued membership in the Massachusetts Association of Conservation Commissions and the Massachusetts Forest and Park Association. Late in the year the New Bedford commission became a member of the National Science for Youth Foundation.

The Conservation Commission's program was pursued to carry out the purposes set forth in the General Laws of the Commonwealth of Massachusetts, namely, to conserve, promote, and develop the natural resources of the City of New Bedford and, furthermore, to protect watersheds, marshes, and wetlands of the city. The nucleous of the program concerned an open space complex in the northeast sector of the city.

The appropriation for general expenses was increased in 1971 and the Conservation Fund remained with only a token amount. A Conservation Fund authorized by the General Laws of Massachusetts, Chapter 4C, Section 5, Clause 51, amended, is under the authority of the City Treasurer who may invest said monies. Any income realized is credited to the fund and the proceeds may be used by the Conservation Commisssion for its purposes.

A Conservation Fund is useful and expedient. The New Bedford commission continuously requests appropriation to its fund.

In the 1960's a three fold plan was adopted - - -

1. **Paskamansett River Project**
2. **Turners Pond Project**
3. **Acushnet Cedar Swamp Project**

The second and third projects required acquisition of property before designing and implementing plans. Financing seemingly an impossible factor, the commission recommended to the DNR (Department of Natural Resources) and/or the Division of Fisheries and Game, an autonomous division of the state department, the acquisition of the pond and swamp complex. It is gratifying to report that the complex was bought by the DNR in the fall. The purchase involves 1,844 acres primarily within the boundaries of New Bedford for $360,500 and includes 858 acres of uplands, 930 acres of marshlands, and 56 acres of water. Previously on May 1, 1971 at a news conference held at the Canoe Club in West Bridgewater, Governor Francis W. Sargent announced that the purchase would be made for conservation-recreation and environmental and educational purposes. Four members of the New Bedford commission attended the news release in the interests of the preservation and the intent and direction of the open space complex. It is the expectation of the commission that the program of the DNR will tie in with the developments at the nature trail and projected plans for the 3 acre lot in the Turners Pond complex.

Subsequently the New Bedford Conservation Commission revised its three-fold plan. In answer to a questionnaire from HUD (United States Department of Housing and Urban Development) decisions based on priorities devised a four point development plan.

1. Paskamansett River Project

Continued development of the Apponagansett Nature Trail system (82.1 acres) and of the potentials for conservation education at the location.

2. Wildlife Refuge or Wildlife Management Area

A habitat improvement project and the construction of observation blinds in a 25 acre waterfowl nesting area under the jurisdiction of the commission.

3. Shawmut Avenue and Plainville Road Site

A 3 acre open space in the Turners Pond complex presently being rehabilitated by the commission with development plans to beautify, blaze trails, and construct a pond.

4. Other Projects Contemplated

Projects under observation include wildlife preservation, nature trails, and a nature study area in different locales and additional acquisition for the Apponagansett Trail system.

1.1 acre, more or less, of land, assessors' plat 124, lot 21, developed by permission of the owners for an entrance to the trail was purchased by eminent domain proceedings by the Conservation Commission in the name of the City of New Bedford; $750.00 plus a pro-rated tax of $4.24 was paid to the Acushnet Saw Mills Company, the owner of the property. Appropriation for the purchase was passed by the City Council May 13, 1971 and approved by the Mayor May 19, 1971. The transaction was closed and recorded in the Registry of Deeds for Southern District of Bristol County May 27, 1971. Under the Massachusetts Self-Help Program, General Laws, Chapter 132A, Section 11, amended, one-half reimbursement of the purchase price was received from the Department of Natural Resources.

A land survey defining boundary lines was made by Tibbetts Engineering Corporation at the request of Mayor George Rogers. The survey was another suggestion made last year by the NRTT because commission members and the NRTT could not determine extent of the commission's jurisdiction of property at the site. Permanent markers are to be placed where the engineering firm has driven stakes into the ground.

Another and third step suggested by the NRTT was carried out by the team. Resource agents of the team were Mr. Warren E. Archey, Southeast Extension Service, Mr. A. I. Reese and Mr. William Andrews, Soil Conservation Service, Mr. Michael V. Sikora, Jr., Department of Natural Resources, Mr. Richard C. Turner, Division of Fisheries and Game, and Mr. Richard Cummingham, National Park Service. A new lay-out for the trail and two maps, "A Conservation Plan" and "Soil and Capability", were executed. A report "Apponagansett Trails Report" was written by Mr. Reese and copies issued in cooperation with the Bristol Conservation District. The report supplements an early one presented by Mr. Robert A. Taylor of the National Park Service. The recommendations in the reports will be considered in 1972.

Youth groups during the year cleared the path of the Apponagansett Nature Trail and cleaned debris from the banks and the waters of the Paskamansett River on several occasions.

On June 5 the trail was included in "Keep America Beautiful Day", a nation-wide project. Under the leadership of Attorney Novick, Cacholot Council Conservation chairman, Boy Scout troops, commissioners Mr. Carter and Mr. Turner with advisory committee member, Mrs. Chandler, took part in the helpful and serviceable project. Mr. Andrews from the Soil Conservation Service encouraged the Boy Scouts with stimulating advice. Channel 6 televised the vigorous and earnest work at the location. The Conservation Commission extends appreciation and thanks to Attorney Novick, Mr. Andrews, and all participators.

The Junior Associates to the New Bedford Conservation Commission initiated their first workable project during their 1971 Christmas vacation on December 28 and 29. The youngsters, both girls and boys, manipulated rakes and shovels, even waded into the river to accomplish a thorough clean-up of the Apponagansett Nature Trail and the Paskamansett River in spite of cold and unpredictable weather. "No-hunting" signs were posted during the two day activities under the guidance of Mr. Carter, Mr. Turner and his son. "Learning by Doing" may be the catch phrase for the youths in their performance of assistance to the Conservation Commission.

The commission is happy to be associated with the young group and to stimulate the interests of the young ecologists to improve the quality of the city's environment. It is pleasing to make special mention of the page spread of pictures in the following Sunday Standard-Times, a splendid recognition to the group's objectives.

Meetings of The Junior Associates to the New Bedford Conservation Commission were held in the City Council Chambers five times during the year from October through December. Temporary chairmen and a secretary were appointed from the group. At the second meeting, November 10, young Patrick Porter presided with decorum and ease. Mr. Allen T. Orth, environmental field ecologist from Weston, Massachusetts, spoke to the group. Literature, decals and patches depicting the official emblem of the commission were distributed to the youngsters.

The rehabilitation project of the commission on the 3 acre lot, northeast corner of Shawmut Avenue and Plainville Road, was aided through the work of Boy Scouts from the Grace Episcopal Church in 1971. A letter of commendation was read to four Boy Scouts and the Master of the Troop in the office of Mayor Rogers at the May 27, 1971 meeting. Decals were presented and a picture taken with the Mayor.

On the county level the New Bedford commission acknowledges with gratitude the picture of the entrance sign to the Apponagansett Nature Trail in the annual report, the twenty-fifth year of operation, of the Bristol Conservation District. An automobile accident demolished the sign. A new sign will replace the old one.

Diverse environmental concerns involved the commission in 1971. Pros and cons of a pending recycling program were on the agenda a number of times. It is expected that a community program will move in 1972. Commission members attended a public meeting at the Parish Hall of Our Lady of Fatima Church May 17 for the purpose of discussion in relation to sewerage lines and pollution problems in the North End of the city and at Sassaquin Pond. Plans were presented for the correction and abatement of the problems. A questionnaire on the subject of de-icing submitted by the League of Women Voters of Massachusetts was answered to the effect that a substitute for salt should be used if possible noting the danger to health and the environment with the method of salt usage.

Data was submitted by the secretary to another questionnaire from Representative Francis W. Hatch, Jr. who seeks to strengthen the Hatch Act, General Laws, Chapter 131, Section 40. The Acts of 1971, Chapter 1030, made some changes in the Act. One significant change of procedure requires Conservation Commissions to hold local public hearings. The amendments passed in 1971 become effective February 7, 1972.

In accordance with the regulations of the Department of Natural Resources the New Bedford commission investigated one Order of Conditions pertaining to the Hatch Act during 1971.

The Environmental Bill of Rights, a Constitutional Amendment, was supported by the commission. The measure to be placed on the ballot in the fall of 1972 seeks to promote the right of every citizen of the Commonwealth of Massachusetts to clean, healthy, and esthetically pleasing environment. The Citizens Right of Action was supported. This newly enacted law, Acts of 1971, Chapter 732, allows ten or more citizens to bring suit, to halt, or to prevent damage to the environment. As in previous years the commission favored and supported state legislation to increase local control over billboards. Amendments vetoed the bill. A major loss of the 1971 session of General Court was the bill to create by statute a Division of Environmental Protection in the Attorney General's office. The bill would have required environmental impact statements on state projects.

The Conservation Act, Chapter 40, 8C, was amended by the General Court. The Acts of 1971, Chapter 893, further defines conservation plans and further regulates the powers of Conservation Commissions. The Act becomes effective January 1972.

Two conferences were represented by the commission during the year. Mrs. Adra J. Cook and Miss Flora B. Peirce attended "An Environmental Planning Workshop", June 4, sponsored by public agencies on all levels of government at Camp Wing, Duxbury, Massachusetts. Mr. Carter was present November 1 and 2 at a two day conference, the New England Environmental Regional Conference, sponsored by the Federation of Garden Clubs.

The Conservation Commission thanks Mayor Rogers and the members of the City Council for their interest and cooperation during the year. The commission extends appreciation to the various city department heads and their personnel for assistance rendered throughout the year, and, in particular, to the Planning Department, the commission's official headquarters.

Respectfully submitted,
Flora B. Peirce
Secretary

STATEMENT OF INCOME AND EXPENSES

JANUARY 1 to DECEMBER 31, 1971

INCOME

Appropriation	$ 1,555.00
Transfer from general fund for Land Acquisition	750.00
and pro-rated tax	4.24

ANNUAL REPORT

OF THE

CHIEF

OF THE

FIRE DEPARTMENT

NEW BEDFORD, MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31, 1971

Richard T. Gaughan, Chief of Fire Department

THE BAKER MANUFACTURING COMPANY / PRINTERS
NEW BEDFORD, MASS. 02742
AUGUST, 1972

FIRE DEPARTMENT REPORT

Mayor of the City of New Bedford —

Dear Mr. Mayor:

I respectfully submit the Annual Report of the operations and functional status of the Fire Department for the year 1971 together with the recommendations that I consider necessary for maintaining and increasing the efficiency of the Department.

The total alarms received for "Fires" and "Non-Fires" for the year 1971 is 3524.

SUMMARY OF ALARMS RECEIVED

Fires	1,316
Emergency Calls, other than fires	946
No Fire Found, Sprinkler trouble, etc.	305
False Alarms	952
Out of City Responses	5
	3,524

Of the actual 1,316 fires, 996 originated as "Still Alarms" and 426 cases were followed by "Box Alarms" for the same fire. Of the actual 1,316 fires, 320 originated as "Box Alarms" and in 8 cases, calls for additional apparatus were sent out by "Still Alarms" for the same fire.

Total "Still or Telephone Alarms" transmitted from Headquarters	1,633
Total "Box Alarms" transmitted from Headquarters	1,381
Total	3,014

Of the total alarms transmitted, there were 1,316 actual fires.

There was one Second Alarm during the year.

The total fire loss for 1971 is $1,277,505.57, of which the loss in buildings is $971,669.10; the loss of contents of buildings is $265,104.31; the loss on auto fires is $33,732.46; the loss on boats is $7,000.00

The Department responded to 946 emergency services which include resuscitator efforts, pumping out of flooded cellars and boats, removal of refrigerators that were leaking sulphur dioxide gas, and numerous other types of services which this department classes as emergency Public Service. May I state that the above calls were made as part of the emergency service this Department provides the Citizens of our City.

As authorized by Section 19 of Chapter 148, General Laws, I granted 17 permits for Blasting.

The capable staff of Chief Officers who are responsible for administrative and fire fighting efficiency in their respective Districts, in addition to a myriad of other duties related to the

Fire Service, are to be congratulated for their unquestioned dedication and support to this office.

Deputy Chief Frank H. Cleveland, District Chiefs Charles J. Armanetti, Daniel L. Piekut, Alphonse Piekut, Fred Osuch, William H. Barney, Manuel Almeida, Joseph P. Silva, Ernest Laviolette, Matthew R. Dobyna and Domenic J. Gioiosa made approximately 431 inspections during the year to check out complaints and remedy hazardous fire conditions.

The Home Inspection Program was continued under direction of Deputy Chief Frank H. Cleveland. I wish to compliment our personnel in this phase of fire prevention. The diplomatic and efficient manner in which Company Personnel conducted these inspections is highly commendable. A total of approximately 1,819 occupancy and 1,308 building inspections were made. In addition to the Home Inspections, schools, hospitals, theatres, and convalescent homes were inspected quarterly. A continuing phase of this most important fire prevention measure also included every church in the City. If we may prevent the loss of just one life through the efforts of our Fire Prevention measures, then I would say the program is justifiable.

The Fire Alarm Division, our communications center, which service both telegraphic and radio transmission and reception continues to operate in a most efficient and progressive manner under the direction of Assistant Superintendent of Fire Alarms, Clifford J. Snell.

13 new Fire Alarm boxes were installed and approximately 3,000 feet of aerial line and associated equipment installed to service these boxes. 5,000 feet of underground cable was replaced.

As in the past, assistance was given the Wire Department relative to the Christmas Display at the Common Park.

Routine maintenance work was done by the fire alarm crew which included tree trimming, line inspection, change over to new poles, ground testing, and painting outside equipment.

All fire alarm boxes were tested and inspected and the interior circuit from the master boxes were tested.

At the close of 1971 the number of fire alarm boxes throughout the City totalled 507; of this total 280 are Public and 227 are Private Boxes, 107 of the latter being the master type connected to sprinklers, heat detectors, or auxiliary pull stations.

The Repair and Maintenance Division under Master Mechanic Kenneth M. Haddock is charged with the upkeep and repair of all mobile units, many of which are specialized requiring service uncommon to most motor vehicles. The Repair Shop also maintains, repairs, and many times fabricates the special equipment and accessories peculiar to fire fighting.

Care of the eleven (11) buildings under the fire department jurisdiction, requires that our repair division perform carpenter, plumbing, and heating repairs which otherwise would require the services of an outside contractor.

Fire Prevention Division is headed by Captain Ernest M. Torres assisted by two Lieutenants and two Clerks. This division is responsible for administering one of the most important phases of Fire Department functions, namely Fire Prevention and Investigation.

Their duties embrace the entire field of Fire Prevention and Investigation including issuing of relative permits as required by law, inspection duties, fire prevention lectures to schools and public service organizations, and investigative work in relation to suspicious fires.

Permits issued by the Division are as follows:

Power Oil Burners	194
Range, Cabinet and Space Heaters	5
Fuel Oil Storage	28
Liquified Petroleum Gas Storage	18
Underground Tank Removals	18
Total	263

The Drill and Training Program is directed by Captain Raymond W. Cobb. Its function is to maintain efficiency in all phases of fire figrting through classroom instruction and fire ground training at the Drill Tower and various other locations.

Captain Cobb, through his attendance at the Massachusetts Institute of Fire Department Instructors monthly meetings is able to keep astride of the most modern techniques of fire fighting.

Annual Underwriter service tests for all pumping engines, first aid instructions and lectures to the Military, Civil Defense, and Industrial fire brigades are all a part of the duties of our Drillmaster.

Refresher courses in radiological monitoring were given to all members of the department. The various instruments employed in detection of radioactivity are provided by the Civil Defense Agency and are kept operational and in readiness at all Fire Stations throughout the City.

The New Bedford Protecting Society Officers and Personnel constitute a most dedicated and capable body of citizens who, with a most modern salvage vehicle provided invaluable assistance to the Public and Fire Department. Serving without renumeration, the members of the Society avail themselves at any hour, day or night, in their effort to help keep the City's fire losses low. The Public should be more aware of their excellent service.

APPARATUS IN COMMISSION

11—Motor Pumping Engines, 6 - 1,000 G.P.M. and 5 - 750 G.P.M. Engines, all with booster hose and water hose and water tanks. Four have built-in liquid foam tanks used for flammable liquid fires. Six carry large deluge guns for use on large fires.

5—Aerial Ladder Trucks, 1 - 100 ft. and 2 - 85 ft. tractor-type and 2 - 75 ft. non-tractor type, all equipped with ladder pipes.

1—Rescue and Fire Boat, on trailer - available on call.

1—Hose Wagon with Booster and Water Tank, equipped with forestry hose, wet-water device, flammable liquid fire fighting appliances - on call.

1—Automobile for the Chief.

1—Automobile for the Deputy Chief.

4—Automobiles for the District Chiefs.

1—Automobile for the Drillmaster.

2—Fire Alarm Trucks.

2—Repair Division Trucks.

3—Automobiles for Fire Prevention Division.

1—Van for towing of Rescue SCUBA and Fire Boat.

1—New Bedford Protecting Society Salvage Truck.

APPARATUS IN RESERVE

1—Motor Pumping Engine, 200 G.P.M. with power take-off pump and water tank.

1—Motor Pumping Engine, 750 G.P.M.

1—High Pressure Fog Truck with 435 Gallon Water Tank.

FIRE HOSE

950 feet of 3-inch hose
28,750 feet of 2½ inch hose
16,900 feet of 1½ inch hose
1,000 feet of 1 inch hose
4,500 feet of ¾ inch hose
1,150 feet of ⅝ inch garden hose
127 Waterproof salvage covers carried on apparatus
10 Waterproof salvage covers carried on Protective Truck

NEW EQUIPMENT ACQUIRED DURING THE YEAR

Two Fire Alarm Boxes
Fire Alarm Line Wire and Related Equipment
Fire Alarm Underground Cables
Fire Alarm Batteries
New Fire Alarm Base Station
2,500 feet of 2½ inch fire hose
Two Walkie-Talkies
120 Riot Helmets
Ten Hose Clamps
Hose Nozzles and Siamese Connections
Protection for Fire Apparatus is in the process of being made.

My sincere thanks to the Mayor and City Council for the continuation of their excellent cooperation and good relationships with this Department.

Inter-Departmental cooperation is on the highest level. I extend my thanks to the Building, Wire, Water, and Public Works Departments.

Our news media, including the Standard-Times, radio stations WNBH and WBSM are outstanding in the presentation of fire ground activity and various other newsworthy items related to the functions of the Fire Department. Without their fine support our Educational and Fire Prevention programs would be impossible to achieve their objective — namely, "reaching the people".

The Salvation Army, Volunteers of America, and American Red Cross who faithfully dispense hot coffee and refreshments to our men at multiple alarm fires, deserve and receive our special thanks. May our fine relationship continue.

Many thanks to Civil Defense Director Mrs. Anne Fitch and her personnel for invaluable assistance in the fields of traffic, lighting, and availability of their Rescue Truck at multiple alarm fires.

Special recognition and many thanks are extended to the Company Officers, and Fire Fighters who on many occasions have demonstrated their ability to fulfill their duties in the highest tradition of our service. Their participation in the many civic endeavors of our City is worthy of admiration.

RECOMMENDATIONS

THREE (3) NEW 1000 G.P.M. PUMPING ENGINES: The engineers who tested our equipment during the past year recommended that three new pumpers as the minimum number that we should obtain because of the condition of our apparatus. Only one pumper, of those tested, met the required specifications.

Three new pumpers would replace Engines 2 - 7 - 10.

Engine 2 and 10 are 1947 and 1948 Ahrens-Fox pumpers respectively.

Engine 2 is one of the pumpers that is charged with the protection of our high value district and is located at Station 2.

Engine 10 is located at Station 10. This pumper has broken down repeatedly and because of age and the fact that Ahrens-Fox has not manufactured apparatus for over twenty years, make getting parts impossible.

Engine 7 is a 1952 Maxim located at Station 7. This pumper had two motor failures that cost in excess of $7,000.00 to repair and due to the fact that it has had so many pumping hours at the Garbage Plant, the pump is worn to a point where it also failed to pass the Underwriters test.

Our present active pumping engine age is as follows:

1 - 1947 (Ahrens-Fox)
1 - 1948 (Ahrens-Fox)
1 - 1952 (Maxim)
1 - 1953 (Maxim)
3 - 1954 (Maxim)
1 - 1955 (Maxim)
1 - 1956 (Maxim)
1 - 1965 (American LaFfrance)
1 - 1968 (Maxim)

REQUEST: $144,000.00

TWO (2) NEW AUTOMOBILES: These cars would replace a 1955 Pontiac and a 1968 Ford that was a former police car that had more than 120,000 road miles on it when it was transferred to the Fire Department.

REQUEST: $8,800.00

TWO (2) NEW FIRE ALARM BOXES: With increased new Construction in residential areas it becomes imperative that such areas be protected by adequate distribution of fire alarm boxes. Our citizens need and deserve such protection for the notification of fire.

REQUEST $600.00

FIRE ALARM WIRE, CABLE & RELATED EQUIPMENT: To replace old lead cable on Kempton St. from Chancery to Florence Sts. and to maintain existing cable.

REQUEST: $3,000.00

FIRE ALARM UNDERGROUND CABLE: Underground cable and pedistals are to be installed on Ashley Blvd. from Carlisle St. north and on Tarkiln Hill Road from Ashley Blvd. to Felton St. making it possible to install underground alarm circuits that are now overhead in old cable.

REQUEST: $2,400.00

TWELVE (12) POWER SUPPLIES: Power supplies to power 12 alarm circuits to fire stations. These will replace 12 that were installed in 1933 and will eliminate some batteries.

REQUEST: $1,500.00

FIRE ALARM BELLS: Four alarm gongs to replace old existing gongs in stations.

REQUEST: $600.00

TWO (2) TYPEWRITERS: To replace old typewriters in main office and Fire Prevention office.

REQUEST: $600.00

NEW 2½ INCH HOSE: 2,500 feet of 2½ inch hose to replace burst hose and hose now in use the replacement of which was advised by the Underwriters.

REQUEST: $3,100.00

NEW 1½ INCH HOSE: 2,000 feet of 1½ inch hose to replace old hose now in use.

REQUEST: $1,900.00

RIOT HELMETS: 38 Riot Helmets for new men.

REQUEST $1,330.00

HOSE CLAMP: All of the engine companies would now have this type of hose clamp.

REQUEST: $100.00

ADDING MACHINE: To replace adding machine now being used in main office that is twenty years old and beyond repair.

REQUEST: $300.00

TEN (10) SNOW BLOWERS: As per contract.

REQUEST: $3,500.00

SIX (6) LAWNMOWERS: As per contract.

REQUEST: $600.00

NEW RULE BOOKS: 500 Rule books for issuance to employees.

REQUEST: $500.00

FOUR (4) FIRE ALARM PEDESTALS: For installation of underground cable.

REQUEST: $600.00

HOSE CUTTER: This device would be of great value in the repairing and recoupling of damaged hose.

REQUEST: $170.00

FIVE (5) BATTERY CHARGERS: Battery chargers to replace five old chargers in stations.

REQUEST: $500.00

Respectfully submitted,
RICHARD T. GAUGHAN,
Chief

CAUSES OF FIRE 1971

10	Acetylene and blow torch carelessness
3	Arcing wire
10	Arson
42	Burning food
3	Careless use of candle
2	Careless use of inflammables
6	Careless use of matches
275	Careless smoking
385	Children with matches
14	Combustibles in contact with stoves, lights, etc.
63	Defective and faulty carburetors
11	Defective wiring
5	Exposures
2	Fumes ignited by sparks
2	Hot ashes
2	Incendiary
1	Leaking gas pipe
20	Leaking gasoline, oil or kerosene
2	Lightning
3	Overheated brake bands
8	Overheated drying machines
15	Overheated gasoline or electric motors
3	Overheated flatiron, electrical appliances
25	Overheated grease
9	Overheated stoves, ovens or fireplaces
8	Overheated stacks, pipes or chimney
2	Flourescent light transformer
3	Overheated tar
27	Overturned flares
27	Oil burners
25	Rekindles
2	Set by unknown person
90	Short circuits
4	Sparks from incinerator
4	Sparks from stove or fireplace
14	Spontaneous combustion
2	Suspicious origin
16	Undetermined
4	Under investigation
4	Wilful and malicious burning of property
34	Vandalism
4	Children with fireworks
38	Unauthorized burning
2	Overheated transmission

TUBERCULOSIS REGISTER AND ANNUAL REPORT

The Tuberculosis Register is enclosed. It lists 110 individuals who have had active Tuberculosis during the last 5 years. Eight persons reactivated in 1971.

1. Register:
    24 New cases reported
        10 Hospitalized: 6 at N.C.H., 1 at Univ. Hosp., 1 at Lakeville, 1 at Prov. V.A., 1 at Frances P. Memorial
        14 At home: 6 Clinic, 8 Private
    7 Old actives at home: 4 Clinic, 3 Private
    9 Quiescent
    4 Inactive less than 1 year
    14 ” 1 to 2 years
    14 ” 2 to 3 ”
    13 ” 3 to 4 ”
    9 ” 4 to 5 ”
    13 Undetermined
    3 Unlocated
    ———
    110

2. New cases reported
    10 Female
        4 Minimal — age 47 (2), 58, and 68 years
        2 Mod. adv. — age 30 and 64 years
    14 Male
        4 Minimal — age 28, 34, 42, and 78 years
        8 Mod. adv. — age 38, 53, 57, 59, 60, 62, 65 and 66 years
        2 Far adv. — age 52 and 60 years

3. 17 Aliens, diagnosis Pul. Fibrosis or T.B. suspects were permitted by Immigration to enter the U.S. to reside in New Bedford.

4. TB Testing
    Clinic: 1297 Mantoux tests. 324 Reactors = 25%
    School Programs 1970-1971
        3166 Tine tests: 72 Reactors (18 coalesced).
        54 Mantoux tests. 17 Reactors.
        35 Total Mantoux reactors and coalesced tines.
        Parents and siblings of above children are included in Clinic Mantoux tests.

Table 30

DIVISION OF MINIMUM HOUSING STANDARDS

The Division of Minimum Housing Standards of the Board of Health is comprised of one Director, six Code Enforcement Inspectors, one Senior Office Clerk, and one Junior Office Clerk.

The function of this Department is to effect compliance within the City of New Bedford with the provisions of Article II of the Sanitary Code of the Department of Public Health of the Commonwealth of Massachusetts.

The following is a breakdown of activities for the year 1971:

Areas inspected were West End (Study Unit 5) and Parker-Mt. Vernon (Study Unit 13).

Coding Inspections	
In (a) Structures	4130
(b) Dwelling Units	6873
Rechecks on Inspections	4038
Violations found on Inspections	1091
In (a) Structures	526
(b) Dwelling Units	1078
*Compliances (Violations Corrected)	6180
In (a) Structures	1977
(b) Dwelling Units	6167
Investigation of Complaints	404
Removal of Abandoned Autos	167
Appeals	0
Court Cases	6
Condemned Units	70
Rehabilitated Units	16

*NOTE: This figure includes compliances on complaints, and compliances on accumulated outstanding violations.

The work load is based on:

1. Systematic code inspection of areas as scheduled by the Planning Department in conjunction with the Workable Program.
2. Enforcement Activity:—periodic rechecks on notices sent out as a result of above inspections.
3. Investigation of complaints from the general public, tenants, City agencies, anti-poverty agencies, and property owners.
4. Inspections for Welfare Department.
5. Inspections for the Leased Housing Program under the New Bedford Housing Authority.
6. Removal and disposal of abandoned automobiles.
7. Board of Health hearings requested by Code violators.
8. Court activity.
9. Cooperation with other agencies.

GENERAL PROCEDURE

Three inspectors were assigned to systematic coding inspections of areas scheduled for inspection in 1971. These men also investigated complaints received from their assigned areas.

Three other inspectors were assigned to follow-up on notices already sent to owners; investigation of complaints received from other areas; and inspections requested by other agencies.

Office procedure as established has been effective in communicating with property owners, tenants, and other involved persons; using the mails, telephone and personal contact.

Personal contact with property owners, tenants, complainants, and others, is emphasized and essential in carrying out our work.

ENFORCEMENT ACTIVITY

To effect compliance with Article II of the Sanitary Code, periodic recalls are made to follow up on first notices and violation notices sent to owners or others involved.

Every effort is made to do this within 30 to 45 days, and sooner when required by emergency situations.

After the routine procedure has failed to effect compliance, the Director, as authorized agent of the Board of Health, may enforce the provisions of Article II of the Sanitary Code in the manner provided for in said Sanitary Code.

INVESTIGATION OF COMPLAINTS

The number of complaints received this year increased approximately ten per cent over those of last year.

Complaints continue as a result of rental increases, increased demands of tenants, resulting eviction notices, shortage of adequate housing units, and referrals from agencies such as the Welfare Department, Onboard Neighborhood Centers, Onboard Legal Services, and Multi-Service Center.

INSPECTION FOR WELFARE DEPARTMENT

These inspections are requested by the Welfare Department before a recipient moves into another dwelling unit. This procedure has helped in the efforts of both departments to improve housing standards and also to insure that a recipient does not move into a sub-standard dwelling unit.

INSPECTION OF LEASED HOUSING UNITS

These inspections are requested by the New Bedford Housing Authority to ensure that these units meet Minimum Standards of Fitness for Human Habitation before they are rented.

REMOVAL AND DISPOSAL OF AUTOMOBILES

There was a slight increase in this activity over last year. A total of 167 abandoned cars were disposed of this year at no cost to car owners or property owners.

This was accomplished using the services of two salvage firms, at no cost to the City of New Bedford.

COURT ACTIVITY

A criminal complaint brought against code violations, through the Court, is filed as a last resort after all other efforts have failed to gain compliance.

Six court cases were disposed of satisfactorily.

COOPERATION WITH OTHER AGENCIES

This Department worked closely with other City Departments, Welfare Departments, New Bedford Housing Authority, New Bedford Redevelopment Authority, Onboard Centers, Onboard Legal Services, Concentrated Code Project, Housing 70 Corporation, and Model Cities.

CONCLUSIONS

A. Although enforcement activity has been successful in effecting compliance with the Sanitary Code, some violations are outstanding because of the following reasons:

(1) Older structures in the City, single family and multiple dwelling units, which met **minimum standards** a year or more ago, have deteriorated to a point where they are now in violation because of plumbing defects, electrical defects, and the need of interior and exterior maintenance.

As stated in a General Accounting Office study published in January 1972, "replacement of much of the City's aged housing stock eventually will be needed . . ."

(2) Shortage of tradesmen to do work required; and the difficulty of obtaining a tradesman to do a small electrical or plumbing job.

(3) Transfer of property from one owner to another hampers enforcement activity in that we have to again start our notification process from the beginning.

(4) Investigation of complaints from tenants because of rent increases, eviction notices, etc., usually results in violations being recorded.

(5) Other outstanding violations are in process of being corrected through procedures outlined under General Procedure.

B. Now the general public is more aware of Minimum Housing Standards and is insisting on higher quality living conditions.

C. Most property owners realize that they must maintain their property in good repair and are cooperative with this Department. However, there still remain some owners who have to be forced to comply with the Code.

1. LETTER OF TRANSMITTAL

31 December 1971

Honorable George Rogers, Mayor
Mayor-Elect John A. Markey
Honorable Members of the City Council,
and Councillors-Elect
Municipal Building
New Bedford, Massachusetts

It is with pleasure that I submit to you the Annual Repo of the Model Cities Administration for the year 1971. This the fourth report to be developed outlining the activities of th Program for the City's fiscal and program year.

This past year was the most significant for the Mod Cities Program in its history. Nearly all projects attained the scheduled rates of activity, and were generally achieving in portant results for the Model Neighborhood Areas.

Efforts to reorganize the Program along lines of strengt ening its management were accelerated, and coordinated close with those of the City Administration. Numerous steps wer simultaneously taken to develop citizen participation, especiall within the Community Involvement Component. These tw areas will receive increased attention in the coming year, wit a view toward modifying them to meet changing Program r quirements, as a result of both local and Federal directives.

We were especially pleased this year with the detaile attention given to significant Program matters by the Cit Council and Model Neighborhood residents during the pr sentation of the Third Action Year Plan, and for the effor

t forth by various Project Directors in behalf of their agen-
es. It is my opinion that the Program is most fortunate in
ving available this wide range of talent, professionalism, and
ncern. We look forward to the further contributions these
forts will make toward the development of our City.

Finally, I would like to thank Mayor George Rogers for
s support of the Program during his term of office, and the
ty Councillors who will not be on the Council next year.
e look forward to serving Mayor John Markey and his Ad-
inistration, and take this opportunity to express our appre-
ation to him and all concerned for the spirit of cooperation
own in this transition period since the November election.

We again look forward to the New Year and to working
th you.

Sincerely,
MODEL CITIES
ADMINISTRATION
Richard A. Pline,
Director

City of New Bedford

1. LETTER OF TRANSMITTAL

31 December 1971

To: Members of the Model Cities Planning Council

Attached is a copy of the Model Cities Administration's Annual Report for 1971, the fourth such report to be submitted to you, the Mayor, and the City Council.

I hope you will give it careful consideration and discuss its recommendations thoroughly at your meetings.

We are appreciative of your assistance and response during the past year, and look forward to greater progress in the coming year.

Sincerely,
MODEL CITIES
ADMINISTRATION
Richard A. Pline,
Director

David Gomes salary: $7,500	Community Information Officer
Lorraine Carney salary: $3.50/hr.	Secretary (Part-Time)

6. NARRATIVE REPORTS

SUMMARY

This section presents basic information on the progress of the Model Cities Program in the Year 1971, including program highlights, a summary of the Third Action Year Plan and recommendations.

a - PROGRAM HIGHLIGHTS

Mayor Rogers was notified by letter from Secretary Hyde on 26 February 1971 of the approval of the Second Action Year Program and a letter from the Boston Regional Office dated 29 March 1971 transmitted the executed Grant Agreement.

The CDA completed a list of objectives for the Second Action Year. These objectives were reordered and modified, and progress toward meeting them was evaluated during the year.

In response to HUD's request for clarification of roles and responsibilities of the various parties locally involved in the Model Cities Program, a document entitled, "Functional Relationships in the Model Cities Program", was developed and agreed to by Mayor Rogers, the CDA Director, the Model Cities Planning Council, and the Community Relations Director. After approval, the document was forwarded to the HUD Regional Office for review. It describes in some detail the missions of the CDA and the Community Involvement Component, including the elected Planning Council, and outlines procedures to be followed with respect to Program planning and selection of personnel.

In the Second Year, 17 Agreements with nine separate Operating Agencies, were required. All Work Plans were modified extensively for the Second Year in order to reduce the iarrative portion, and develop a more accurate system of objectives and criteria for evaluation as well as evaluation procedures.

In compiling data for compliance with CDA Letter #11, t was found that current employment in all Model Cities-unded activities totals approximately two hundred and twenty (220) full-time and part-time employees. It was found that pproximately seventy-nine (79) percent of these employees vere residents of the Model Neighborhood Area.

An extensive document was written and submitted to HUD oncerning relocation procedures and data for the Second Action ear. This statement updates the previously-approved plan of une 1970, and incorporates the provisions of the Uniform elocation Assistance and Real Properties Acquisition Act of 970, as well as the projected relocation in the West End Urban enewal Project.

A training program designed to upgrade MNA resident mployees was funded with PSC monies through the Southastern Regional Planning and Economic Development District. Supervisory and Human Relations training sessions were nitially conducted for those personnel to whom the resident rainees were responsible. An evaluation training course was onducted by the consultant firm, Economic and Social Developnent Institute (ESDI) to provide the training required by UD. Continuous planning was developed on a concentrated asis with the advent of CDA staff restructuring. Planning taff members on the para-professional level were assigned to vork in specific project and program areas so that a greater legree of professionalism would be developed.

ROGRAM HIGHLIGHTS

Only a brief description of projects and activities from he Second Year Plan will be given. These activities are covered n more detail in quarterly reports which have been submitted reviously.

INFORMATION AND EVALUATION

As most of the Model Cities Projects achieved optimum levels of performance beginning in the Second Action Year, it became possible and essential to initiate a systematic program for the assessment of project efficiency in achieving objectives. The development of such a program was undertaken by CDA and project staffs with the assistance of the consulting firm, Economic and Social Development Institute. With a full compliment of staff, an efficient information and evaluation system became operational during the latter part of the year.

RECRUITMENT

The policies developed and followed by the Model Cities Administration and component projects have been aimed toward placement of Model Neighborhood Area residents in positions at all levels in the Program. The CDA and all other Model Cities projects have made every effort to comply with the HUD directive, CDA Letter #11, which, mandates MNA resident employment whenever feasible.

COMMUNITY INVOLVEMENT

In response to the demands of the "Model Cities Ten", a separately-funded administrative adjunct to the elected Model Cities Planning Council was established during the First Action Year and became fully operational during the Second Action Year. Effected during the Second Action Year was the restructuring of the Planning Council's meeting schedule and the formation of community task forces. Community Involvement staff members also assisted in the organization of Parent-Teacher Associations in two MNA schools.

YOUTH RESOURCES AGENCY

The Youth Resources Agency became fully staffed during the first quarter of the Second Action Year. Provided to all new staff members was an extensive training program in the multi-faceted operations of Y.R.A. projects. Completed during the year were the initial stages of planning for a community-based, residential center for troubled youth.

HOUSING/70 CORPORATION

The Housing/70 Corporation continued its Homeownership and Rehabilitation Loan and Grant Program during the Second Year. Major accomplishments included the acquisition of 2.8 acres of severely blighted residential property in the South Water Street area and the demolition of structures existing on that property. This action was conducted in anticipation of the construction of 60-80 new dwelling units. The project also assisted in the relocation of those forced to vacate by the demolition.

CONCENTRATED CODE ENFORCEMENT

During the Second Action Year, HUD granted final approval for the initiation of a housing rehabilitation program within the MNA. The C.C.E. target area includes sections of two MNA sub-areas and contains 2,225 dwelling units, a figure representative of slightly more than one-third (1/3) of all the units within the MNA. Projections based on initial on-site inspections indicated that 890 of these units would eventually be rehabilitated.

AUGMENTATION OF RECREATION

Within the four MNA sub-areas, the Model Cities Recreation Project developed and implemented a twelve month program of leisure-time activities which included baseball, softball, football, and basketball.

Undertaken also during the Second Action Year was the physical rehabilitation of the Standard Times Field. Improvements completed included the installation of lighting, spectator accommodations, and the general upgrading of existing fields.

PORTABLE PLAYGROUNDS

Improvements were made on a) Bonney Street Tot Lot, b) Acushnet Avenue Tot Lot, and c) Francis Playground. A new tot lot located on Mott Street was designed and built. Plans were developed and included in the Third Year Plan to combine the administration of this project with other closely-related projects.

BEAUTIFICATION

Several hundred trees were planted throughout the MNA in accordance with a design completed during this year. Plans were formulated to expand the scope of this project to include other street amenities and to concentrate activities in one or more "Impact Areas".

MULTI-SERVICE CENTER

The Multi-Service Center is an ongoing project which continued to provide, during the Second Year, a variety of rehabilitative and referral services to the residents of the four Model Neighborhood Areas. Services provided by the Center included welfare assistance, psychiatric consultation, home management assistance, speech therapy, newcomers' orientation, and medical consultation.

EDUCATION COMPONENT

Funded by the New Bedford Model Cities Program are seven education projects which are jointly administered by the Model Cities Education Coordinator and the New Bedford School Department, with the cooperation of individual project directors. Operational changes in the education projects that occurred during the Second Action Year are as follows:

Two Pre-School Day Care portable classrooms, accommodating a total of thirty children, became operational.

Relocated to more spacious quarters at the DeValles School, was the In-Service Training and Curriculum Development Program which established a Curriculum Resource Center at the DeValles School, and a High Intensity Skills Center at the Carney Academy.

The Youth Adjustment Program continued to broaden its outreach activities for its programs of pupil appraisal, counseling, information dissemination, placement, and follow-up.

Kitchen construction for the Breakfast & Lunch Program was completed during the Second Year with a resultant expansion of hot lunch services.

Thirty-five MNA residents were employed as School Aides during the Second Year, providing supportive services to fifty-eight professional instructors in seven MNA schools. In an effort to further develop the para-professional competence of the School Aides, a comprehensive training program was initiated which stressed instruction in human relations, basic tutoring skills, and elementary educational psychology.

The Work Study Program was able to maximize its impact on school dropouts through the initiation of a Vocational Training Project. This component also became operational on a twelve month basis, thus ensuring continuing client contact and follow-up.

A comprehensive analysis of the educational needs of the MNA and the City was completed during this period by the consulting firm of Booz, Allen, and Hamilton. Its trenchant insights and suggestions provided a sound basis for the planning of both new school construction and curriculum revision.

PERSONNEL CHANGES

S. Henry Kaplan, Program Development Specialist, resigned and was later replaced by Gloria J. Clark. Cynthia Deslauriers, Manager, Office Services, resigned and was replaced by Barbara Castro, formerly Secretary to the Education Coordinator. Louise Robinson, formerly Executive Secretary at Housing/70 Corporation, was appointed Executive Secretary to the Assistant Director. Carolyn Dlouhy was appointed part-time Swain School Work/Study Student and was later hired full-time as Program Assistant. Margaret Call, SMU Work/Study Student, later resigned during the year. Cynthia Soares, Finance Services Technician, resigned to accept a position as Fiscal Officer in the Education Coordinator's Office. She was replaced by Carol Pittsley. Lorraine Fortier, Senior Secretary, was upgraded to Planning Assistant and was replaced by Donna Dias. Deborah Alves, Clerk-Typist, resigned and was replaced by Catherine Graca, Secretary, by upgrading her to Senior Secretary. Barbara Lopes, Clerk-Typist, was upgraded to Secretary, and her vacant position was filled by June Monteiro, a former part-time employee in the Education Coordinator's Office. Catherine Graca, Senior Secretary, later resigned to accept a position in private industry and was replaced by upgrading June Monteiro. James Magnett, Jr. was appointed Information Specialist and later resigned from his position at the end of the year. Diane Harris, Finance Services Technician, resigned to accept a position as Fiscal Officer at the Youth Resources Agency and was replaced by Pauline Cardoza who was later upgraded to Senior Finance Officer. Donald Fernandes, Finance Services Technician, resigned and was replaced by Lorraine Pothier. John LaBrode, Junior Planner, resigned to accept a position as Planner for Housing/70 Corporation and was later rehired by the CDA as Community Development Specialist.

Robert Alves, Junior Planner, resigned and was replaced by Walter Conward. Jonathan Howland assumed new duties as Development Coordinator and Gloria Clark was appointed Director of Planning and Evaluation. Mr. Howland later resigned. Robert Meggison was appointed Junior Planner and was assigned to the Community Involvement Component. George Lavoie, Office Assistant from the Model Cities Work/Study Program, resigned to attend Emery Business School and later joined the U.S. Army. He was replaced by Randall Soares. Barbara Lopes, Secretary, resigned to attend Fisher Junior College and was replaced by Carol Ferreira. The following three Work/Study Students were hired for the summer: Susan Pimental, from SMU, was assigned to the Fiscal Office. Charlene Roderick and Dennis Rose, from the University of Massachusetts, were assigned to the CDA. All three students returned to school in the Fall.

6b - THIRD ACTION YEAR NARRATIVE

X SUMMARY OF THIRD ACTION YEAR PLAN

INTRODUCTION

The Third Action Year Plan, developed on schedule and submitted to the City Council by Mayor George Rogers, was approved by the New Bedford City Council on 23 November 1971. It contains fifteen (15) projects representing strengthening of activities which have, for the most part, reached large scale development during the Second Action Year. The Second Action Year represented the first full year of continuous project development. The year was one which saw relatively stable conditions in the City and the MNA with the exception of worsening economic conditions produced by national events.

New Bedford's Comprehensive City Demonstration Program began with a Planning Grant in March 1968. The Program was submitted to HUD in May 1969, and the First Action Year began on 1 February 1970.

The Model Neighborhood Area of New Bedford consists of four (4) sub-areas totaling approximately 19,000 persons. It is comprised of two (2) non-contiguous parts — the South End Area of approximately 56 acres and the West End Area of approximately 85 acres. The West End Area is a designated Urban Renewal Project which has entered the execution phase during the Second Action Year. The population of the City of New Bedford is 101,777 persons, as determined in the 1970 census.

Two distinctive characteristics of the New Bedford MNA are; its ethnic mix and its increasing population. The increase is caused by immigration. Approximately half of MNA residents are of Portuguese descent and represent a variety of Portuguese cultures. In addition, there is a Puerto Rican population of about 1,200. With the inclusion of the West End Area in the First Action Year, the MNA now encompasses most of the non-white population of the City, which is estimated to be approximately twelve (12) percent.

While the MNA is an area composed of many neighborhoods which are divided by physical, language, or other differences, it is similar in terms of its generally strong family structure and common problems in employment, education and housing.

CITIZEN INVOLVEMENT

The Third Action Year Plan was developed with the assistance of Task Forces, Operating Agencies, and with technical assistance from a variety of public and private agencies. The results of all these efforts were assembled by the CDA staff, then studied and approved by members of the Model Cities Planning Council, who have been elected from the MNA. The Planning Council is the designated citizen participation policy body for the Program. The Second Action Year represented the first full year of operation of the Community Involvement Component, organized in the First Action Year to provide an increased budget and staff, responsible to the Planning Council, to carry out major citizen activities of community organization and information.

In accordance with revised HUD policies on responsibilities for operation of the Program, a tri-partite agreement was negotiated early in the Second Action Year to define the responsibilities and operation of the three (3) major participants in the Program — the Mayor, the CDA, and the Planning Council. The agreement is entitled, "Functional Relationships in the New Bedford Model Cities Program", and was promulgated by an Executive Order of the Mayor. The by-laws of the Planning Council were amended in order to update a number of considerations and to set the date for the next Mini-Election for May 1972, thus allowing for this process to take place in warmer weather. It is thought this is a necessary requirement to facilitate proper participation. In addition, the Planning Council has provided for the appointment of one or more at-large members with full voting privileges so as to provide for more specific representation of minority communities.

STRATEGY

The concept of "Impact Areas" developed in the First Action Year remains the basic strategy for the Second Action Year. The Impact Areas are in effect small urban villages and relate closely to the several ethnic communities which exist in the MNA. At least three (3) such areas have been identified and intensive planning and program development have been underway for each of them.

The major priorities outlined in the City's Comprehensive Demonstration Program of 1969 remain the same — housing, education, and economic development. However, health and social services have been elevated to the status of a major priority for the Third Action Year. Other related priorities are seen as complimenting these four (4) major priorities. Projects and activities in the Third Action Year Plan are designed and interrelated around this system of priorities. These priorities for the Model Neighborhood Area are consistent with views of the City as a whole.

MAJOR PRIORITIES

Housing/Physical Environment

The physical environment of the Model Neighborhood Area is a product of another era. The width of the streets, the presence of factory complexes among residential areas, the types of housing and the absence of amenities reflect a period when textile industries dominated the City's economy. This is not to say that the basic structure of the MNA was or is poor. What the area lacks most is investments, both public and private. Little in the way of new housing or community facilities has been constructed in the MNA for decades. No coordinated effort for the preservation, redevelopment, or upgrading of the Area has existed in recent years.

The Model Cities Program is approaching the task of upgrading physical environment of the MNA in a variety of ways, utilizing a number of techniques. Two (2) housing programs sponsored by Model Cities, Housing/70 Corporation and the Concentrated Code Enforcement Program are engaged in housing rehabilitation, homeownership, technical assistance, and the construction of new housing. Loans are offered at low interest rates allowing MNA residents who otherwise would not be able to rehabilitate or own a home to do so. Now housing construction will be subsidized in order to reduce rents for low and moderate income families. Approximately 80 units of new housing are planned in the first Impact Area on South Water Street.

It is estimated that approximately $2.4 million has been invested in housing as a result of Model Cities programs to date. This figure should reach $5.6 million by the end of Year II. Through the Recreation and Beautification Programs, Model Cities has planted trees in the MNA, built playfields and tot lots, increased the amount and amenities of open space and will engage in street scape improvements. The Environmental and Economic Improvements Project in the Third Year Plan has been developed to combine three (3) formerly separate projects to create a more flexible activity which should provide for more visible and effective physical development of the Area.

The impact of the Model Cities Program on the local economy mostly results from the purchase of goods and services and direct employment of residents. Total expenditures by programs funded wholly or in part by Model Cities will reach over $4 million during the Third Action Year. In addition to the direct impact of the Model Cities programs, employment, and purchasing powers, the CDA has provided for assistance to the Business Opportunities Development Center of the Urban Coalition through CDA staff participation; namely, the Development Coordinator and Community Development Specialist.

EDUCATION

The New Bedford Model Cities Education Component has planned, developed and implemented approximately ten (10) projects in the New Bedford Public Schools. The Operating Agency is the New Bedford School Department. A Breakfast and Lunch Program currently feeds approximately 2,000 children daily and operates a pilot breakfast program in three (3) of the seven (7) MNA schools. The project provides food services for the elderly and other schools. The Pre-School Day Care Program serves 30 MNA children in two (2) centers. In Year III, the project will expand to 60 children through the addition of two (2) centers. The In-Service Training and Curriculum Development Program operates from a modern, well-staffed and well-equipped center in the DeValles School. It is a resource for students, administrators, parents and teachers. The School Aides Project currently employes 35 aides who are receiving training and college credit courses. They assist classroom teachers in basic school subject areas. In Year III, five (5) additional aides will be hired and trained. The Work Study and Comprehensive Placement Program provides counseling and job placement, and arranges scholarship assistance to MNA high school students. Over 250 students have been placed in jobs to date. Over 2,400 counseling appointments have been kept. The Elementary School Guidance and Youth Adjustment Counseling Project places counsellors in MNA schools and provides contact with families through para-professionals. The case load is currently over 360, serving over 300 families. The Expanded School Day Project has provided cultural enrichment programs and field trips for children on afternoons when teachers are in training. This project will be sponsored by the YWCA in Year III under the title, New Horizons Program. This represents an expansion of the project to serve more children and to extend programs into the summer. The Education Coordinator's Office diversifies funding, provides administrative assistance to the School Superintendent's office, the CDA, City Departments, and Education Project Directors. It also provides supervision, coordination, and fiscal assistance to the Education Projects.

HEALTH AND SOCIAL SERVICES

The Model Cities Program providing major services in these areas is the Multi-Service Center, sponsored by the Community Council of Greater New Bedford, Inc., a non-profit organization representing private and public agencies and institutions, and is closely affiliated with the United Fund. Services of the Center will be expanded in Year III to provide two (2) Satellite Centers in other portions of the MNA as well as diagnostic medical services, in addition to services presently available. The case load to date is over 400 and 1,500 cases are projected for Year III. Direct services by telephone have exceeded 11,000 cases. A Health Planner will be added to the staff of the Multi-Service Center thereby increasing the capacity of the Center to develop additional health services and test new ways of delivering them.

RELATED PRIORITIES

Crime and Delinquency

The major project in this component is the Youth Resources Agency which studies, coordinates, and develops projects related to the early detection and treatment of delinquency. The Agency has received funding from the Governor's Committee on Law Enforcement and Adminstration of Criminal Justice. In addition to maintaining its own case load of young people in need of services, or who have been referred from other agencies, the Youth Resources Agency has provided planning and other assistance to youth projects operating in the City and the MNA. It has developed a Community Residential Center which will provide a temporary, comprehensive living environment for twelve (12) to fifteen (15) young people in need of supervision, without disruption of their school and social life. This project is expected to be fully operational during the Third Action Year.

RECREATION

Four (4) playgrounds were developed during the First and Second Action Years to provide additional playing space. A fifth area, a large playfield, was developed to provide for expansion of softball, football, and basketball leagues. Portions of the field were lighted. Plans for Year III include the further development of these areas and the addition of several smaller areas in specific locations.

The Community Youth Program, which operates four (4) Centers, was transferred to other funding although coordination will be carried on through the CDA and the Youth Resources Agency, with respect to serving MNA young people.

STATEMENT BY MAYOR GEORGE ROGERS

"In my review of the Third Action Year Plan, I have found that it makes significant advances over last year and provides for meeting a number of needs which were brought to the attention of my office, Model Cities Agencies, and the City Council during the year. I am happy to report that a number of activities were accelerated during the past year and that several operational hurdles have been overcome. These steps have been taken with the assistance of many City Departments, residents of the Area, and others. I believe these efforts will result in improved services and benefits to the Model Cities Area, and the City in the Third Action Year."

SUMMARY OF APPROVED THIRD ACTION YEAR PROGRAMS

Model Cities Administration
New Bedford, Massachusetts
November, 1971

Project/Activity Title	*Purpose*	*Operating Agency*	*Estimated Total Budget*	*Supplemental Funds Allocated*
Housing Office (Comprehensive Housing Assistance)	To provide financial counselling and resources for the development of new and improved housing	Housing/70 Corporation	$3,142,287	$ 300,000
Model Cities Improvement Area	To plan and execute NDP project for new housing construction, rehabilitation and new school	Redevelopment Authority	1,250,000	250,000 (Carry over)
Concentrated Code Enforcement	To provide inspection, advice and funds for improving housing in parts of Areas II and III of the MNA	Concentrated Code Enforcement Agency	204,189	34,700
Environmental and Economic Improvements	Carry out specific physical development projects, provide assistance to Business Opportunities Development Center and coordinate economic development impact in the MNA	City Planning Department and City Agencies	84,000	84,000
Education Coordinator	To provide administration and coordination of Model Cities sponsored education programs	School Department	99,426	76,514

School Planning/ Construction	To plan, design, and build new schools	School Department	1,114,071	525,000 (Carry-over)
Pre-School Day Care	Assist MNA families in preparing 3-5 yr. old children for entry into elementary system and close adjustment gap	School Department	217,179	157,000
In-Service Training/ Curriculum Development	To raise. teacher's skills, and adjust curriculum to MNA needs	School Department	168,013	146,500
Youth Adjustment Counsellors (Elementary School Guidance)	To provide adequate education and motivation counselling for MNA students at elementary level	School Department	90,160	67,780
Breakfast & Lunch Program	To prevent inadequate diet from inhibiting full intellectual development of MNA students	School Department	412,337	170,508
School Aides	Assist teachers with classroom activities and in communicating problems to the home; develop para-professional positions	School Department	197,692	180,692
Work Study/Comprehensive Placement	Para-professional positions to develop visible "Pay off" to reduce drop-out rate through producing part-time jobs and placement in good positions	School Department	141,387	51,028

Project/Activity Title	*Purpose*	*Operating Agency*	*Estimated Total Budget*	*Supplemental Funds Allocated*
Greene School	To continue experimental work of this "magnet" school	School Department	Included in City budget and budgets above	
Multi-Service Center	Develop an integrated social service system; expanded assistance to MNA families	Community Council of Greater New Bedford, Inc.	320,074	288,000
New Horizons	To provide concentrated cultural enrichment opportunities for MNA children on a year round basis	YWCA	30,756	30,756
Augmentation of Recreation Department Programs	To provide increased personnel and programs for more recreation in MNA	Recreation Commission	92,000	92,000
Youth Resources Agency	Develop an Agency which can provide intensive detection, treatment and living-in facilities for youth which will help them avoid committing criminal acts. Establish a Community Residential Center	Youth Resources Board	242,182	60,700
Program Administration	To operate administration, planning and evaluation aspects of the Program	Model Cities Administration	225,000	180,000

Community Involvement	To achieve effective citizen participation in the Model Cities Program	Model Cities Planning Council	123,822	123,822
Information/Evaluation Systems	Operate effective information and provide basis for Program decision-making	Model Cities Administration	65,000	65,000
		TOTALS:	**$8,219,575**	**$2,109,000**

6c. RECOMMENDATIONS

The United States Department of Housing and Urban Development sponsored a HUD Project H-1636 (A Management Diagnostic Analysis, Diagnostic Survey Report), which was carried out in five (5) New England States by Arthur D. Little, Incorporated in collaboration with Circle Associates. A report was submitted to the New Bedford CDA in December, outlining certain recommendations for internal and external operations which are listed below:

Recommendations for Internal Problems

1. We have recommended that the "evaluation" function of the Planning and Evaluation Department be split up, with the project monitoring remaining within the CDA and project impact evaluation being transferred to the New Bedford City Planning Department. We regard any present deficiencies in project monitoring to be the temporary resultant of the relative newness of this function in the CDA. We believe this situation to be a rapidly improving one, but requiring additional remedial action at this time. On the other hand, we feel that the complexities of project impact evaluation could be better dealt with by the City Planning Department.

2. The CDA staff is too small to efficiently carry out its current load of planning, management and evaluation functions. On the one hand, staff expansion would encounter hostility from both the MNA residents and from the City Council. On the other hand, the Circle/ADL team believes that the CDA would be more effective anyway if it confined itself to special projects administration and divested itself of all non-management oriented functions. Accordingly, we have also recommended that the "planning" function be split up, with project development remaining in the CDA and with comprehensive project planning being transferred to the City Planning Department. With this transfer of both the comprehensive planning and impact evaluation functions to the City Planning Department, the CDA would be left with sufficient staff

for dealing with the remaining project development, project management, and project monitoring functions.

Recommendations for External Problems

1. The New Bedford MNA is a fragmented, disorganized neighborhood lacking even the minimum community leadership necessary for adequate participation in the complex Model Cities process. The use of the dramatic, issue-oriented, militant community organization tactics which are clearly required to rally such an unorganized community runs counter to the current philosophical values of Model Cities as we understand them. These values therefore preclude our making recommendations for dealing with this crucial problem other than those non-militant kinds which have already been tried by the New Bedford CDA with little success.
2. We have, however, been able to identify a mechanism which would address itself directly to the problems of guaranteeing Mayoral involvement and the coordination of Model Cities actions with those of other related agencies; and indirectly, but effectively, to reducing the hostility of the City Council. We recommend that a Coordinating Committee be established which would be chaired by the Mayor and would include the Directors of the five HUD sponsored agencies in New Bedford: Model Cities, City Planning, Concentrated Code Enforcement, Redevelopment Authority and Housing Authority. This "cabinet" committee would coordinate member agencies' day to day administrative decisions on issues having inter-agency impact. Interestingly enough, this idea was independently conceived by the HUD Area Office. It has already taken steps to establish the project application function of this committee; whereas we have directed our efforts towards identifying the day to day administrative functions and structural requirements.

Special Recommendation to HUD

Expand professional development and training programs for the staffs of Model Cities and other HUD-sponsored agencies in New Bedford.

ANNUAL REPORT

OF THE

INSPECTOR OF WIRES
POLICE SIGNAL SYSTEM
STREET LIGHTS

TO THE CITY COUNCIL

FOR THE YEAR ENDING DECEMBER 31, 1971

For the City of New Bedford

Massachusetts

BAKER PRINTING
1972

New Bedford, Massachusetts

August 8, 1972

To the City Council of the City of New Bedford:

Gentlemen:

I respectfully submit the annual reports for the following departments for the year 1971:

Inspector of Wires
Street Lights
Police Signal System

INSPECTOR OF WIRES

Inspections for the year numbered 5044, an increase of 873 over 1970. There were 1660 reports of defective wiring sent to owners, tenants and electricians. This department is seriously concerned about defective wiring and every effort is given by the inspectors to see that these conditions are remedied. Among the most frequent causes of building fires in the United States, "Electrical" is number one.

There were 83 petitions from the New Bedford Gas and Edison Light Company and the New England Telephone Company for new poles and underground ducts which were approved and sent to the City Council. These petitions involved 126 poles, 10,705 feet of underground duct, and 21 manholes.

Stephen Lopes was appointed an Assistant Inspector of Wires in April and resigned in June. Edward R. Lopes was appointed to the position on June 19th. Robert Bonville was also appointed as an Assistant in December.

Some of the larger electrical installations inspected were as follows:

First National Stores (2)
Shawmut Village
New Bedford Hotel
Veterans Building
Whaling Museum
Boa Vista high rise apartments
Frionor freezer plant

Plans and specifications were prepared for new electrical systems in the following schools:

Charles S. Ashley School
Hannigan School
Congdon School
Phillips Ave. School
Carney Academy
Greene School

Hawes Electric Company was awarded the contract for the electrical installation at the Roosevelt Jr. High School.

The City of New Bedford Christmas Display was erected again on the Harold H. J. Clasky Memorial Park. Students from the Electrical and Carpentry Departments of the New Bedford Vocational High School contributed their skills along with the following City Departments:

Department of Public Works, Fire Department, Police Signal System, Building Department and the Water and Park Departments.

The following is a breakdown of the work completed this year:

2W receptacles	3680
3W receptacles	727
New buildings	95
110V motors	11
220V motors	8

Red Tags	35
Permits issued to N. B. Gas and Edison Light Co.	855

The operating expenses for the year were:

Encumbrances	$ 10.00
General Expenses	1,631.57
Salaries and Wages	46,077.71
New Equipment	2,931.68
Christmas Decorations	4,975.56
Totals	$55,626.52

STREET LIGHTING

The budget for the year was increased to $274,000.00, an increase of $20,000.00 over 1970. The work of replacing all the 1000 lumen lights with 2500 lumen lights was completed early this year. Late in the year new mercury lighting was ordered for Hathaway Blvd., Liberty St. and Parker St. and the Industrial Park. New mercury lights were Installed on Kempton Street from Emerson Street to Tremont Street; Eighth Street from Spring Street to Elm Street; Sawyer Street, east and west of Acushnet Avenue and on Coggeshall Street from Belleville Avenue to Purchase Street. Additional lights were installed in all sections of the city where needed.

At the end of the year there were 6393 street lights in operation. The following is a breakdown of the cost and the number of lights now in operation:

4154 - 2500 lumen O. H. Open	@	34.80	per year
15 - 2500 lumen O. H. Enclosed	@	37.80	per year
877 - 2500 lumen Post Top	@	37.80	per year
4 - 2500 lumen U. G. Open	@	79.80	per year
37 - 2500 lumen U. G. Enclosed	@	82.80	per year
1 - 2500 lumen U. G. Enclosed - New Loc.	@	117.72	per year
71 - 4000 lumen O. G. Enclosed	@	45.00	per year
43 - 4000 lumen Post Top	@	45.00	per year
5 - 4000 lumen U. G. Enclosed - New Loc.	@	124.92	per year
61 - 4000 lumen U. G. Enclosed	@	90.00	per year
78 - 6000 lumen O. H. Enclosed	@	51.00	per year
44 - 6000 lumen Post Top	@	51.00	per year
33 - 6000 lumen U. G. Enclosed	@	96.00	per year
1 - 6000 lumen U. G. Enclosed - New Loc.	@	131.04	per year
27 - 7000 lumen O. H. Enclosed	@	63.00	per year
7 - 7000 lumen U. G. Enclosed	@	108.00	per year
1 - 7000 lumen U. G. Enclosed - New Loc.	@	143.04	per year
10 - 10,000 lumen O. H. Enclosed	@	72.00	per year
1 - 11,000 lumen U. G. Enclosed	@	121.20	per year
384 - 20,000 lumen O. H. Enc. C. I. Mercury	@	81.00	per year
341 - 20,000 lumen U. G. C. I. Mercury	@	126.00	per year
16 - 20,000 lumen U. G. C. I. Mer. New Loc.	@	160.90	per year
4 - 21,000 lumen O. H. Enclosed fl.	@	96.00	per year
175 - 21,000 lumen U. G. Enclosed fl.	@	141.00	per year
3 - 21,000 lumen U. G. Encl. fl. New Loc.	@	175.92	per year

The expenses for the year were: $271,076.82

POLICE SIGNAL SYSTEM

Ronald P. Yates returned to the department on June 19th under a provisional appointment as a Police Signal System Electrician. Kenneth M. Tripp was appointed provisionally in July as as Assistant Police Signal System Electrician. Gerard Bentley resigned as an Assistant in June.

There are 49 intersections equipped with traffic signals including 5 new intersections that were completed this year. 684 traffic signal lamps were replaced, 149 repairs were made and the equipment at 17 intersections were painted.

A new floodlight was installed at Buttonwood Park skating pond. The new garage at Buttonwood Park was wired. Electrical maintenance work was also done for the Park Department, Airport and the Department of Public Works.

The following is a report of the work performed this year:

Police Station #1	22 repairs
Police Station #5	6 repairs
Police boxes	2 repairs
Pedestals	7 repairs
Underground cable	9 repairs
Overhead lines	35 repairs
Traffic Signals	149 repairs
Traffic Signal Inspections	29

The operating expenses for the year were as follows:

Encumbrances	$ 18,960.30
General Expenses	52,987.98
Salaries and Wages	30,683.05
New Equipment	3,576.00
Total	$106,207.33

Respectfully submitted,

WALTER E. MONT
Inspector of Wires

CITY OF NEW BEDFORD
BOARD OF PARK COMMISSIONERS

December 31, 1971

To the Honorable City Council

Gentlemen:

The Seventy-Eighth Annual Report of the Board of Park Commissioners on Parks, together with reports on Bath Houses, Playgrounds, and Militia under the control of this Board, is herewith presented in accordance with the provisions of law for the fiscal year ending December 31, 1971.

The Board held twelve regular and four special meetings during the year. Organizing in May, 1970, for the ensuing year, they elected Frank Vieira as chairman and William Smith, secretary.

John W. Clauretie of 546 County Street was awarded the Buttonwood Park concession for one year, beginning June 1, 1971 and ending May 30, 1972. His bid of Three Thousand Dollars, ($3,000.00) was the sole offer.

The Brooklawn Park concession was also awarded to Mr. Clauretie for one year beginning June 1, 1971, and ending May 30, 1972, for his bid of Two Hundred Dollars ($200.00). There were no other bidders.

A permit for refreshment concession rights at Victory Park Warming House was awarded to Lloyd B. Miller of 1598 Purchase Street for the period of June 1, 1971, through May 31, 1972, for his bid of Eighty-five Dollars ($85.00). Mr. Clauretie, the only other bidder, submitted an offer of $1.00.

Concession rights for the Municipal Beach East, Rodney French Boulevard, was awarded to Mr. Clauretie for his bid of Five Hundred Dollars ($500.00) for a five-(5)-year term, payable annually, from June 1, 1971, through May 31, 1976. There were no other bidders.

Joseph Pinto, Jr. of 71 Bonney Street was awarded a license for the privilege of offering pony rides in Buttonwood Park for his bid of One Hundred Dollars ($100.00) for a period of one year from July 3, 1971, through July 1, 1972. Mr. Pinto will also remit to the City of New Bedford 10% of all gross receipts.

Licenses were awarded to the Greater New Bedford Little Baseball League for use of diamonds No. 1 - 2 and 3 at Mt. Pleasant Field. The licenses for a five-year term beginning September 1, 1971, through August 31, 1976, for the three fields were combined under one contract.

Fortin Electric, Inc., of 130 Glennon Street was awarded the contract for the lighting of one Basketball Court at the Knowlton School and one Softball Field at Brooklawn Park. The only bid, was for Ten Thousand-Nine-Hundred Dollars ($10,900.00).

The contract for an ornamental fountain to be erected in the Harold H. J. Clasky Memorial Park was awarded to the Colab Construction Company of Boston, Mass. for its bid of Two Thousand-Nine Hundred-Fifty Dollars ($2,950.00). The firm was the sole bidder.

A contract for the installation of lighting the No. 4 Little League diamond at Brooklawn Park was awarded to Hayden & Sons Electrical, Inc., of 486 Second Street, Fall River, Mass. for their bid of Seven Thousand-One Hundred-Fifty Dollars ($7,150.00). The winning bid was the lowest of five.

The entrance to Brooklawn Park at Irvington and Concord Streets was blocked off and a sign indicating that the park roadway was not a through way was placed at the Ashley Boulevard entrance.

Plots 136A (Lots 473 to 784) in the Sassaquin area, acquired by the department in 1963, were transferred to the City Property Committee to convey same to the School Department for a new elementary school. The site, situated off Braley Road, is located in what the Park Department is transferring into Pulaski Park. The land in question had been taken by eminent domain for a playground and recreational purposes. However, as it had never been dedicated for park purposes, permission of the legislature to transfer the land to the City Property Committee was not required.

The Water Department was given authority to run a 12" water pipe over Marine Park and to locate, construct, operate, and maintain water lines and to remove other fixtures and appurtenances impeding the transmission of water over, under, across and upon land in Marine Park according to plans laid out by Camp, Dresser and McKee and dated September, 1970.

Board members approved plans and specifications prepared by the architectural firm of Ecodesign, Inc., of 180 Franklin Street, Cambridge, Mass. for a Zoological building complex, a separate Veteran's building, a sea lion pool and retaining wall at Buttonwood Park.

Almy & Chase General Contractors & Engineers, Inc. of Portsmouth, Rhode Island, was awarded the contract for the construction of the Zoological complex and the Veteran's Building for their bid of Two Hundred-Six Thousand-Six Hundred Sixty-Three Dollars ($206,663.00). The firm was also awarded the contract to build the Sea Lion Pool and the Retaining Wall at Buttonwood Park for their bid of Seventy-Eight Thousand-Eight Hundred Dollars ($78,800.00).

A mini-bike program at Victory Park, the rules and regulations for which were drawn up by Asst. City Solicitor Raymond C. Lantz, Jr., was approved. The program, supervised by the Recreation Department, aided by an advisory Body of South End Parents, ran Monday through Saturdays from 9 a.m. to 4 p.m.

The U. S. Army Reserves Officers Training Corps program at New Bedford High School was granted permission to use the flag pole area at Buttonwood Park for their annual ROTC Field Day.

The Bristol County Dog Training Club of Massachusetts, Inc. was granted permission to use the Warming House at Buttonwood Park for a Rabies Clinic.

The Polish and American Veteran's Association was granted permission to hold church services at their monument at Brooklawn Park on Memorial Day.

The use of Baseball and Softball Diamonds by various Leagues and Schools during the 1971 season was granted.

The Committee of the Feast of the Blessed Sacrament was granted use of the Riverside Playground, Belleville and Coffin Avenues, on July 30, 31 and August 1, for a fireworks display.

Free concerts, sponsored by Garry Rego, were played at the Buttonwood Park Warming House every Sunday from 1 to 4 p.m.

This activity supplemented the City's recreational program during the summer months.

A section of Brooklawn Park was granted to the Charity Brotherhood of the Holy Ghost for its Annual Fiesta June 19 and 20.

American Legion Post One made use of Riverside Playground on July 1 for its Annual Circus.

White's Farm Dairy was granted use of Brooklawn Park April 11 for its Annual Easter Egg Hunt.

A flea Market was operated at Marine Park June 24-27 in conjunction with the Whaling City Festival.

The National March of Dimes Foundation was granted use of the Warming House at Buttonwood Park to sign marchers up for a "walk-a-thon" May 8.

The Board of Park Commissioners thanks the Mayor and the City Council for their interest and encouragement and also thanks the heads of the city departments who contributed in any way to make the work of the Park Department a success.

Respectfully submitted,

FRANK VIEIRA, *Chairman*
WILLIAM SMITH, *Secretary*

RIFLE RANGE

New Bedford Rifle Range facilities were again used this past year by the 211th Army National Guard upon its return from active duty. Firing programs for small arms qualifications and familiarization were conducted for the entire battalion. This year local police departments in addition to holding their regular classes for new recruits introduced a new program covering Riot Control and use of different types of equipment in their arsenal. Civilian usage of the rifle range by permit also increased this year.

The continuous use of the range necessitated more frequent repair of target racks in addition to routine cutting of brush and grass, necessary to keep the range in safe condition.

In closing I would like to express my gratitude to you and your personnel for the cooperation and interest given me in the maintenance of the Range throughout 1971.

Respectfully submitted,

ARTHUR LEE, SMC. USN, Retired
Range Control Officer

PARK DEPARTMENT

December 31, 1971

To the Honorable Board of Park Commissioners

Gentlemen:

Many new projects were completed in 1971. I feel that this was made possible because the Park Board is vitally interested in improving our present park operations and making the city parks attractive to the taxpayers who must eventually pay the necessary bills for these new projects.

Some of the improvements completed in 1971 include:

Basketball courts installed at Pulaski Park, Pine Hill Acres, and Mott Street Playground.

New chain link fence around the duck pond at Brooklawn Park.

A new blacktop road from the monument to the tennis courts at Buttonwood Park.

Gas heat was added to the Elephant house and maintenance shop at Buttonwood Park.

Two recreation centers were established, one at Hazelwood Park and one at Brooklawn Park.

Five tennis courts were repainted at Buttonwood Park in a joint effort by the department and the New Bedford Tennis Association.

Fifteen new picnic grills were installed in the three large parks.

New sprinkler system was installed at the Bowling Greens at Hazelwood Park.

A total of thirty-seven trees were planted in the parks.

Many new projects are in the planning for 1972 and we expect completion of same late in 1972.

I sincerely appreciate the efforts of all concerned — particularly the members of the Park Board, Mr. Leo J. Ciborowski, Assistant Supt. of Parks, and Mrs. Helen K. Aguiar, Head Administrative Clerk.

Respectfully submitted,

EDWARD J. LOWNEY, *Supt. of Parks*

FORTY-SEVENTH ANNUAL REPORT

OF THE

PLANNING BOARD

NEW BEDFORD, MASSACHUSETTS

For the Year 1971

PLANNING BOARD REPORT

City of New Bedford
March 17, 1972

To the City Council of the City of New Bedford.

Gentlemen:

The Planning Board submits its Annual Report for the year ending December 31, 1971.

Twelve meetings were held during the past year for the purpose of holding hearings on changes on the zoning map. Twenty-one petitions for proposed zoning changes, one resolution and one ordinance change were received for consideration by the Planning Board.

A summary of the cases with the action of the Board therein is set forth in the following table.

George H. Brightman
Secretary

PETITIONS FOR ZONING CHANGES

	Location	*From*	*To*	*Recommendation by Board*	*Date of Meeting*
1.	Change in zoning classification of Lot no. 49 as shown on the City of New Bedford Plat #104. The aforementioned lot being situated on the southerly side of Phillips Avenue and has a frontage on Phillips Avenue of 93.60 feet. This petition is for the purpose of enabling the owner of said premises to use the same in conformity with the provisions of Title 9, Section 9-239,, Subsection (5) of the New Bedford City Code.	Residence C	Business	Granted	January 25, 1971
2.	Change in zoning classification of Lot no. 47 as shown on the City of New Bedford Plat #104. The aforementioned lot being situated on the northerly side of Coffin Avenue and has a frontage on Coffin Avenue of forty (40) feet. This petition is for the purpose of enabling the owner of said premises to use the same in conformity with the provisions of Title 9, Section 9-239, of the New Bedford City Code.	Residence C	Business	Granted	February 22, 1971
3.	Change in the zoning classification of property beginning at the intersection of the northerly line of Barret Avenue with the westerly line of Purchase Avenue:	Residence B	Residence C	Postponed Granted	February 22, 1971 March 22, 1971

PETITIONS FOR ZONING CHANGES

Location	*From*	*To*	*Recommendation by Board*	*Date of Meeting*
Thence running westerly along the northerly line of said Barrett Avenue about two hundred ten and 78/100 (210.78) feet to its intersection with the easterly line of lot numbered 91 on a plan of Nashville Heights recorded in Bristol County (S.D.) Registry of Deeds in plan book 4, page 58. thence running northerly along the easterly line of said lot numbered 91 about 100 feet to the intersection common to lots 91, 92, 105, and 106 on said plan; thence running westerly along the northerly lines of lots numbered 91 and 90 on said plan about 50 feet to the intersection common to lots numbered 89, 90, 108, and 107 on said plan; thence running northerly along the easterly line of said lot numbered 108 about 100 feet to the southerly line of Newcombe Avenue; thence running easterly along the southerly line of Newcombe Avenue about 100 feet to lot numbered 103 on said plan; thence running southerly along the westerly lines of lots numbered 103				

and 102 on said plan about 50 feet to the intersection common to lots numbered 102, 101, and 104 on said plan;

thence running easterly along the southerly line of lot numbered 102 about 115.43 feet to the westerly line of said Purchase Avenue, and; thence running southerly along the westerly line of Purchase Avenue about 156.72 feet to the point of beginning.

Beginning at the southeasterly corner of the premises to be described, and at the southwesterly corner of land now or formerly of Cecilia V. Poczatek on the northerly side of Barrett Street, about two hundred ten and 78/100 (210.78) feet westerly from Purchase Street;

thence running northerly by said last named land one hundred (100) feet for a corner;

thence running westerly by said last named land fifty (50) feet for a corner;

thence running southerly by land of Lawrence W. Caton, Jr. and Helen Caton one hundred (100) feet to said Barrett Street, and,

thence running easterly by said Barrett St. fifty (50) feet to the point of beginning.

	Location	*From*	*To*	*Recommendation by Board*	*Date of Meeting*
4.	Change in the zoning classification for the lots of land included in the area beginning at the s.w.c. of Robert Street and Nemasket Street and running southerly along Robert Street to Fairmount Street; thence westerly from Fairmount St. to Cornell St. thence continuing southerly on Cornell St. to Winslow St.; thence westerly along Winslow Street to its terminus on Oesting St. and continuing in a westerly direction along the southerly line of Lot 3, Plot 54 of the Assessor's Plans to the easterly line of Route 140; thence northerly along the easterly line of Route 140 to the south line of Nemasket Street; thence easterly along the south line of Nemasket St. to Robert St. to the point of beginning. Being more specifically designated on the Assessor's Plan of the City of New Bedford as Plot 68, Lots 8 77, 84, 76, 85, 86, 87, 83, 79, 82, 81, 78, 80, 16; Plot 62, Lots 207, 208, 209, 210, 211, 212, 213, 2, 192, 191, 195, 175, 174, 172, 173, 171, 170, 197, 194, 193, 238,	Residence B	Residence A	Granted	March 22,1971

	469, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 127, 128, 189, 203, 204, 205, 206, 154, 153, 152, 151, 150, 149, 148, 147, 146, 145, 144, 130, 190, 191, 200, 201, 230, 202, 133, 134, 135, 136, 138, 139, 140, 198, 142, 143, 131 1, 4, 132, 176; Plot 55, Lots 227, 228, 229, 230, 231, 246, 248, 249, 245, 244, 243, 241, 169; Plot 61, Lots 5 and 6; Plot 54, Lot 3.				
5.	Change in the zoning classification of Plat 111, Lot 21, as well as lots 22, 23, 103, and 104. (n.e.c. of Acushnet Ave. & Shaw St.)	Residence B & C	Business	Granted	March 22, 1971
6.	RESOLUTION OF THE NEW BEDFORD PLANNING BOARD AMENDING THE "MASTER PLAN FOR 1980" AND APPROVING THE WEST END URBAN RENEWAL PLAN. WHEREAS, the Planning Board has approved the Master Plan for 1980 which includes a plan for Future Land Use and Circulation; and WHEREAS, the West End Urban Renewal Project includes a portion of the City adjacent to the Central Business District; and WHEREAS, said Urban Renewal Plan does not conform specifically with the land use designation set forth on the plan for "Future Land			Granted	March 22, 1971

PETITIONS FOR ZONING CHANGES

Location	*From*	*To*	*Recommendation by Board*	*Date of Meeting*
Use and Circulation", contained in the Master Plan for 1980; and WHEREAS, the Planning Board has reviewed the West End Urban Renewal Plan: NOW, THEREFORE BE IT RESOLVED BY THE PLANNING BOARD OF THE CITY OF NEW BEDFORD the following; 1. That the West End Urban Renewal Plan Concerning land use and circulation as it relates to the plan for Future Land Use and Circulation are based upon local survey by the New Bedford Redevelopment Authority; and 2. That the West End Urban Renewal Plan is in the best interest of the City of New Bedford and will not substantially derogate the objectives and plans as contained in the Master Plan for 1980; and 3. That the redesignation of land use from low density residential to low-medium density residential is hereby accepted and approved for that portion of the project area bounded by the western boundary to Cottage Street on the east.				

	4. That the redesignation of land use from medium density residential to include a school-park and commercial complex is hereby accepted and approved for that portion of the project bounded on the east by Cottage Street and on the west by County Street. 5. That the redesignation of land use for retail and commercial to medium density residential with business bordering County Street and Sixth Street is hereby accepted and approved for that portion of the project between County Street and the eastern boundary. 6. That the circulation plan relative to Route 6 as contained within the project boundary be modified so as to retain the existing status except for the widening of Kempton Street and the closing of Ash and Chestnut Streets. 7. That the uses indicated herein be incorporated in requisite changes in zoning for this area.				
7.	Change in the zoning classification of the area of real estate situated on the north side of Allen Street between County Street and Green Street in order to conform to all buildings in the immediate area and also to have a uniformity in zoning. Plot 41, Lot 70.	Residence B	Business	Postponed Denied	March 22, 1971 April 26, 1971

PETITIONS FOR ZONING CHANGES

	Location	*From*	*To*	*Recommendation by Board*	*Date of Meeting*
8.	Change in the zoning classification of Plat 130C, Lot 659; s.s. of Dewey Street, west of Ashley Boulevard.	Residence B	Business	Granted	April 26, 1971

FORTY-SIXTH ANNUAL REPORT

OF THE

BOARD OF APPEALS

NEW BEDFORD, MASSACHUSETTS

For the Year 1971

BOARD OF APPEALS

City of New Bedford
March 17, 1972

To the City Council of the City of New Bedford.

Gentlemen:

The Board of Appeals submits it Annual Report for the year ending December 31, 1971.

Meetings were held on the first and third Wednesdays of each month except when there were no appeals.

Forty-two appeals, under the Zoning Ordinance were received for consideration during the year. Fifteen of these appeals were granted, four were denied, and sixteen were granted conditionally, two were withdrawn, one was cancelled, two were discontinued, one was referred to the building department for further action and one was given an extension of time.

A summary of the cases, with the action of the Board is set forth in the following table.

Francis B. Finni
Clerk

*Granted Conditionally

BOARD OF APPEALS

December 27, 1971

VOTED: That the Secretary be directed to prepare and edit the annual report of the School Committee for the year 1971 and that 800 copies of the same be printed.

The following report for 1971 is respectfully submitted:

THE ADMINISTRATIVE TEAM

DR. JAMES R. HAYDEN
Superintendent of Schools
(standing)

(left to right)

DR. FLORENCE L. MAHON
Asst. Supt. — Curriculum and Instruction

DR. JAMES F. FRANCIS
Deputy Superintendent

LUCILLE R. CARON
Asst. Supt. — Special Services

EDMOND P. DONLAN
Asst. Supt. — Personnel Services

Office of

Superintendent of Schools

New Bedford, Mass.

December 27, 1971

Honorable School Committee
New Bedford, Massachusetts

Mrs. Ferreira and Gentlemen:

In accordance with the laws of the Commonwealth and the adopted policy of the New Bedford School Committee, I have the honor of submitting my eleventh annual report as Superintendent of Schools and the one hundred and eleventh annual report of the New Bedford Public School System.

Each year seems to have a particular characteristic which while not the most obvious at the moment does have long range implications. This year seems to be characterized by more participation by more persons, professional and non-professional, in more areas of school operation than previous years. This participation has not always been immediately productive, in fact sometimes quite negative. Yet, in perspective, at this point in time and I am sure in the years to come, the higher cost of education and the higher level of participation will be the solution of most problems.

This is the first full year of operation with the new organizational structure of a Deputy Superintendent, and four Assistants, one for Business, one for Curriculum and Instruction, one for Personnel and one for Special Services. I must report the services of Dr. Francis, Deputy Superintendent, reporting for duty this year for the first time have been invaluable in solving many crisis situations, transportation, racial balance, pupil placement, Model Cities, plus the scheduled work with principals in the everyday problems of school management, especially on the secondary level. Dr. Mahon, Asst. Supt.-Curriculum has spent hours and hours of time with Curriculum Committees preparing for the Program of Studies for the New High School assisted by the Curriculum Coordinator, Mr. Joseph L. McDevitt. In addition, she has worked with committees on the junior high and elementary levels and whenever possible "trouble shooting" in specific areas, even to the extent of going into a classroom and taking over a class to translate theory into practicality by means of a demonstration lesson. Mr. Donlan, Asst. Supt. - Personnel, has constantly been besieged by an increasing number of personnel problems most of which never even existed a few years ago. In addition to interviewing candidates, screening their backgrounds and presenting recommendations, he has had his share of "trouble shooting" when complaints are received from various sources outside the school system. Mrs. Caron, Asst. Supt. - Special Services, has carried a heavy load because of the necessity of working with parents when principals refer suspensions to her for a solution. She found solutions by utilizing the many and varied sources both within and without the public school system.

In addition, her area has broadened from guidance, psychological testing into fields of adjustment counseling, health, legal research with the courts and committees to develop new policies in light of new court decisions. Asst. Supt. Markey, for business was with us to perform in an outstanding manner constructing the general expense budget, starting the transportation and new equipment on its way when with great regret we lost his services in April of 1971 due to a serious illness. He is sorely missed and it is hoped that he will be back with us very soon.

The continuing, untiring level of participation of my colleagues, all, is only characterized better by their professional approach to their duties, many, varied and not always most pleasant but necessary for the welfare of the children of New Bedford.

The progress of constructing the new high school made rapid and impressive strides this year with not only the "bricks and mortar" but the participation of committees of professionals working assiduously to produce a Program of Studies. This program will offer an entirely new curriculum with many choices and new approaches thus resulting in September 1972 a new high school "inside and out".

Three serious fires, May 1st at the Thompson Street School, May 8th totally destroying the Knowlton School and May 9th at the Clifford School were not only spectacular but required the reassignment of some 300 pupils. The recovery of most of the records at the Knowlton School and the hard work of the faculty brought about the assignment of these children within five days into ten different schools and the solution of the transportation problems which attended this reassignment.

As a result of these fires and the fact that the school system was losing over $1,000 per week of new equipment due to theft or vandalism during the past year, the School Committee requested a supplementary budget to authorize the assignment of 52 security attendants now classified by Civil Service as watchmen. This procedure has effectively and dramatically reduced the loss of equipment and has prevented at least two other fires. Since no insurance is carried on public buildings, the salaries expended can be compared to an insurance premium. This type of action is being taken by school systems across the country as noted by the forming of a national organization of school security personnel.

Another milestone in our school history was reached this Fall when for the first time we were officially notified by the Board of Education of the Commonwealth that racial imbalance no longer exists in any of our schools. This point in history was not reached without many trials and troubles. During the Spring of this year Chapter 70 funds were temporarily withheld by order of the Board of Education until we produced a plan satisfactory to them containing both a temporary approach and a long range approach to the problem. With the study of the Booz, Allen and Hamilton Report submitted this year, with a demographic survey completed by means of the excellent cooperation of all school principals, and selected staff, with the holding of community meetings and with the technical advice of officials on both the state and federal levels, a plan finally emerged. It did not follow the advice of the Federal and State technicians who proposed clustering and cross-bussing. Because the racially imbalanced schools were under-utilized and the voluntary bussing plan was coupled with the emergency bussing plan already in effect as a result of the Knowlton fire, the schools were "balanced".

The excellent cooperation of the news media, newspaper, radio and television, portrayed the three racially imbalanced schools as schools with quality education. On June 15, 1971, the Commissioner of Education was personally presented with a plan, meeting with both community and the Commissioner's approval. This plan did work as proved by the October 1 census and efforts will continue to keep it working.

Construction of elementary schools to replace late 19th century structures or early 20th century structures is not only a necessity from the standpoint of providing new approaches to modern quality education but also is directly related to providing a lasting solution to the problem of racial imbalance. In the South End and the West End of New Bedford the small neighborhood school inherits the racial pattern of the housing pattern. This is a "de facto" situation which can only be changed in one of two ways, e.g., cross-bussing or turning to a large elementary school which draws from a large multi-ethnic school district. With modern methods of designing schools, many of the positive characteristics of the small school can be incorporated into the large elementary school in the same manner we have on the secondary level by adopting the house plan. The sometimes considered obvious solution of just changing boundary lines becomes an impossibility when the attempt to include a sufficient number of whites to balance the number of non-whites results in a school that is so small to start with that the class size would rise to what would amount to "standing room only" proportions.

Site problems in the south end and at the Knowlton School are still to be resolved. Also under discussion is the best method of building so as to permanently resolve the racial imbalance. In the south end it has for several years been proposed that two large schools should be paired on a K-3 and a K, 4-6 basis. The essential reason for this is that one large K-6 school in the south end would be balanced racially with about 52-54% whites. The question as to how long this balance could be maintained might be a serious impediment to state reimbursement. By pairing the two schools, the balance would not only be more favorable, i.e., 70% white, but this percentage would remain since the school district would be large enough to counter "out" migration.

With this construction problem in mind as the solution, the School Committee on August 30, 1971 accepted the educational specifications of the South Central School, an addition to the DeValles School, relocation of the Carney Academy and replacement of the Knowlton School. Previously accepted were specifications for an addition to the Brooks School and a new school off Braley Road in the Sassaquin area required because of the intra-city movement of citizens, into new housing developments. The State has had a 'hold" on school building construction in New Bedford for over a year refusing to allow any forward movement until the racial problem was solved to their satisfaction. While we now are starting to go forward, the fact that the plans for the Sassaquin School have been approved and "on the desk" for over a year (as of July 1970) and the addition to the Brooks for about 6 months, we will approach September 1972 unprepared to accommodate children in schools near their homes: Emergency steps must be considered in these two last areas as some of these project developments are this December accepting families.

Another evidence of the theme, participation, mentioned in the first paragraphs of this report, is the policy being adopted for a student to sit in an advisory capacity on the School Committee at regular public meetings. The superintendent has had dialogue with many groups in his staff organizing a Superintendent's Council and also meeting with representatives from other professional groups, e.g., principals, directors, etc. These meetings have been strictly informal and for the purpose of striving to eliminate the misunderstanding, the problems of the moment which later may otherwise become major roadblocks to understanding and progress.

While day-to-day operation of a school system to some means the ringing of a bell, maintenance is really a major item not only of expense but of necessity to ring that bell. Following is a listing of only the major repairs for 1971 which will indicate the scope of operation in the fourth largest school system in Massachusetts.

MAJOR REPAIRS FOR 1971

Roofs:

A new roof was installed on the Keith Junior High Auditorium, the all purpose room at the Campbell School and also the entire East Wing of the Campbell School.

Plumbing & Ventilation:

New toilets, ventilation and metal partitions were installed at the following schools: Lincoln, Carney Academy, Hannigan and Ashley Schools. New sinks, faucets and bubblers were also installed.

Electric Services:

New increased electric services were installed at the following schools: Roosevelt Junior High, Ashley, Phillips Ave., Kempton, Carney Academy, Hannigan and Congdon. A contract has been awarded for immediate installation of new electric services at the Greene School.

Two relocatable classrooms were completely rebuilt due to fire damage. Also two classrooms and accessories were built in the Mt. Pleasant Auditorium. Numerous rooms were built in different basements. Two rooms are being built in the basement of the Mt. Pleasant School.

Blacktopping was done at several schools.

Anchor fences were installed at three (3) schools.

Repairs were made to all fireboxes in all boilers throughout the School System.
Exterior of the Rodman School was pointed.

Painting:

Entire interior of Jireh Swift painted.

Entire interior of Ingraham is being painted.

Entire interior of Greene is being painted.

We have continued to lease the former Immaculate Conception School for a transition program, helping students who are newly arrived in this country. The immigration rate has continued with apparently little relation to the lack of employment opportunities, resulting in a school population census increasing while birth rates to New Bedford parents are decreasing. The problem of bi-lingual education will be studied in relation to the new state law just passed this year. It's implications to the budget are not small.

Also this year has seen the leasing of the rooms known as the Ziskind School. These are used for the Perceptual Development Program. When the old high school becomes available, a determination must be made as to the future leasing of both properties.

School costs have risen because the public has looked to the schools for more service. To indicate the amount of increase in service provided, the following listing will indicate the new positions authorized in the 1971 budget:

Additional Personnel:

1 Assistant Principal, N.B.H.S.
5 Teachers N.B.H.S.

Summer Curriculum Workshops:

Elementary Workshop
Total Life Ed. Workshop
Secondary Workshop
2 Clerks (6 weeks each)
1 Diagnostician
2 Home Visiting Teachers for Homebound Children

3 Teachers of Emotionally Disturbed
3 Teacher Aides for Classes of Emotionally Disturbed Children
3 Adjustment Counselors
2 Nurses (Carney and NBHS)
5 Custodians (Drivers)
3 Clerks (2 Secretaries, 1 Bookkeeping-Payroll)

Several personnel problems have been solved but several are still pending. As of this date of writing we still have not resolved the question of retroactive pay during the wage-price freeze although a determination has been requested from the Pay Stabilization Board. Another perplexing problem is how to resolve fairly the grievance against 55 staff members who have failed to either join the association or pay the agency fee which is equal to the association dues. This action came about as a result of a clause in a new contract signed as of July 1, 1971 and effective until August 31, 1973. It does provide two pay raises, January and September in 1972. The Civil Service contract was also signed this year with a 6% raise as of January 1, 1971 and an 8% raise as of September 1st. However, the September 1st retroactive raise is still pending action by the Pay Stabilization Board.

This was the second year of activity of the Education Component of the Model Cities. It was for this year that the Public School Budget contained an allotment of $258,000 to the Model City funding. The following projects and their final budget will indicate the scope of the programs:

Education Coordinator & his program	$ 48,819
Lunch Program	$112,850
Pre-School Day Care	$ 40,000
In-Service Training	$123,500
Expanded School Day	$ 20,000
Youth Adjustment Counseling	$ 55,025
Teacher Aides	$156,883
Work-Study Program	$ 57,000
New School Construction	$262,500
TOTAL YEAR II	$876,577

To describe each of the above programs would take many pages and hence only a few highlights can be mentioned. Detailed reports are on file. It should be noted that the New School Construction funds have not been used to date. In other areas, we have learned much, especially in the lunch program, the work-study program and the teacher aide program. As these programs spread citywide we will have gained considerable insight. This is not to slight the other programs, such as the in-service training program which has now established a curriculum center for the training of teachers and the try-out of innovative materials. The Youth Adjustment Counseling Program has been an extension of that which was already in operation citywide but with the extra funds we were able to assign resident counselors. The Pre-School Day Program is an extension of the previously operated Pre-School (Headstart) program which was administered by the public schools. Now we are learning the problems of day care which seems to be the direction of further legislation coming from Washington.

As we look back over the year we note that Attorney Raymond Letourneau was seated on the School Committee in April to fill a vacancy existing from the previous year and caused by the resignation of the previous Vice Chairman Vincent J. Worden. Now, as we look forward to 1972 we note that we will have a new chairman ex-officio, Attorney John A. Markey, Mayor-elect and a new board member, Mrs. Rosemary Tierney, taking the place of Mrs. Rose Ferreira who chose not to run for re-election. The long and valuable service of Mrs. Ferreira will be missed by all members of the school system. She was noted for her faithful attendance and sincerity of purpose as she strove to enhance the educational welfare of the children of New Bedford for 20 years.

The Year 1972 will be a year during which several difficult and costly decisions must be made. The new high school must be opened, equipped, staffed and operated. This is something New Bedford has never done and it is inevitable that it will cost more than the operation of a high school that was purely academic and business orientated.

Another problem will be the overcrowding in certain areas of the city which may be complicated by parochial school closings. The painful decisions of double sessions, bussing to the old high school or the purchase of more relocatables must be faced. The continuing immigration and the implementation of a bi-lingual program will be another budget decision which must be faced in addition to our continuing efforts to maintain racial balance and progress on the school construction program. Further implementation of the Lunch Program will be costly in capital investment but mainly because of supervision problems.

Truly, the coming year will be a year of many decisions but truly it can be a year of many opportunities for growth.

To that end, I am sure we all will bend our energies to the fullest extent of our capabilities.

Respectfully submitted,
James R. Hayden
Superintendent of Schools

Curriculum and Instruction

ELEMENTARY

The challenge to change curriculum and instruction, - in fact, to revolutionize the entire structure of the educational process, - increases in intensity and breadth each year. Agencies such as universities, federal programs, and the news media consistently act as catalysts toward innovation and experimentation. The terminology itself, curriculum and instruction, is subject to re-examination to ascertain whether there is an inherent connotation of imposed fixed curriculum and teacher instruction rather than pupil learning and discovery.

This situation represents an opportunity, as well as a responsibility, for educators in the field to explore, analyze, and evaluate these theories and examples in the light of experience and projected new goals. Re-assessment is in order for educational philosophy, procedures, physical facilities and all of the multiple aspects which are an integral part, as education itself must be, of the total development of the child.

However, it is recognized that change is not imposed; it evolves, if it is to be meaningful and enduring. To hastily overturn the foundation of basic academic skills which are necessary to function as a communicating skilled individual in the world of work and society is to, figuratively, throw away the anchor of the ship and to float aimlessly.

The Commonwealth of Massachusetts Board of Education, in a position paper entitled "The Results Approach to Education and Educational Imperatives" in September of 1971, describes the need for change in education and proposes the "results approach" as a strategy for educational change. This approach "responds to the growing demand throughout the country for accountability in education. It calls for defining the goals and measuring the educational results achieved."

Advocates of accountability begin with behavioral objectives which appear to be rigid in their format and execution. Students are required to meet these specified objectives and are "criterion tested" for placement upon a sequential continuum. These behavioral objectives provide the "anchor" for accountability but they, themselves, must be reviewed by the administrator, teacher, and pupil for significance and relevancy to life-adjustment.

Along with responsibility for knowledge and skills, the educator should provide each learner with opportunity to expand and advance in the humanities, in individual values and attitudes. The position paper of the Massachusetts Department of Education charges the educator with this statement:

"In adition to the basic skills, knowledge in the traditional academic studies, and occupational training, we must develop the ability to use knowledge effectively, human qualities such as positive self image and attitude toward others, and civic qualities such as understanding and ethical values."

Is it possible, then, to assist the pupil in self-realization and self-actualization within the framework of accountability? The answer is definitely positive if the steps are planned carefully. Within the framework of behavioral objectives there *is* room for expansion in pupil-centered procedures, pupil and teacher creativity in reaching the objective, and innovative, non-structured methods for evaluation. Sequences of performance may also be adapted to the interest and ability of the student. The danger lies in making sweeping organizational changes before the need evolves. Purpose will dictate the time for team teaching, variations in grouping, flexible scheduling, schools without walls, and other innovative concepts.

In general, during this past year we have been occupied in preparing for the challenges ahead. At the elementary level, Miss Diane Joyce, a former member of the Massachusetts Department of Research, has been added to our staff. She is continuing the work already begun in preparing sequential objectives for reading and mathematics and we anticipate acceleration in this area. Application to the classroom will depend upon the approval for in-service time for teacher-training.

Staff

Five new staff members were added to the Department of Curriculum and Instruction:

In April: J. Lawrence McDevitt, Curriculum Coordinator
In August: Mrs. Dorothy Bertran, Language Specialist for Model Cities
Mrs. Dorothy Hunt, Reading Teacher for Model Cities
Dr. Zeida Rodriguez, Mathematics teacher for Model Cities
In December: Miss Diane Joyce, Diagnostician

Mr. McDevitt has given invaluable assistance to the Assistant Superintendent in Curriculum and Instruction, particularly in the coordination of the various high school departments for the preparation of the Guide for courses to be offered in the new high school. The areas involved in Curriculum and Instruction are comprehensive and diversified so that Mr. McDevitt will necessarily function in a number of capacities for coordination of services.

Miss Joyce, as noted above, will prepare the criteria for the individualization of learning and instruction. She will conduct in-service courses for the teachers so that they may have input, discuss interpretation and implementation, and prepare pupil profiles for diagnostic developmental procedures.

Mrs. Bertran is assisting pupils in Grade One of the Ingraham School in Model Cities to acquire verbal skills: language patterns, pronunciation, fluency, vocabulary and comprehension.

Dr. Rodriguez and Mrs. Hunt are assisting pupils in three Model Cities Schools, — Greene, Acushnet Avenue, and Carney Academy, — in mathematics and reading. The remedial services offered were needed due to the increased enrollment in these schools as a result of racial balancing in the schools.

Through the Emergency Employment Act, Mayor George Rogers allocated monies for the hiring of additional teacher-aides in the elementary schools. They have been of immeasurable assistance in overcrowded classrooms.

Curriculum: Major Disciplines

Reading: The city-wide test administered each year in Grade Three revealed encouraging results in the improvement of reading in the primary grades as a result of the transition from the look-say method to phonics which was initiated in our system three years ago. Significant gains were made in Word Knowledge, Word Study Skills, and Spelling. The gains in Comprehension evidenced a trend upward improvement but were not as significant as in the other skills; however, this points out an area where more supplementary material will be of benefit. Results of the tests administered in Model Cities in October confirm the noteworthy improvement in reading in the Primary Grades.

The Reading Committee under the chairmanship of Mrs. Stasia Gorczyca made a study of supplementary materials for the primary grades and provided the principals with annotated lists and prices.

After school hours, the Assistant Superintendent of Curriculum and Instruction held inservice meetings for reading in the primary grades. Dr. Cipione of MacMillan Company conducted two workshops for teachers in the intermediate grades.

For three weeks during July, a curriculum committee of twelve teachers, under the direction of the Assistant Superintendent of Curriculum and Instruction, compiled reference data for correlation with detailed reading skills. This provides teachers and students with materials, other than the basal texts, for individualization of instruction.

Title IV Project PEEP (A Project to Evaluate the Effectiveness of Pre-phonic Training between Kindergarten and First Grade) was completed in March. The final report is being reviewed by the Bureau of Research, Office of Education, U. S. Department of Health, Education and Welfare. Results coroborate those found by Bond and Dykstra (USOE Project 6-1651) that "No youngster can learn to read well without first mastering the alphabet and acquiring the ability to distinguish word sounds, — skills which he should have down pat before any reading instruction is begun. "The PEEP project concentrated on mastery of decoding, involving sounds of consonants and vowels using an innovative approach geared particularly to the slow-learner. Experimental and control groups in Grade One participated. Children were taught by teacher aides who received in-service training from the Assistant Superintendent of Curriculum and Instruction.

The New Bedford Kindergarten Screening test was revised after a three-year study of results correlated with reading success in Grade One. Valid items were retained and the revised tests were given in May, 1971. These will be studied statistically for prognostic value in March of 1972 correlating with reading success. This test serves as diagnostic criteria for individualized developmental procedures in Grade One, such as Auditory and Visual Discrimination, Motor Coordination, and Verbal Skills.

Mathematics: Under the chairmanship of Miss Bette Tripp, the Mathematics Committee held three meetings evaluating new texts and manipulative materials.

Mrs. Helga Finger, math specialist in Model Cities, coordinating with the Assistant Superintendent of Curriculum and Instruction, composed a guide for Measurement consisting of Concepts and Sequential Activities.

Science: Science Coordinators, representing each elementary school, held monthly meetings and completed an inventory of science materials and equipment in the schools. A basic list of necessary supplies for science was compiled and distributed to elementary principals and teachers. This serves as a reference list for the ordering of science materials. It is recommended that a supply budget for science be established in addition to the present one for classroom paper and other supplies.

A beginning has been made at the monthly meetings in the construction of behavioral objectives in science, – goals which may be achieved through a process approach in learning.

In science Mr. McDevitt is coordinating a program with Southeastern Massachusetts University wherein science majors at the university are visiting our elementary schools at the request of individual teachers. They are assisting teachers by giving demonstration lessons and extended science experiences to pupils.

Oceanography classes were conducted for the third year at Fort Rodman for six weeks during the summer. Mr. Paul Lavasseur directs the program which has been so successful that many more boys apply for admittance to the program than funding will permit. One hundred ten students received certificates for proficiency in basic oceanographic studies. New areas of learning included field esperimentation in analysis of the wet lands and the construction of a Sea Farm in the waters adjoining the school.

Total Life Education: The concept of health, as indicated by the Constitution of the World Health Organization, is the focus of the Total Life Education program. The development of the student as an individual including his adjustment to the environment and its social forces was the subject of the Curriculum Guide (K-3) written by a committee of six teachers in July.

The Health Education Coordinators in each elementary school meet with the Health Educator once a month for inservice training. They function as resource persons for the teachers in their respective schools and act as liasons with the community health programs. Materials to augment the Curriculum Guide now in use are: the 3M Program; the Palo Alto Program, Grades Four through Six; and the Guidance Associate Service Program, Grades Kindergarten through Three.

On an experimental basis, a course entitled "Dimensions of Personality" has been initiated in one class each of Grades Four, Five and Six in the John A. Parker School. Through classroom experiences and a systematic presentation of the principles of mental health, the course gives the child insight into his emotions and behavior. Meetings with parents are scheduled and their participation is invited.

Another pilot program planned to extend to all the elementary schools is related to understanding the working community and career guidance. Academic skills, as a foundation for success in specific industries, are being explored; the type of occupations in Greater New Bedford are described through interviews with personnel; general information about the industries is collected and recorded. Goals are to make curriculum relevant to life skills and to help the student to gain a broader knowledge of his immediate environment.

Elementary French: In the Elementary French Department, three specialists have instructed 138 classes representing fourth, fifth, and sixth grades. Over a period of two years, specialists have created additional material to supplement the "Parlons Francais" program in Grade Four and the "Bonjour Line" course in Grade Five.

An introduction to reading and writing is the secondary aim of the sixth grade program. Up until the present time, the specialists have developed their own material but publishers are now recognizing the importance of this transition and it is anticipated that they will produce appropriate programs.

Instructional Media Center

The administration and faculty of the Charles S. Ashley School are in the process of converting their large auditorium into an Instructional Media Center for Creative Inquiry. The intent of such a center is to rely more on multi-media to support, complement and expand the work of the classroom.

Despite limited funding, the Ashley IMC is functioning and alive with activity. Apart from library services rendered, the center offers daily "mini-theater" presentations, sponsors guest artists and lecturers, features on-going interest centers, provides individual tutoring services, and makes an up-to-date resource area available to teachers and visiting groups. In addition, typing and Glee Club periods are conducted in the Center.

Perceptual Development

Fourteen classes were located in the Ziskind School of the Tifereth Israel Synagogue. The program moved from the Ashley School at the end of June, 1970. Enrolled in the classes including the first six grades were 11 girls and 103 boys. In addition there was a resource room at Keith Junior High School where nine students sent on from the elementary program met with a teacher for six periods a week for a one-to-one basis in small groups.

The elementary school adjustment counselor assigned to the program counseled 43 children and advised the teachers in meeting the problems. The part-time speech therapist screened all children and serviced 29 of the 55 found with speech defects. Five tutors began work in the elementary schools in October with those children who had returned to their sending schools and needed only to maintain their skills.

To unify the reading and language arts program an in-service course was given by the Director of the Perceptual Development Program for all staff teachers, aides, and tutors. In February, 1971 a class for tutors was instituted. A summer program was organized for children in the Carney Academy area.

A summary of the placement of children in June by number is as follows:

Retained in classes - 68
Returned to sending school with tutor - 29
Returned to sending school with remedial reading -8
Returned to sending school with no help - 12

Model Cities

The Assistant Superintendent in Curriculum and Instruction has spent a large percentage of time conferring with Model Cities personnel and found it necessary to curtail some of her assistance beginning in the fall of 1971 due to the pressure of other responsibilities citywide.

During the summer a three-day sensitivity workshop was held for teachers in three Model Cities Schools – the Greene, Acushnet Avenue, and Carney Academy. This was conducted by Dr. Charles Smith of Boston College and supervised by the Assistant Superintendent of Curriculum and Instruction.

Through this office Model Cities receives the following assistance in Curriculum and Instruction:

1. Approval for *prepared* plans, procedures, and evaluative measures in curriculum development, instruction, and Inservice training of teachers.
2. Provision of all Courses of Study developed through the Office of the Assistant Superintendent in Curriculum and Instruction.
3. Participation in all meetings for Science, Health, and A-V Coordinators.
4. Assistance of specialists in Art, Music, A-V, and Physical Education. (Expanded Reading, and Perceptual Dev.)
5. Meetings and assistance to all MC principals as provided for other principals in the school system.
6. Limited supervision and training for teachers in Grade One in the area of reading.
7. Training of one teacher-aide for Grade One in each school.
8. Diagnostic and remedial assistance provided through reading and math specialists for three schools.
9. Curriculum development and assistance in instruction and evaluation of instruction provided in Ingraham School by language specialist.

Recommendations

1. Of prime importance is the provision for inservice time for elementary teachers and principals outside of the Model Cities area. This is essential for the study of curriculum content, knowledge and use of materials, effective methods in the learning process, and for purposeful evaluative procedures and interpretations. Inservice sessions are now limited by negotiation and are held after the

teacher's work day is over. Timely progress in the area of curriculum and instruction is largely dependent upon inservice time.

2. Additional personnel are urgently needed in this department. The following positions should be established and filled:
    - Supervisors for the intermediate grades.
    - Supervisor for teacher-aides who have increased in number.
    - Supervisor for Total Life Program.
    - Science supervisor.
    - Instructional materials specialist.
    - English language specialists.
    - Leaders for inservice training.
    - Teacher-aides for the intermediate grades.
    - Clerk for the mechanics of curriculum production at the elementary and secondary levels.

3. The continued establishment of learning and resource centers in each school is encouraged wherever space and materials can be provided. These centers serve an economical as well as a professional purpose in that multimedia materials are collected and categorized. Thus they are accessible to all instructional personnel and students for reference and study while the space provided in the centers may be utilized for individual or group work.

4. Curriculum workshops should be planned for the summer of 1972. It is recommended that one should be in Social Studies with an emphasis upon history of minority groups. Another should be one in Total Life Education to levelize and elaborate upon the Curriculum Guide prepared this past summer.

5. Needs presented by Mrs. Luke Haran, Director of the Program for Perceptual Development area for personnel:
    - Full-time speech therapist
    - Additional tutors
    - Trained assistant for the Director to help work with supervision of tutors who are in most elementary schools and the three junior high schools

6. Elementary French: A major recommendation for this year is the designation of a supervisor for this department to act as liason with principals, administrators and department heads, and to attend to the administrative duties involved in scheduling, selection and curriculum for 148 classes in the elementary school.

ELEMENTARY AND SECONDARY

Art

(Summary of Report submitted by Raymond Bisaillon, Director)

There has been major concentration on a new structure for the new high school with multiple offerings. Our courses are geared for the college oriented student, for students who wish to develop in the crafts and related arts so as to go directly into industry (these courses will ultimately develop into work-study programs), for those who seek hobbies and leisure time activities and we are currently working on a program of advanced placement. All that remains at secondary level is to up-date our junior high program and to complete our high school courses for our junior high program and to complete our high school courses for 1973 and 1974.

Elementary Activities: Additional art specialists which have been obtained through the Federal Non-English Program and through the EEA '71 Act have given us the opportunity to service all classes in all areas on an every two-week basis. We have done some experimentation with team-teaching in the Bi-lingual program which has met with success. The evidence of the development of manual dexterity in grade one is most apparent since we have begun to service the kindergarten classes. There is a great improvement in the draw a man concept, motor skills as demonstrated in the Kindergarten Screening Test. Cutting skills have improved also. We are involved in an exchange of student work of the Non-English and of the Bilingual students with that of youngsters of the Portuguese mainland and islands. There are no costs involved and all details are being handled by the Galeria Acoriana de Arte-Gavea through the efforts of Mr. Rogerio Silva.

Secondary Activities: A summer curriculum committee was established and the bulk of our new high school curriculum was prepared by this group. There has been a good deal of input from present high school students, as well as from former students and all members of the department have contributed to the total program. Installation of a kiln at Normindin Junior High School has permitted the adoption of pottery as part of our design-craft program. Secondary school students have participated in several art exhibits. Of note is the Regional Scholastic Art Exhibit held in Boston in February. The high school art club sponsored a field trip to London and to the Shakespearean country during the

April vacation. More than one hundred students participated. It was most a rewarding experience and consequently a trip to Rome will be held this year.

Several students have been accepted and are currently enrolled in undergraduate work at SMU, Swain School and other colleges. Our secondary summer school program has met with the same popularity and success as in former years. *Inservice and miscellaneous*: We have had the pleasure as well as the wonderful experience of being chosen to sponsor the Kaleidoscope program offered as a public service by Hallmark Cards. Approximately 8000 students participated in this creative art workshop during its ten-day stay in New Bedford. Held at the Ashley School, this program has brought all of us much favorable publicity at both state and national levels. In fact, as a result of the workshop and of our evaluation, our students were requested to make up special projects with materials furnished us by Hallmark and these have become a permanent part of the Kaleidoscope program.

Miss Barbara Pearson, consultant for Milton Bradley Company, conducted a 15 hour workshop for teachers at the Brooks School in November. Forty-five teachers received certificates of achievement, and an additional eighteen participated on a part time basis. Several smaller inservice workshops have been held for Bi-lingual teachers and aides, Non-English teachers and aides, Workshop and Special Class teachers and for a group of teacher aides. These workshops have been held at the Brooks school during released time on Tuesday afternoons.

Involvement has been our key-word — the members of the art education staff have been and are involved in many projects in addition to their regular instructional duties . . . decorating the schools, displays, bulletin boards, school performances and programs, inter-departmental projects, updating supply requisitions are just a few. To crown all of our achievements this past year, we have had the honor of having Mrs. Marie Preece, elementary art specialist named teacher of the year and the recipient of the Philip Bronspiegel Memorial Award.

As we review the accomplishments of this past year, we offer the following recommendations:

1. Consideration of obtaining someone who could really focus on public relations for the entire school system.
2. Securing clerical help on a full time basis for the art education office to relieve pressures and to allow for

closer work with teachers and more inter-departmental approaches.

3. Securing all necessary high school art staff members for September 1972 as per the Educational Specifications for the new high school.
4. Making provisions for adequate space at the old high school for art education administrative office, teacher inservice workshop area (the present art room would be adequate for this) and for supply storage.
5. Planning so all schools will ultimately have an art room with a resident specialist. All new schools, construction of additions and remodeling should equally be serviced in this manner.
6. Securing additional elementary personnel so that each class will be serviced on a weekly basis. This will be necessary with the implementation of the Willis-Harrington Act. We are looking forward to early adoption of minimum curriculum standards since we have been advised by Dr. Neil Sullivan that action should take place early in 1972.
7. Need for expanded facilities and staff at junior high level so that curriculum offerings may be updated and in line with our new high school concepts.
8. Using some different approach to programming at elementary level to prevent conflicts with departmentalization. We must allow each child to receive the full benefits of our program, yet although we are servicing all grades, many students are removed from classes regularly for special services, tutorial work etc. and never benefit from the art experiences.
9. Consideration of the use of teacher aides in our program.

Music - Vocal

(Summary of Report submitted by Miss Janet Radcliffe, Director)

A. Elementary Schools

1. Curriculum

   Elementary music staff is assuming the task of writing guide lines that will best implement the new State Music Curriculum using the books and materials we have in our system.

2. Glee Clubs

   Rehearsals have been held once a week in the following schools and performances given:

Ashley — Operetta "Adventures of Pinocchio" and Operetta "The Drum"
Congdon — Operetta ' Snow White"
Hannigan and Taylor — Spring program and Christmas program
Hathaway — Spring program and Christmas program
Lincoln — "Spring Festival of Music" and Christmas program
Parker — Flag Day Program
Winslow — "Swing into Spring", a song — dance festival and Christmas concert
Mt. Pleasant — Christmas concert

3. Cultural Projects and Field Trips
   - a. Jan. 18 - 22 "Carnival of the Animals" — Boston Ballet in seven schools
   - b. March 20 "The Little Sweep" New England Regional Opera at Keith Junior High
   - c. May 4 — Visit to Veteran's Memorial Auditorium by 120 children from three schools to hear Rhode Island Philharmonic Orchestra
   - d. Oct. 20 - 21 — The Wheaton Trio presented six concerts in five schools.
   - e. Dec. 15 and Dec. 21 — Some students from Carney Academy and Ashley School will attend performance of "The Nutcracker Suite" by Boston Ballet.

B. Secondary Schools

1. Courses
   - a. Junior High School
     New courses were offered in an attempt to schedule Band and Chorus in the music program. Credit will be given for ninth grade electives.
   - b. Senior High School
     Course offerings remained the same as last year since our recommendation to add an instrumental music teacher was not accepted.

2. Choral Activities
   - a. Junior High School
     Students in junior high do not have chorus offered to them within the school day. Only ninth grade students have this opportunity on a limited basis. Normandin and Keith Junior Highs gave spring performances, rehearsing after school hours.

b. Senior High

Choral groups and Handbell Choir under the direction of Mrs. Heimberg continues to be a credit to New Bedford High. A few talented students auditioned for the District Concert and participated in the program last January in Somerset. In April one of our outstanding musicians, William Ward, was selected to attend the All-State Chorus in Chicopee.

Personnel: Miss Joycelyn Marcoux, vocal teacher at Keith Junior High, left to be married and was replaced by Mrs. Sally Stefanini.

Recommendations

A. Elementary Schools

We recommend adding at least two more specialists this year. This will allow for music instruction in the Non-English classes which are not now included and for the Perceptual Development school. It will also provide for approximately fifty-five more classes to be scheduled weekly.

B. Secondary Schools

1. Junior High School

   Organization and scheduling must be changed, — more space, time, and personnel, — to rectify the set fixed situation at this level if students are to receive adequate preparation for the new high school.

2. Senior High School

   With the expanded music program for the new high school we are anticipating the need for one more teacher in the Vocal Department. This will allow Music Theory, Harmony and Concert Chorale to be taught on a six-day cycle.

Music - Instrumental

(Summary of Report submitted by Roland Bessette, Director)

Elementary Schools: The string program has been expanded to include grades 3 - 6. More than one hundred pupils are participating in a learning process as regards stringed instruments. At our Annual Spring Concert, which played to a standing room only audience, various string ensembles, as well as groups from the regular instrumental rental program, performed creditably. This department firmly believes that parents for the most part are quite interested in having their children take part in a performing art as evidenced by their interest in and attendance at the afore-mentioned concert.

Concerning the instrument rental procedure we find it increasingly difficult to get parents to purchase an instrument after a successful trial period. Even renting an instrument is prohibitive in cost to many parents. The cost of instruments has risen, as have most prices, and the city's economic woes are reflected in parental reluctance to purchase or even rent an instrument.

In order to maintain some continuity in the instrumental music program we are giving a musical experience to as many pupils as is economically possible by the purchase of school-owned instruments other than strings.

Lessons have been arranged on a daily basis, not to interfere with regular school work, at the Greene, DeValles, and Congdon Schools. We feel that should this program of lessons prove successful — and we have every reason to expect that it should be — it should be extended to other schools in the system which happen to be located in poverty areas.

Junior High School

A. General Music Classes

As General Music is a required subject for all seventh grade pupils, a constant effort is being made to improve the curriculum content. Back to back classes have created opportunities for team teaching. A policy of using the film renting facilities of the Instructional Media Department has been instituted and the possibility of purchasing films is being investigated if this should prove economically feasible. The use of school-owned percussion instruments has served to make the classes more interesting since actual participation is involved.

While the department feels that all seventh graders should be required to take a General Music Class we do not think that this policy should be extended to the eighth grade which is now the case. A curriculum should be developed offering electives in Art, Music, etc. for all grades at the Junior High level, especially the eighth and ninth.

The present practice of requiring eighth grade pupils in particular to take a General Music Course is not in the best interests of the student and has in fact led to serious problems.

B. Other Activities

Further attempts have been made to schedule orchestra rehearsals with varying degrees of success. The principals have designated a weekly period during which rehearsals can be held. This has been attempted in past years since the elimination of the activity period — even to the point of rotating the designated period during a particular day. Although we have had no success with those attempts at scheduling in the past, at the present time we seem to be making a little headway with the problem, due to increased awareness and cooperation of the principals involved, to the extent that they are limited by the rigid programming schedule, and the interest and diligence of the instrumental instructors assigned to the junior high schools.

Most of the pupils involved in the activity are drawn from major subject areas. Their participation depends in large measure upon the cooperation of the classroom teachers involved. Many students who have expressed a desire to participate — on a form signed by their parents — feel, and rightly so, that they can't take time from their major subject areas to participate in an orchestra practice.

High School

As in the past the High School Band took part in school assembly programs, football games and rallies, open house, Spring Concert, civic parades, and related activities.

The Stage Band also played at special assemblies in each junior high school, including the one in Acushnet.

A new course "Orchestration", has been added to the curriculum. This course is of great benefit to those students who intend to go on to a Music School or Conservatory.

A "Listening Experiment" was tried out on a five week basis with four separate classes on an experimental and voluntary basis.

In Conclusion

Recommendations: It seems necessary at this time to again point out that while the elementary program is progressing satisfactorily, with the string program and class lessons in selected schools on school owned instruments, and while the endeavors as regards the new High School are proceeding as smoothly as possible, some thought and priority must be given to the Junior High School Program as regards curriculum and scheduling, in order to maintain continuity from the Elementary through the High School level.

Without this continuity, music offerings at the High School level will suffer regardless of the degree of excellence of the curriculum — the obvious example of this being the High School Band which, without a satisfactory Junior High Program, has dwindled in enrollment from 90 pupils to 32 pupils.

Hopefully this void in Music Education will be eliminated in the near future and students will be able to enjoy a musical experience commencing in the Elementary Schools, carrying on through their Junior High school years, and on into the High School where the curriculum can only be meaningful and beneficial if students have been prepared to take advantage of the variety of offerings.

Physical Education

(Summary of Report submitted by Joseph Rocha, Director)

Accomplishments of the past year:

1. Curriculum Guides in Elementary Physical Education have been distributed to all Principals and classroom teachers. The guides have been developed on three levels; Grades K-2, Grades 3-4, and Grades 5-6. We are now able to provide a helpful reference for those charged with interpreting the Elementary school program to parents and pupils. It should also provide all classroom teachers with a better understanding of physical education as it relates to the Elementary school.

2. Two hundred and four girls received swimming instructions in the 6th Grade Girl's Beginners Swim Program sponsored by the Department of Physical Education and conducted at the Y.W.C.A. These classes are conducted under the American Red Cross standards with qualified Water Safety instructors in charge. Thirty-seven girls qualified for the Beginners Swimming Certificate issued by the Red Cross Life Saving Corps.

3. The Intramural Sports Program was conducted in the three Junior High Schools and twenty-two Elementary Schools.

4. Our physical fitness testing program indicates that we are making some inroads on what seems to be the trend these days — low physical efficiency. Our records show a continuing improvement. A total of eighty-five boys and girls qualified and were named to the "All-American Physical Fitness Team." All were appropriately recognized with the awarding of the Presidential emblem and certificate signed by President Nixon.

5. We now have eleven Teacher Aides in our physical education program, seven in the Secondary Schools, and four in the Elementary Schools. In the Secondary Schools, the Aides have proven to be indespensable; while at the Elementary level, they are doing an excellent job, but, can never supplant the need of additional trained and certified teachers of physical education.

6. Our Annual Boy's Workshop Physical Education Program concluded with the Annual Physical Fitness Meet at Sargent Field. The United States Marine Corps Basic Fitness Test items used. All five workshops participated and a highly contested meet resulted.

The following were awarded:

1st Place — Carney Academy
2nd Place — Lincoln

Models were also awarded to the five individual high point winners.

This is a high point in our workshop program and presents a challenge to our boys. The fact that the boys identify with the Marine Corps in its basic tests, is important.

7. With the cooperation of the maintenance department, a long sought goal of this department was achieved.

We now have game lines painted on most of the hard-top surfaces of our Elementary schools. We have only to visit these schools during recess, before school or during the noon hour, to appreciate the value of this project. I might add that it has made the conduct of our physical education program a great deal easier.

8. Under the direction of Mrs. Bertha Machado and Mr. William Esancy, the Annual Field Day at Keith Junior High School proved to be a huge success. It is my expectation that Normandin and Roosevelt Junior Highs will follow the example of these two fine physical education instructors.

Many of our Elementary schools are also offering programs on physical education activities. It was obvious that these programs were very well received by parents and neighbors.

9. This year the "in" sport is – Hockey. To meet this demand, the Physical Education Department has supplied every Elementary School with a Cosom Safe-T-Play Hockey Kit. Designed primarily for grass surface or indoor play, this equipment is deemed safest for elementary play.

These are but a few of our major accomplishments. There are many areas that benefited from our program and the personnel connected with it. Our physical education instructors were called upon on numerous occasions to assist in preparing special programs such as – dance exhibitions, play days, grand marches, etc.

Recommendations:

1. The following recommendations are being repeated with the knowledge that the Administration, and particularly, Dr. Mahon, the Assistant Superintendent of Schools in charge of Curriculum, is aware of the problems and is making every effort to correct them. Meanwhile, the problems still exist to a great extent:

A. For grades K - 6, a minimum standard for physical education of ninety minutes per week, in three time timesblocks of thirty minutes each. This physical education time should be exclusive of recess, supervised play, etc. Also, it should not be "tied in" with – milk distribution, health, first aid, going to the basement, etc. It should be a physical education period in its full meaning – warm ups, story plays, stunts and tumbling, lead-up games, rhythms, self-testing activities and physical fitness – all the categories that make up a meaningful physical education program, not just games.

B. All teachers should be required to remain with their classes when the special teacher conducts a demonstration lesson. (We have made some gains on this point.)

C. All classes should be permitted to have their physical education period out-of-doors when the weather permits.

This occurs particularly at the 4th - 6th grade level and developed as the result of some upper classes having what appeared to be a free recess period in the guise of physical education. This I do not condone.

2. Additional recommendations for consideration:

A. Utilize the gymnasiums in our Junior High Schools for the full 30 periods per week by adding additional certified personnel to teach physical education during the periods that are unassigned in order to allow for planning periods. I have requested this in my budget request for personnel.

B. Continue the use of full time teacher aides in the Junior High Schools and consider the use of teacher aides in our High School Program. This is also requested in my budget.

C. We are in serious need of additional personnel on the Elementary level. Several years ago, we were able to visit *each* classroom once every two weeks. We can no longer do this with our present staff of four instructors. We need one more instructor to return to the "once every two weeks" schedule and at least four additional instructors to comply with the forthcoming State Guidelines which will require that a *certified* teacher visit each classroom once per week. This will require a staff of nine special teachers of physical education.

D. That the School Department acquire (or arrange with the Department of Public Works, City of New Bedford) a paint striper, so that all "hard top" surfaces in our Public School playards may be lined for games and activities and that this project be maintained.

E. That a policy be adopted on the Junior High School level, that, — no practice for the school's varsity athletic teams be permitted until one hour after the close of school. This will apply *only* when there appears to be a conflict as to the use of practice fields or baseball courts. I suspect that this ruling would apply during the winter season only, for the most part.

I find that many School Systems have this type of ruling and I am quite sure that participation in our intramural program will increase and remain constant once we can assure our students that they can expect regular weekly opportunities to participate, rather than a spasmodic schedule, as is now the case.

The starting time for intramurals would be at 2:40 P.M. each and every day except when varsity games are scheduled at home. All varsity practice would start at 3:45 P.M.

F. When an opening occurs in the staff at Brooks School, consideration should be given to a male teacher who would be interested in conducting an Intra-mural Program. At the present, we have the facilities, but we are unable to conduct a program because of the lack of personnel.

G. Lastly — with the opening of our new high school in 1972, the Department of Physical Education will do its utmost to create and conduct a program of physical education that will do justice to a physical education complex that is second to none.

My strongest recommendation is, that — the full complement of instructors that I have asked for in my budget request, will be granted.

Instructional - Media

(Summary of Report submitted by Gordon Johnson, Director)

Introduction: There is far greater degree of awareness among teachers and students today as to potential of audio-visual instructional media. They are conscious of the fact that media convey information, affect the message, control what is learned and establish the learning environment.

Quality education requires media personnel in sufficient numbers and with specialized competencies. It calls for resources in great quantity and many forms. It needs facilities of adequate size and functional design. Today educators, school boards and other citizens realize that educational programs of vitality, worth, and significance to students and to society depend upon excellent media services and resources in the schools.

The Year in Review: Bringing home to the teachers the message of what A-V instructional media can do for the classroom became a reality for some segments of our staff as we participated in a series of inservice workshops beginning in the spring and continuing throughout October, November and December. Teachers of Grades 4-5-6 in Model Cities Schools, Workshop and Special Classes in those schools, teachers in the Thompson St. and Immaculate Conception Schools and Teacher-aides in the Expanded Reading Program were all included.

It was decided to move the Instructional Media Center from the Carney Academy to a more central location with expanded facilities at the Parker School. Cooperation from the Superintendent, Principal, Maintenance Foreman and custodians in making the IMC operational has been outstanding! Our incidence of visitation by teachers, department heads, directors and IM Coordinators has increased to a remarkable degree.

Last spring we introduced the N.E.E.D. Program (National Environmental Education Development) to the New Bedford Public Schools. A pioneer venture for us, this proposal involved teachers of elementary upper grades visiting the Cape Cod National Seashore with their classes for a week-long stay, the purpose being to develop greater awareness of the students' natural and social environment through an interdisciplinary approach and actual working and living together.

The need for greater environmental awareness is only too apparent as we look around us. Support for the above project was given by Superintendents, principals, teachers, parents and students. Model Cities listened to our proposal and considered it worthwhile enough to include in their budget and spent considerable time and effort to bring it to fruition. Mr. Yohai and his staff are to be commended in this regard. It is anticipated that the Environmental Education Act may reduce our costs considerably in 1972. I recommend that the Federal Coordinator and Model Cities consider this seriously.

Needs and Recommendations: One of the greatest immediate needs of this department is an increase in our work force. Justification for our request for a clerk and media specialist is on file in the Superintendent's office. Until these positions are filled we will be unable to carry on the many programs and services that should be provided by an Instructional Media Services Department for a school population the size of ours.

We do hope that strong support can again be secured for our operational budget and requests for new and replacement equipment. Both are vital to the success of our endeavor. As was the case last year, all requests for A-V instructional media have been channeled through this department. It is our hope that we can make up for some of the staggering losses of A-V equipment last year and continue our building program which is attempting to implement NEA and ALA standards in the near future.

In retrospect 1971 will be remembered by this department as the year when a vast amount of time, effort and energy was expended in the direction of the new high school. Specifications for new equipment and A-V materials were prepared; countless meetings were attended in which proposals for new curricula were advanced; and finally details on job specifications, responsibilities, work flow, and operation of the Instructional Media Center were worked out. This involved coordination among principals, directors and department heads. We look forward to the time when the results of the above tasks will begin to bear fruit as we begin operation of a genuine, high quality and truly comprehensive media center combining library and audio-visual services.

SECONDARY

JUNIOR HIGH

The opportunity to institute major revisions in the Junior High School curriculum has not been possible due to the lack of additional classroom space and the teaching personnel to staff the rooms. Expenditures at the high school and elementary level have necessitated a postponement of construction of Junior High School facilities. However, in the near future additional space and personnel must be added to continue the development of the Jr. High Curriculum.

Working within the limitations imposed by available facilities and personnel allocations, some curriculum developments have occurred at the Jr. High level. The Mathematics Department has been endeavoring to provide courses for students at levels which are based on the pupil's individual mathematical understanding and skills. The Social Studies Department has revised the course content of the offerings at grade 7 and 8 and has begun to develop course offerings for ninth grade which are more interest oriented than the courses offered in the "tract" system. In English, several internal changes have been made in courses where units on communication and special language skills were substituted for the traditional coursework. Staff members of the English department, as well as other departments, were provided with an opportunity to experiment with new materials that have become available. The items which prove their appropriateness and efficiency will gradually take the place of older, outmoded material. In Foreign Languages, a major step forward was taken to satisfy the special interests and ability of students by allowing students to be placed by "level of proficiency". In Science, several new courses were added and extensive amounts of equipment purchased to allow the department to keep abreast of modern techniques in laboratory experiments and demonstrations. In Business Education, the recommendation of adding typing for grade 9 has had to be tabled because of the lack of space, yet this is a goal. In Home Economics and Industrial Arts, several courses were developed whereby students exchanged classrooms to experiment with courses traditionally offered only to male or female students. It was possible to visit the areas and observe young ladies diligently endeavoring to construct an item in the word working shop, while the boys were enjoying cookies and brownies that they had baked themselves. Opportunities for careers in Industrial Art and Home Economics were pointed out to pupils by community minded individuals who visited the schools to acquaint the students with vocational employment in the area.

Curriculum planning in the Junior High School has not, however, been waiting for construction of additional space. Regular meetings of the administrative personnel are being held to discuss the areas in which changes can be made at this time. Serious consideration is being given to the possible adoption of a "keysort" system to individualize the programs of every student in one of the Junior High Schools, Roosevelt, as an experiment to determine if it would be beneficial and feasable in the remaining schools. Faculty members of the Junior Highs have been given released time this year for the first time so that they meet as a group to discuss areas of mutual concern and interest. Significant progress has been made in determining areas of concern and the resulting discussion have provided several possible solutions and recommendations for action.

SENIOR HIGH

Central to the expanded opportunity offered to the youth of this city by the construction of a modern high school is CURRICULUM AND INSTRUCTION. The underlying philosophy promises to meet the challenges of an unpredictable tomorrow; the range of courses has been planned to account for the diversified interests and abilities of the students; and personnel will be added for the implementation of programs that represent new heights in education in the Commonwealth.

A Curriculum Committee met once a week during the past year with the following items included on its agenda:

- Objectives
- Basis for awarding credits
- Graduation requirements
- Advanced placement
- Use of "unstructured" time
- Coordination of disciplines
- Inservice
- Student Guide booklet
- Format of Course Outlines

- Coordination with the following:
  - Model Cities Work Study Program
  - Junior Achievement
  - Summer Workshops
  - Summer School
  - Adult Education
  - English as a Second Language Program

Students are now consulting with their parents, classroom teachers and the guidance counselors to select course offerings consistent with educational goal. These choices are selected from a booklet prepared by the office of Curriculum and Instruction with the assistance of the Curriculum Committee.

The Directors and Department Heads have provided the framework for a curriculum which will utilize the new building to the maximum degree realistically possible at this time. The curriculum makes use of many educational experiences that were impossible in the "old" building due to limitations of space. The addition of the Home Economics and Industrial Arts Departments, the expansion of the Physical Education, Art, and Music Education Departments, the interdisciplinary approaches in academic and non-academic areas, and new opportunities for team teaching experiences will undoubtedly provide enriched educational opportunities for the student body.

I should like to commend the Curriculum Committee, and the teachers who have assisted in the work and decision-making within the department for their untiring efforts in the production and compilation of this proposed Secondary Curriculum.

Respectfully submitted by:

Florence L. Mahon, Ed. D.
Assistant Superintendent for
Curriculum and Instruction

PERSONNEL

The number of people working for the New Bedford Schools is increasing at a faster and faster rate each year. In fact, far more new people were hired this past year than in any year in the history of the New Bedford Schools.

In addition to the normal turnover that would naturally be expected in the fourth largest school system in the Commonwealth of Massachusetts, we have had several massive programs that had to be staffed immediately and almost without warning.

The hundreds of employees on the Federally funded summer programs could not be hired until the eleventh hour because there was some serious doubt of the certainty or manner of funding. The burning of the Knowlton School required the hiring of 52 watchmen on an emergency basis. That same fire also required the transfer of the Knowlton Staff to permanent positions in other schools.

The watchmen were without supervision for the first six months so the personnel department had to assume the training, assigning and supervision of the fifty-two men for the entire period. This included many hours of night work since these men work throughout the night, holidays and weekends.

The Emergency Employment Act required the hiring of 35 aides, five teachers and six clerks – sometimes at a near emergency pace. The Model Cities programs, the other Federally funded programs and those programs required by emergency conditions, continue to grow in number and in difficulty. The number and complexity of personnel problems grows every day. Each new program and each new aide leaves another loose end that cannot be properly tied – but which must be secured.

Personnel records in a complicated system with large numbers of interlocking and interweaved programs must be kept in far greater detail. For example, during the past year we have had aides working the following categories:

Model Cities
Physical Education
Emergency Employment Act
English as a Special Language
Bi-Lingual Education
Pupil Transfer
Knowlton Racial Balance
Lunch
Breakfast
Perceptual Development
Pre-school
Curriculum — Grade 1
Expanded Curriculum
Bus Aides
RAP Program
Special Classes
E. D. Program
etc.

Some schools have at least one aide from more than a half-dozen different programs in that same building. Many of these aides are working different hours and under different directors. One small elementary school (Ingraham) has at least 35 different employees.

Evaluation is an essential part of personnel work. Individual personnel folders containing the evaluations of each teacher were never kept before this year. Similar record folders should be kept for aides and other employees. An evaluation form has been developed on an experimental basis for use with the watchmen while the form used for the evaluation of teachers is under study by a special committee formed exclusively for that purpose. Although this committee has been working since last Spring, many more months will be needed before an acceptable form is developed. Meanwhile, of course, we will continue to use the present evaluation form.

The form for evaluating substitutes has been in use for some years and is adequate for the present time, although we will experiment with a new one this year. A standard form should be developed for the evaluation of the growing number of teacher aides.

The personnel department is responsible for the assignment of the growing number of substitutes that are needed each year. Good substitutes are in very short supply and we are constantly seeking quality people.

It might be noted at this point that here is only one man and one secretary responsible for this vast and growing personnel area. There is no way that two people can begin to cope adequately with the complexities involved. The proper screening and evaluation of personnel is a vital area that should not be minimized. The supply of certified teachers in many academic areas, far exceeds the demand. In special areas, however, extensive recruiting is essential. Unfortunately, shortages of teachers in some of the special areas will continue for sometime.

The task that immediately concerns us all at this time is the staffing of the New Bedford High School. We will intend to approach this task with total dedication.

Respectfully submitted,

Edmond P. Donlan
Assistant Superintendent

SPECIAL SERVICES

I. OBJECTIVES OF SPECIAL SERVICES

A. The continued enrichment of a pupil-centered program.

B. An active role in the development and growth of the whole child.

C. Cooperative assistance to all school personnel in meeting the individual pupil needs which cannot be fully served in the regular classroom setting.

D. Maximum use of all existing special services in the New Bedford Public Schools to enable each child to function to his fullest capacity in the educational and social environment.

II. ACCOMPLISHMENTS - 1971

The individual needs of pupils with special problems in the New Bedford Public Schools are served by one hundred twenty-five special teachers and specialists assigned to the various areas included in the scope of Special Services . . . . Guidance and Placement, Pupil Personnel Services, Health and Hygiene, Special Classes for the Mentally Retarded, School Attendance, Programs for the Visually Handicapped, Physically Handicapped, Auditorily Impaired, Emotionally Disturbed, and Home Classes.

A. GUIDANCE AND PLACEMENT

1. NEW BEDFORD HIGH SCHOOL GUIDANCE

a. Resignation of Mr. Arthur Walsh as counselor to return to his former position as English teacher at New Bedford High School and the subsequent transfer of Mr. Edward Burke from Roosevelt to the High School Guidance Office.

b. Assignment of Counselors for duty one week prior to the opening of school and one week following the closing of class sessions in June . . . . providing greater efficiency in handling transfer students, program changes and conflicts.

c. Utilization of the Walk-in Service instituted in 1971 to handle emotional stresses, drug-related difficulties, and other student crises away from the central guidance office.

d. Ninth grade orientation whereby two Senior High School counselors visit each Junior High School to prepare incoming tenth graders for transition to the Senior High School Program.

e. Personal visits of counselors to the Thompson Street and Immaculate Conception Schools to assist students in the Non-English Speaking Program in planning their individual programs at New Bedford High School.

f. Participation in Curriculum Planning for the new high school with Dr. Mahon, high school administrators, directors, and department heads.

g. Approximately 9,154 individual student interviews, 631 parental contacts, completion of one, two, and five-year follow-up studies of graduates.

h. Participation in placement of students in full-time and part-time employment, and coordination with Model Cities Work-Study Program.

2. JUNIOR HIGH SCHOOL GUIDANCE

a. Transfer of Mr. Edward Burke from Roosevelt Junior High School Guidance to New Bedford High School.

b. Appointment of Mrs. Nancy Lant, English teacher at Keith Junior High School to Roosevelt Junior High School Guidance.

c. Approximately 10,200 individual interviews conducted by the nine junior high school counselors, 76 home visits, 990 parental contacts in school.

d. Utilization of community agencies such as Child and Family Service, Model Cities, Onboard, Neighborhood Youth Corps, New Bedford Mental Health Clinic, Massachusetts Rehabilitation Commission, Psychiatric Consultation Service.

e. Sixth grade orientation by Junior High School Counselors who visited the twenty-six elementary feeder schools and six parochial schools.

f. Ten-week orientation period for seventh grade students, twenty-nine week group guidance class program for eighth grade students, and programming of ninth grade students for tenth grade placement at the High School.

B. HEALTH AND HYGIENE

1. Appointment of Mrs. Marilyn C. Pacheco as school nurse, replacing Mrs. Alice E. Woodacre who resigned to accept a position at New Bedford Vocation High School.
2. Participation of department personnel in implementing new regulations pertaining to vision, minimal cerebral dysfunction, emotionally disturbed educational program, classes for the mentally retarded, programs for the physically handicapped.
3. Involvement of specialists in this area in the activities of the health educators and the development of the Total Life Education Program.
4. Cooperation in the orientation of school personnel to the interim drug policy developed in 1970 and subsequent handling of drug-related cases with the school adjustment counselors and school administrators.

C. HOME INSTRUCTION

1. 56 long and short-term physically ill pupils instructed by two home teachers serving the needs of the students who cannot attend regular classes due to illness . . . . 31 of these pupils were discharged prior to the end of the school year in June, 1971.
2. Appointment of Mr. Dale Kimball as third teacher for home instruction in September, 1971 . . . . enabling the staff to provide service to the home-bound pupil to meet the minimum state requirement of five hours of formal instruction per week for each student . . . during the period of confinement.

D. PUPIL PERSONNEL SERVICES

1. AUDIOMETRY AND LIP READING
    a. Resignation of Miss Judy McCorkle in June, 1971, and subsequent appointment of Mr. Andrew McClure as audiometrist in September, 1971.

b. Administration of Massachusetts Hearing Test to 11,151 pupils in thirty elementary schools and three junior high schools. Five per cent or 559 of these students failed the individual pure tone test and were referred to otologists or family physicians.

c. Auditory training and speach reading lessons provided once a week in most cases to 13 profoundly hard of hearing pupils who wear hearing aids.

d. 265 Wepman Auditory Discrimination Tests administered as part of the screening procedure for candidates for the Perceptual Development Program.

2. EVALUATION – EDUCATIONAL AND PSYCHOLOGICAL

a. Citywide testing programs administered to 952 Grade 10 Students, 1,123 Grade 8 students, 1,204 sixth graders, 1,322 Grade 3 pupils, and 1,188 kindergarten children.

b. Individual psychological examinations administered to 162 candidates for remedial reading, 147 students with various learning problems, 285 candidates for placement in the Perceptual Development Program and 75 enrichment class candidates in the elementary schools.

c. Scoring and processing of test data for department testing programs in the secondary schools, special achievement testing requested by elementary school principals and teachers.

d. Preparation of statistical summaries and related data in conjunction with the citywide testing programs.

3. REMEDIAL READING

a. 592 active cases in Grades 1 through 6 in the elementary grades. 26.2% of these students were discharged at the end of the school year because they were reading at actual grade level or beyond

b. 268 students in the Junior High Schools enrolled in remedial reading classes including 187 in Grade 7, 78 in Grade 8, and 3 in Grade 9.

c. 70 students in Grades 10,11, and 12 served by the reading laboratory at New Bedford High School

4. SCHOOL ADJUSTMENT COUNSELING

a. Appointment of Mr. Leo L'Homme to position left vacant when Mr. Thomas Ingham became director of the department.

b. Resignation of Mr. Harry Kummer to accept position as Assistant Principal of Carney Academy.

c. Subsequent appointments of Mrs. Barbara Belanger, Miss Olive Harris, Miss Cheryl Spungin, Mr. Eugene DesLandes, and Mr. Ralph Wall as school adjustment counselors filling three newly created positions in September, 1971, Mr. Kummer's former position, and Mr. Ronald Ponte who was assigned as counselor for the bussing program students.

d. Appointment of Mr. Martin Walsh and Mr. Jeffrey Twarog, Model Cities' counselors whose activities are coordinated with those of the counselors serving children in the remaining schools in the city.

e. 806 active cases served during 1971; of this number 494 are continued cases, while 312 were discharged.

5. SPEECH THERAPY

a. Resignation of Miss Lois Turoff to be married, Mrs. Rene Salon Hahn, and Mrs. Deborah Wesson who were moving away from the area during the summer of 1971.

b. Subsequent appointments of Miss Claire Giovanniello, Miss Catherine Harkins, Mrs. Voegtlin, and Mr. Jonathan Backstrom to fill the three vacancies caused by resignations, and the position left vacant in speech therapy when Mr. Paul Operach transferred from speech therapy to audiometry and lip reading in September, 1972.

c. Appointment of Miss Vicki Lerner to replace Miss Catherine Harkins who resigned in November, 1971.

d. 516 students received speech therapy during the year. 24% of the cases were discharged in June, 1971. Predominant speech defects are lisping and articulatory difficulties which constitute 79% of the total case load.

E. SPECIAL CLASSES FOR THE MENTALLY RETARDED

1. Appointment of Mr. Walter Sawicki as home teacher for the mentally retarded pupils unable to profit from a full-time program in the regular classes.
2. Appointments of Mrs. Claudette Roussel to the Carney Academy to replace Mr. Robert Dugas who was appointed as Itinerant Teacher for the Visually Handicapped children in New Bedford.
3. Appointment of Mrs. Catherine Wilson to replace Miss Dorothy Tattersall who retired from the special class at the John B. DeValles School.
4. Appointment of Mr. John MacBain to replace Mr. Sawicki at the Clifford School Workshop Class.
5. Appointment of Mrs. Elaina O'Neil Lovett as teacher of the Trainable Class at the Ashley School in September, 1971.
6. Expansion of Trainable Class to full day sessions at John B. DeValles School with Mrs. Phyllis Hoines as teacher.
7. Cooperation of department personnel with Rainbow House — sponsored work-study program involving training in food service, maintenance skills, and housekeeping activities for forty-four students in the classes for the retarded in the New Bedford Public Schools.

8. Special Education Placement Counselor's activities in 60 agency contacts, 84 industrial contacts, placement of 5 students in full-time employment, 2 in Vocational High School Evening Program, 8 in work-experience program involving private industry.

F. SPECIAL PROGRAMS FOR THE HANDICAPPED

1. EMOTIONALLY DISTURBED

a. Establishment of Classes for the Emotionally Disturbed at the Parker, Mt. Pleasant, and Roosevelt Junior High Schools . . . . providing service for thirty-two pupils with moderate to severe emotional problems in four classes operated under state guidelines.

b. Appointment of three aides to serve the classes and the assignment of Mr. Ralph Tremblay to serve as counselor for the three new groups and the existing class at the Jireh Swift School.

c. Appointment of Miss Frances Winterson, and Miss Christine Romanowiscz as new teachers of emotionally disturbed children.

2. HEARING HANDICAPPED

a. Appointment of Mrs. Linda Huston as teacher of the Class for the Hearing Handicapped to succeed Mrs. Susan Old who left the area.

b. Assignment of Mrs. Barbara Medeiros as aide in the class which serves six pupils.

3. PHYSICALLY HANDICAPPED

a. Appointment of Miss Claudia Gordon as teacher of the physically handicapped at the Isaac H. Schwartz Rehabilitation Center as of September, 1971. Miss Gordon resigned in November, 1971 and has been replaced by Miss Ann Moran who is serving as substitute teacher pending state approval of the class and program.

4. VISUALLY HANDICAPPED

    a. Retirement of Miss Myrtle Chace as teacher of the Sight-Saving Class at the Hosea M. Knowlton School.

    b. Replacement of the Class by an itinerant program for the Visually Handicapped serving 28 pupils in regular classes throughout the city directed by Mr. Robert Dugas who was appointed as teacher in this program in September, 1971.

III. RECOMMENDATIONS FOR THE FUTURE

A. GUIDANCE

1. Elimination of rigid scheduling of Grade Eight Group Guidance Classes to flexible sessions throughout the school year to assure more balanced and individual attention for all pupils.

2. Addition of six Guidance Counselors to staff the new high school in September, 1972 to allow each counselor to follow one class through its three grades ten through twelve, providing greater service to the individual student.

3. Appointment of an additional placement counselor to implement the establishment of a Career resource Center in the high school and to promote personal contacts with prospective employers in the community

B. HEALTH AND HYGIENE

1. Closer coordination with existing special services within the school to guarantee maximum service to each child in our schools.

2. Appointment of two aides to assume some of the responsibilities in the Vision Testing program to release the nurses to work more professionally with the school children.

C. HOME INSTRUCTION

1. Assignment of children with emotional disturbances to a teacher for the emotionally disturbed at the secondary level, releasing the home teachers to work with home-bound physi-

cally handicapped children in a more concentrated manner as advised by the state department of education.

D. PUPIL PERSONNEL SERVICES

1. Expansion of physical space for office facilities for this department which is presently housed in a small classroom in the high school.
2. Employment of one additional full-time clerk-typist to serve the clerical needs of the thirty-three specialists in this department.
3. Appointment of three additional remedial reading teachers (one for each Junior High School) to serve the needs of students with reading difficulties. At the present time one teacher is assigned in this capacity at each of the three schools.
4. Addition of one more teacher of remedial reading to serve the high school. One teacher in the present high school serves in this capacity, while many students with reading difficulties at the secondary level remain without additional remedial service.

E. SPECIAL CLASSES FOR THE MENTALLY RETARDED

1. Extension of all Trainable Classes to full-day programs necessitating the hiring of an additional teacher in this field.
2. Establishment of a Class for the Mentally Retarded Non-English pupils.
3. Appointment of two additional teachers of the mentally retarded to serve in the two classes scheduled to begin in the new high school in September, 1972. This represents an extension of the city's program for the mentally retarded at the high school level for the first time in New Bedford.

F. SPECIAL PROGRAMS FOR THE HANDICAPPED

1. Continued integration of handicapped children into the regular school program where they can

benefit from services in art, music, physical education, and other services.

2. Appointment of a teacher for emotionally disturbed students at the secondary level. The present program covers all elementary grades and the junior high school area.

3. Assignment of two additional teacher aides in the program for the emotionally disturbed as prescribed by the department of education's guidelines.

G. SPECIAL REQUESTS

1. Assignment of a clerk to the Assistant Superintendent in charge of Special Services.

2. Long-range planning in the eventual placement of all specialists, confidential files, and special service data into a central location . . . . a special service center.

Respectfully submitted,

Lucille R. Caron

Assistant Superintendent —
Special Services

NEW BEDFORD HIGH SCHOOL

Perhaps the most significant change that occurred this year at New Bedford High School was the successful transition from traditional to computerized scheduling. The master schedule is the foundation of the secondary school. As goes the master schedule, so goes the school, and hence, the enhancement or lessening of the effectiveness of the educational program. The master schedule brings teachers, students, physical facilities, time and materials together for the greatest possible effectiveness in providing an educational program.

Utilizing the Stanford School Scheduling System (4S) techniques, the master schedule was computer generated, thus achieving a programming sophistication of the most advanced state which allowed for full implementation of the House Plan as envisioned for the new school.

Other preparations for occupying the new school in September 1972 included the development of an entirely new curriculum in all disciplines both academic and arts, the completion of the course catalog, the implementation of a "released time" program to provide for in-service activities of the faculty, full-time release of Department Heads from teaching assignments, assignment of the fourth Assistant Principal, finalization of the Group II (furniture) equipment decisions and development of plans and administrative systems to make the new school functional.

English Department

As with all Departments, the English Department, during the 1970-71 school year, intensified its preparation for the coming event — the opening of the new High School in September of 1972. Mainly, the preparation was in the area of curriculum, where eight new language arts courses — of semester length — were implemented, and where plans were made to proliferate the number of these special courses for the following year. Moreover, a decision was made to arrange the entire Program of Studies in English in the form of *paired semester* courses, with no more "track" designations or implications, and with no more distinctions as to *grade* (grade 10, 11, etc.). This decision was not to be implemented in its entirety until the 1972-73 school year, when the transfer to the new High School takes place.

Consequently, Department meetings and "released time" sessions and smaller gatherings of English teachers were devoted, mostly, to the *writing of a new curriculum,* in semester packages. The major amount of curriculum writing was accomplished by the English Faculty, meeting together, but broken down into committees charged with specific tasks. All curricula were brought to near-completion by a group of five English teachers who met for three weeks in the summer of 1971 and, with clerical assistance, completed the task. It is worth noting that, on several occasions, a committee of English teachers met with various segments of the student body to discuss student suggestions regarding curriculum.

During the 1970-71 year, the Free Reading Program (involving the use of classroom libraries) was implemented. Seven English teachers — in a pilot attempt — exposed their students to the "free reading" concept . . . . informal, uncoerced. At the end of the year, questionnaires were distributed to all students and English teachers participating in the Program. The results were tabulated as a kind of evaluation of the Program, and these results are being submitted to the School Committee for analysis and interpretation.

For the first time in several years, the English Department held a week's Book Fair. Much interest was demonstrated by students who purchased paperback books in significant numbers. The Fair was sufficiently successful to make it an annual institution in the future. As a result of this manifestation of an interest in books, the English Faculty voted to reconstitute the Summer Reading Program (which had been gradually deteriorating in effectiveness and participation). Summer reading book lists were completely revised and issued to students.

In mimeograph form, a school literary "magazine" was published by one of the Honors English classes — twice during the year. Contributions in the form of poems, brief essays, dramatic sketches, and short, short stories were solicited from the student body as a whole, and the best items were printed. The publication — Apple Soup by name — contained much commendable literary material.

Re-Statement of Department Objectives

In keeping with the newly-conceived educational philosophy of the secondary schools, the English Department attempts to provide training in the skills of language and exposure to aesthetic and social concepts which should assist students in "finding themselves", in making choices, in gaining greater efficiency and in identifying themselves with their fellowmen. The road to all these goals is through the study of language — through reading, discussion and performing skills — through communication and expression.

Recommendations

1. That funds be allocated, in greater amounts, to the in-service training of English teachers.

2. That curriculum change become an *annual* feature, as experience results in refinement and clarification of educational materials and procedures.

Mathematics Department

Education is caught up, today, in the social revolution that is so apparent in this rapidly changing world. New ideas involving every facet of the educational process are multiple — new ideas to be investigated, implemented, evaluated and and then retained or discarded according to their relative values in keeping with the school philosophy and the needs of the student body. The reality of the new high school has afforded us the space and facilities to break away from tradition and experiment with these innovative ideas.

To follow up the curriculum revisions in the mathematics program decided upon last year, the department teachers have been busy working on course outlines and evaluating new texts. Three new courses have been planned. Two will meet the needs of the college bound students who wish to enrich their background with mathematical concepts outside the regular four year sequence, and/or who are interested in pursuing individual study in an area of special interest. The third will concentrate on aspects of a mathematical nature supporting the vocational arts courses offered in the new expanded program for grades 10-12.

With the help of the NDEA Title III funds, a computer calculator was acquired. It is expected that this machine will be utilized for instructional purposes in programs at all the various levels of competency.

The Instructional Media Center supplied the department with additional projectuals keyed to particular mathematical concepts, and also with film strips with tapes, a new medium to be explored as we endeavor to up-date the teaching methods.

Recommendations:

That plans for an Advanced Placement Program in mathematics be initiated next year at the eighth grade level with a first year algebra course.

Social Studies Department

Goals

As in the past, the members of the Social Studies Department in grades seven through twelve involved themselves in a host of educational activities. Concerted effort was expended in curriculum analysis at all levels coupled with a continuing study of the most innovative teaching methods available. Basic to all of these efforts was the desire on the part of the staff to promote the best possible education for the youth of New Bedford. A review of the most salient activities of the year is listed in the following report:

Personnel

The 1970-1971 school year witnessed several changes within the department.

Mr. John F. Robinson, dedicated Department Head from 1963-1970, was appointed Assistant Principal at Normandin Junior High School. Mr. Robinson was succeeded by Mr. Joseph L. McDevitt, who was subsequently elevated to the position of Curriculum Co-ordinator in the Spring of 1971. On June 14, 1971, Mr. Frederick Cole, a teacher in the Department since 1959, was named as Department Head.

Two veteran members of the department staff retired during the year — namely, Miss Anna M. Driscoll and Mr. Stephen Doherty. In addition to the retirement of these prominent educators, another senior staff member, Mr. Alden Taylor, was appointed to the Assistant Principalship of the Roosevelt Junior High School.

Ronald Dow and Frank Motta were transferred from Normandin and Keith Junior Highs to fill vacancies at the high school level.

The department was indeed fortunate to add the teaching services of Mrs. Jane Waters and Mr. Henry James as visiting lecturers in Afro-American History.

Curriculum

In an attempt to promulgate the educational experiences to be offered at the new high school, the department volunteered to serve as an experimental department in 1971-1972 school year. To expedite this task, the staff participated throughout 1970-1971 in extensive meetings both within and beyond the usual school day. During the progress of these meetings, course offerings were *reviewed* and *revised* into semester offerings. Such approaches as the use of the inquiry method, topical studies, and the use of inter disciplinary method were analyzed in detail.

In order to expedite these curriculum changes, the department decided to innovate by allowing students to select their own courses regardless of career objectives. Within the Social Studies Department, students will not be required to take General, Business, or College offerings. This decision was reached because of the awareness of the staff to student desire of more freedom and flexibility in course selection.

During the released time sessions which were instituted during 1971, teachers participated in hours of intensive study of curriculum revision. Several teachers in the department were able to take advantage of released days to develop interdisciplinary courses in English and History, but due to budgetary limitations this was not possible for all members of the department.

Special Department Functions and Activities

Two assemblies were presented by the department to the students at the high school during the year. The first program featured a lecture enhanced with illustrated prints on the subject "Lincoln, Frederick Douglas and the Road to War in New Bedford". The second was a Law Day program.

Several members of the department attended the American Historical Association Convention held in Boston. This was an outstanding opportunity for the teachers to mingle with eminently renowned historians, to examine current historical material, and to attend workshop sessions. Also several members attended the Massachusetts Council of Teachers of Social Studies.

In July Mr. Frederick Cole, the newly elected Department Head, participated in an intensive three week workshop in Instructional Leadership given at the University of Connecticut. The primary emphasis of the workshop was to evaluate the role of the Department Head in the Secondary School, and this study proved to be highly enlightening.

Recommendations:

1. A clerk-typist to assist the department heads

2. Several teacher aides to be added to the staff to assist in the preparing of teaching materials and to assist in group work.

3. It is hoped that more money will be appropriated for films and multi media techniques for the department library.

4. Consider the possibility of providing additional in-service time so that the department head may instruct the new teachers in more innovative techniques.

Science Department

Science is not a mere collection of facts and formulas to be memorized and cast aside forgotten, but rather a tool to be used and applied by the members of society for the technical and social advancement of all of mankind. With this in mind the members of the science department during the past year have worked on adding to an expanding curricula, improving laboratory techniques, and evaluating new experiences that will help the student relate to his environment and ultimately appreciate that environment.

A major problem in the progress of the traditional chemistry course has been that the algebra involved slows down the pace of instruction considerably. Math Oriented Chemistry was instituted to attain a homogeneous grouping of students who enjoyed mathematics thus alleviating the problem previously mentioned. The student upon completion of the course should find himself prepared to take college achievement tests, study physics or biology and be able to continue in physical science on a college level. Mr. George Goodfellow, a chemistry teacher at the High School, is to be commended for the development implementation, and success of the course.

Biology II, an in-depth study of biochemistry and comparative anatomy, instituted a year and a half ago, has proven highly successful. There are now four such classes and evidence indicates an increase in enrollment in the future.

All teachers were actively involved in curriculum revision and up-dating course content. With the opening of the new high school the faculty of the science department will be ready to offer a full program of lab oriented courses to both the college bound student and the student who does not want to go on to higher education but prefers to pursue a paraprofessional type of area as a career.

Four teachers are presently enrolled in graduate programs of study at the University of Rhode Island, Worcester Polytechnic Institute, Southeastern Massachusetts University, and Bridgewater State College.

Three thousand dollars worth of new science equipment was purchased for the High School to keep pace with rapid advances in both subject matter and methods of teaching. The new equipment bought has enabled teachers and students to conduct more sophisticated demonstrations and experiments, thus fortifying concepts and ideas learned during lectures.

Foreign Language Department

The experimental programs established and implemented in the Foreign Language Department last year have been very successful. As a result, many internal changes are now taking place in the teaching of foreign languages in the New Bedford Secondary Schools. The new program is called "Levels of Proficiency", which simply means that a student may now progress according to his or her own speed and achievement. There is ample opportunity for the student to proceed at a rapid pace or to review any phase that has not been mastered satisfactorily. The physical facilities at the new high school will lend themselves very well to the full implementation of this program. There will be two fully equipped language laboratories and four portable laboratories which will provide each student with the opportunity for advanced laboratory work or remedial laboratory work. The Student Resource Centers will also provide the students with the opportunity for advanced or remedial work.

The teaching of a foreign language requires a program which is continuous and well coordinated. The Foreign Language Department has taken a major step toward establishing a program which has logical sequences and continuity, and which is one step closer to satisfying the needs and interests of each student. The teachers in the Foreign Language Department have been working very closely with the Department Chairman to develop this program and will continue to do so in order to assure its successful implementation.

Business Education Department

Early in the fall of 1970 and continuing through May 1971, a survey was conducted of 100 business offices and firms in the community to learn from them what they believed the emphasis should be in the teaching of the graduates they employ. The response to our efforts was outstanding.

Under the Innovative Network Program (in which New Bedford was enrolled), two representatives from the University of Massachusetts visited the department bi-monthly. They assisted the faculty members to formulate plans and implement our ideas for carrying out the ramifications of this survey. A questionnaire was constructed and developed from the queries provided by these teachers. The visiting team commended the fine cooperation and morale evinced by this department participation. The class was guided in the essentials of interviewing and filling out of questionnaires by the representatives who checked periodically the progress the girls were making.

Excellent ideas were gleaned from these employers, and many will, without doubt, be incorporated in the new curriculum offerings for 1972-3. That the education and subject matter which is part of the Business Education Department curriculum meets the standards and requirements of these businessmen, is evident from the replies and comments. With the new curriculum offerings and updated courses of study, we hope to overcome any deficiencies noted by some employers.

While this undertaking was in progress, every subject offered in our curriculum sustained critical examination by groups from the faculty. New texts were reviewed and many new courses were proposed and their value weighed. On the Released Time Days, as well as at numerous extra meetings, the entire department rewrote the courses of study.

The selection and screening of pupils for an accelerated division in Stenography and Typewriting has proved of inestimable value after four years, and the performance of this class warrants its continuance.

IN MEMORIAM

In January the Department was saddened by the loss of our Bookkeeping teacher, Miss Mary V. Sullivan. She had been a faithful, devoted, loyal teacher, and friend to so many of us. Her fellow teachers affectionately mourn her passing.

Goal

To supply the business community with competent, well-trained, capable and qualified graduates to fill jobs in varied community business opportunities.

Recommendations:

1. The teaching of Typewriting in the 9th grade of the Junior High Schools has been recommended for several years. An earnest effort in the coming year to provide space, equipment, and qualified teachers is felt to be an absolute necessity, in view of modern trends toward acquiring this skill.

2. A Cooperative Office Experience program should be effected as soon as possible, to manifest to the businessmen who suggested it in the survey that we intend to pursue their proposals and advice.

CONCLUSION

We now possess the expertise for flexible modular scheduling and encourage the development of instructional programs that will allow for the use of this valuable educational tool. The development of mini-courses and other innovations to be offered as possible alternates to study halls as a modified "open campus" is an important undertaking with which the faculty continues to be involved.

There is great need for additional administrative personnel. The present number of administrative staff positions at New Bedford High School is minimal and does not provide sufficiently for the adequate performance of the multitude of duties and carrying out of responsibilities necessary to be performed in moving to the new building and making it operational.

It is imperative that the previously requested position of Registrar be established and also that an Expediter be assigned to co-ordinate the physical aspects of the new school as concerns furniture, equipment, supplies, and building.

Respectfully submitted,

Paul Rodrigues
Principal

Report of the School Committee

STATISTICS

POPULATION AND VALUATION

The population of the city (census of 1971)	101,846.00
Valuation of taxable property was	143,593,225.00
Schoolhouses and lots	15,671,975.00
Other school property (furnishing, etc.)	1,748,269.00

APPROPRIATIONS

Rate of taxation (per $1,000.00)	146.80
Amount for general school purposes, not including new buildings	11,604,814.33

SCHOOL CENSUS

Number of children between five and sixteen years of age, and illiterates (not having completed Grade 6) between sixteen and eighteen years of age, reported by the Attendance Department in accordance with the census taken October 1, 1971:

Between 5 and 7 years	3,204
Between 7 and 16 years	16,026
Between 16 and 18 years	126

TUITION RATES

Rates for tuition for non-resident pupils for the school year beginning September 1, 1971, payable in advance are:

High, Junior High, Elementary, Special Classes	$650.00 per year
Kindergarten	325.00 per year
Evening School	.50 per night
Evening High Extension Program (per class)	18.00

PER CAPITA COSTS

The cost of instruction per scholar for Day Schools is based on the average number belonging and the total amount expended from taxation money:

	Gross Cost	Net Cost (after State reimbursement)
High School	775.36	538.50
Junior High School	745.68	518.90
Elementary Schools	710.00	438.21
Average for Day Schools	727.72	471.04

ANNUAL REPORT

of the

COMMISSIONER

of

PUBLIC WORKS

of the

CITY OF NEW BEDFORD, MASS.

to the

CITY COUNCIL

1971

Reynolds-DeWalt Printing, Inc.
New Bedford, Mass.

COMMISSIONER'S REPORT

April 3, 1972

Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

In compliance with Chapter 3, Section 58 of the City Code, I herewith submit the annual report of the Department of Public Works for the year ending December 31, 1971.

Appropriations and expenditures are shown in the various tables, together with a chart indicating the comparative Highway expenditures for the period from 1921 through 1970.

I wish to express my appreciation for the cooperation that I have received from the Mayor, the members of the City Council, the various department heads, and my own capable assistants in carrying on the work of the department.

Respectfully submitted,

GEORGE H. BRIGHTMAN

Commissioner

ENGINEERING DIVISION — 1971

AIRPORT COMMISSION — Plans were drawn and surveys made in connection with airport boundaries and leases.

ASSESSORS — Real Estate transactions and transfers were filed at the Registry of Deeds. Such transfers were changed on city Plots and indexed. Four sets of 180 plots are kept up to date and blueprints made of same.

BOARD OF APPEALS — Forty-two surveys and plans were drawn and records kept.

BUILDING DEPARTMENT — Lines and grades were given for 203 new buildings. The buildings were numbered and records kept.

CITY SOLICITOR — Plans and blueprints were made and descriptions were written on request of City Solicitor for the sale of City owned land and acquisition by Eminent Domain.

CURBING — Lines and grades were given for setting 4923 lineal feet of curbing. Inspection and measurement was made of the same.

HOUSE DRAINS — One Hundred Seventeen (5,057 ft.) new house drains and six relays were laid connecting house sewer and surface pipes with the main sewer. Location of these drains were measured, records were made of the same and drawn on drain plots.

PLANNING BOARD — (Zoning) Twenty-four plans for zoning changes were made and lists of abutters made and reported.

SEWERS — Surveys, plans, lists of abutters, assessments, and specifications were made for four new sewers and four new surface drains. Construction costs, inspection, lines, and grades, were given for 6505.82 feet of sewer and 3573.42 feet of surface drains. Records of construction, final plans, and final assessments were made and reported.

SIDEWALKS — Surveys, plans and estimates were made for eighteen projects under the Betterment Act. Measurements, records, final plans, and assessments were made and reported. Plans and estimates were made for forty-one projects laid by bonded private contractors for property owners.

STREETS — Surveys were made and plans drawn for the acceptance of eleven new streets. Lines and grades were given for all street construction and public utilities construction. Surveys were made and points set for the installation of new street bounds.

TRAFFIC COMMISSION — Surveys were made and plans drawn. Traffic Counts were made at 41 intersections.

ROUTE 140 — The Engineering Division cooperated with State and Federal District Engineers, private engineers, and also with private contractors on the proposed projects.

WATER BOARD — Lines, grades, engineering and survey information as required were given for all water main extensions.

MISCELLANEOUS — Lines and grades were given for fences, street lines, and sidewalks. Forty-two accident or damage sites were surveyed. Plans were drawn and photos taken to prepare for possible court action. Numerous plans were drawn and descriptions prepared for study by the City Council Committees and the City Solicitor.

Weather records were kept daily on rainfall, snowfall, wind velocity, temperature, and tides. This weather information was reported to State and Federal agencies and was made available to the public. Records were kept of Street sweeping and ash collections. The area of cuts in pavements and walks were measured and recorded. City maps and plans were kept up to date, blueprinted and indexed.

GENERAL STATISTICS

January 1, 1972

Set off from Dartmouth	1787
Incorporated as a City	1847
Length of City	10.73 miles
Breadth of City (Maximum)	3.10 miles
Highest point	1250 feet north of Rockdale Ave. and Hathaway Road Elevation 181.50 feet
City Datum	Based on 0.85 feet above mean high water
State Datum	Based on mean sea level 2.55 feet below City Datum
Geometrical Center of City	Nash Road and Mt. Pleasant Street
Area — Land	12,281.9 acres
Ponds	193 acres
Land-Ponds	12,474.9 acres — 19.46 sq. miles
Tidal Water	8,429 acres — 13.15 sq. miles
Length of Frontage on tidal waters	9.81 miles
Depth of main channel	30 ft. at low water
Average rise and fall of tide	3.55 ft.
Population — Registrar of Voters estimate	101,846
Assessed Valuation	$170,362,575
Assessed Valuation per capita	$1,673.00
Accepted streets — Area 1,445,836 acres	254.23 miles
Bridges (3)	0.796 miles in New Bedford
Sewers	271.79 miles

Length of Intercepting Sewer:

Outfall	0.626	miles
Intercepting	9.188	miles
34 Public Playgrounds	64.0	acres
11 Play Fields	117.8	acres
4 Community Parks	167.7	acres
1 Rifle Range	230.35	acres
7 Parking Lots	6.32	acres
29 School Buildings — Area of Ground	116.60	acres
1 Airport — Area of Ground	829.93	acres
10 Wharves — and other waterfront land		

STREET INVENTORY

January 1, 1972

BRIDGES:

Coggeshall St. — ¾ Maintained by New Bedford
Slocum St. — ½ Maintained by New Bedford

PAVEMENTS:

(Note: In the following list the area is the total of that kind of pavement on all streets, but the length is the length of street where that material is the principal pavement.)

	Length Miles	Area Sq. Yds.

DECEMBER	−0.30	+0.80	−1.90	−3.86	−6.00	−2.50	3.56
Average for year	−0.17			−3.59			3.03
Extreme for year		+1.70	−2.30		−1.30	−5.20	

All figures above refer to "mean high water" which is 0.85 feet below City Datum.

Observations for the last 74 years indicate that:

Average high water is 0.641 below City Datum

Average low water is 4.144 below City Datum

Average range of tide is 3.54

WATER BOARD REPORT

May 23, 1972

To the Mayor and City Council
of the City of New Bedford:

Gentlemen:

In accordance to the provisions of Chapter 23, Section 3-2312 of the City Code of New Bedford, the Water Board herewith respectfully presents this, its 102nd Annual Report, covering its operation for the calendar year 1971, and including the reports of the Superintendent, Water Registrar and Engineers.

The average daily consumption for the past year was 21,309,460 gallons, was approximately 790,827 gallons more than 1970.

The total consumption for 1971 was 7,777,952,900 gallons approximately 288,651,500 gallons more than 1970.

The Board voted to request the transfer of $293,221.89 surplus from Water Department receipts to Water Department New Construction and Improvement Account.

The following abstracts from the Water Registrar's report shows in condensed form the financial operation of this department during the year. Full details will be found in his report which accompanies this.

FIRST, BASED ON THE BUDGET SYSTEM IN ACCORDANCE WITH CITY AUDITOR'S ACCOUNT

	Salaries & Wages	Labor	General Expense	New Construction	Total
1971 Budget	$238,422.62	$325,202.84	$190,000.00	$226,933.64	$980,559.10
Refunds			192.41		192.41
Transfers	14,550.00	23,200.00		293,221.89	330,971.89
1970 Encumbrance			2,142.27		2,142.27
	$252,972.62	$348,402.84	$192,334.68	$520,155.53	$1,313,865.67
1971 Expenditures	252,287.04	345,084.83	185,164.57	186,568.18	969,104.62
Balances	685.58	3,318.01	7,170.11	333,587.35	344,761.05
Less unexpended balance carried to 1972			6,249.49	333,587.35	339,836.84
Balances reverting to General City Funds - Dec. 31, 1971	$ 685.58	3,318.01	920.62		4,924.21

SECOND, BASED ON RECEIPTS AND EXPENDITURES

RECEIPTS

For water, meter rentals, demands and fines		$1,153,288.63
Miscellaneous receipts		65,725.62
Receipts from Bond Issues		17,841.60
New Construction		186,568.18
Total Receipts from all sources		$1,423,424.03

EXPENDITURES

Bills from Appropriation	$ 185,164.57	
Bills from Bond Issues	17,841.60	
Payrolls from Appropriation	597,371.87	
New Construction	186,568.18	
Interest and Bonds	186,407.50	
Encumbrances, 1971	6,249.49	
	1,179,603.21	
Less encumbrances, 1970	2,142.27	1,177,460.94
WATER REVENUE SURPLUS, 1971		245,963.09
Net outlay through December 31, 1970		12,394,829.30
Net outlay for year 1971		150,252.83
Net Cost of Works, December 31, 1971		$12,545,082.13

RECEIPTS AND EXPENDITURES SINCE 1964

Year	Receipts for Water	Total Receipts	Maintenance Interest and Bonds	Extensions Paid From Regular Receipts	Extensions Paid From Bond Account & New Const.	Water Revenue Surplus	Total Expenditures

REPORT OF THE SUPERINTENDENT

May 15, 1972

To the New Bedford Water Board:

Gentlemen:

The annual report of the Superintendent of operation of the department of the past year 1971 and on general condition of the works is respectfully submitted.

The financial report of the Water Registrar – Rainfall – and usual tables showing in detail the work of the department are incorporated as part of this report.

RAINFALL

Total rainfall for the calendar year, 1971, was recorded at Quittacas Pumping Station, Rochester, Massachusetts at 41.08 inches.

POND ELEVATIONS

The water levels in the Lakeville Ponds reached the following elevations during the year 1971.

PONDS	HIGH LEVEL	LOW LEVEL
Pocksha Pond	April 14 – 51.81	Oct. 24 – 48.10
Little Quittacas Pond	Feb. 17 – 48.22	Aug. 11 – 47.00
Big Quittacas Pond	Mar. 24 – 51.83	Nov. 17 – 47.79

WATER TREATMENT

All water used through the year was sterilized with the addition of liquid chlorine at the Quittacas Pumping Station, North Rochester, Mass., and all the water traveling through the High Hill Chlorination Station, North Dartmouth, Mass., was again treated. All water leaving Quittacas Pumping Station is also treated with Chlorine.

The Water Department took 1511 water samples from the system and its sources during 1971.

HIGH HILL
SCALES
ONE TON CHLORINE CYLINDER

Under the supervision of Mr. Begin, the Water Department employees completed the installation of one ton chlorine cylinder and a new scale at High Hill chlorine station, at a saving to the City of $12,000 by not contracting the work.

WATER PROJECT IMPROVEMENTS

Camp, Dresser & McKee have completed a study of the water improvement needs and recommends the following:

1. 12" Water Main Shawmut Avenue from Hathaway Road to Durfee Street and Durfee Street from Shawmut Avenue to Cedar Street and install a pump house on Durfee Street and Nashua Street for high pressure system from Kempton Street to Hathaway Road and Shawmut Avenue west to town line.

2. Install 12" and 16" water main in Brock Avenue from David Street to Rodney French Blvd. (south)

3. Replacement of new 24" and 48" valves.

4. Install a 30" main in Maxfield Street from Second Street to Park Street.

5. Install 16" main in Bonney Street from Cove Road to Rivet Street.

6. Install a new 12" main on Fairhaven Bridge, Pope's Island and Fish Island and Marine Park to replace old 8" main.

7. Install a 48" main in Belleville Avenue from Acushnet Avenue and Tarkiln Hill Road south to Logan Street and Acushnet Avenue.

8. Install a 16" main in Acushnet Avenue and Sassaquin area and a pump house to form a high pressure system.

WATER TREATMENT PLANT

The Water Department was informed by the Planning Department that H.U.D. has accepted our application for covering

High Hill Water Treatment Plant and 12" main for Fish Island and Marine Park connecting to Fairhaven.

WATER SHED AREA

The Water Board voted to issue boating and fishing permits again this year on parts of Great Quittacas and Pocksha Ponds for the same fee, terms and conditions as last year.

FLUSHING

The system was completely flushed by hiring temporary employees during the summer months. The flushing crew reported some hydrants in need of repair and finding some main gates that they could not operate. All waste gates throughout the system were operated twice during the year.

HYDRANTS

The color of the hydrants was changed from green and white to orange and white throughout the entire city with the aid of temporary help.

As Acting Superintendent, I wish to express my appreciation for the help received from the Mayor, the Water Board, the members of the City Government, and particularly to the employees of the Water Department for their continued and wholehearted support.

Respectfully submitted,

Edward V. Peters
Assistant Superintendent

LEAKS

There has been twenty-six leaks on main pipe during the year as herewith shown.

Date	Size	Location	Cause
January 11	8"	Shaw St., E. x E. line Church St. 285'	Main Leak
January 26	3"	Pier 4, E. x Center of Hydrant 75'	Cracked Main

Dec. 13	6"	Nemasket St., E. x Rockdale Ave. 139'	Joint Leak
Dec. 30	6"	Shawmut Ave. at Refuse Dept.	Cracked Main

14,276.2 feet of distribution pipe, in sizes from 4 inch to 36 inch was added to the systems during the year and 1,123.9 feet was removed.

The total length of distribution pipe less than 4 inches now in use is 12,266.6 feet.

Eighty-nine stop gates have been set and two of those previously set have been removed. The total number now in use is 4,229.

The total of small size stop gates now in use is 97.

The total number of waste gates now in use is 209.

A total of 234 air taps are now in use.

Thirty-five private gates have been set and three of those previously set have been removed, making a total of 1,245 now in use.

Twenty-nine new hydrants have been set and three of those previously set have been removed. The total number now in use is 2,242.

The total number of sprinkler car hydrants in use is 8.

The total of water cart hydrants now in use is 15.

Two hundred and forty-four service pipes have been laid and forty-nine of those previously laid have been removed. The total number now in place is 24,106. Of this number three hundred and eighty-eight are unmetered fire services, twenty thousand seven hundred sixty-five are metered, and the balance of two thousand nine hundred and fifty-nine are not in use.

Four hundred and eighty-three service leaks have been repaired.

Two hundred forty-five taps have been cleared as follows:

Blow-offs 213	Trouble Inside 32

Nine hundred eighteen meters have been removed for repairs, and six hundred thirty-five have been reset. Also one hundred and thirty meters have been set for the year making the total number in use 20,765.

CONSUMPTION OF WATER

The consumption of water for the year has been as follows:

1971	Monthly Consumption					Daily Average
Month	New Bedford	Dartmouth	Acushnet	Fairhaven	Total	Consumption
January	534,787,750	4,263,100	8,187,000	1,500,750	548,738,600	17,701,245

Averages						21,309,460

Maximum daily consumption — (24 hrs.) — July 21 29,736,000

Minimum daily consumption — (24 hrs.) — April 18 11,733,200

Average daily consumption — 6 a.m. to 6 p.m. 12,526,321

Average night consumption — 6 p.m. to 6 a.m. 8,783,139

Amount of water consumed shown on above table includes the supplying of about 211.264 miles of distribution pipes located in the adjoining towns of Dartmouth, Acushnet, and Fairhaven. Dartmouth supplies 19,362 consumers through 5,532 taps. Acushnet supplies 7,500 consumers through 1,853 taps. Fairhaven supplies 19,000 consumers through 4,808 taps.

COMPARISON OF THE CONSUMPTION OF THE YEAR 1971 WITH THE RECORD OF THE 89 PREVIOUS YEARS

Year	Estimated Population	Estimated number of consumers	Number of taps	Total number of gallons consumed	Average daily consumption	Gallons per day to each inhabitant	Gallons per day to each consumer	Gallons per day to each tap	No. of meters

*Includes population supplied in towns of Acushnet, Dartmouth and Fairhaven (Since 1971) (Consumers.)

‡This consumption is for eleven months.

†This consumption is for thirteen months.

DATA ON METERED CONSUMPTION AND REVENUE
July 1, 1970 through June 30, 1971

		Number of Gallons			Receipts for metered water		
	No. of Accounts	Total Gallons	Per Account	Per Day Per Acct.	Total Receipts	Per Account	Per M Gals.
*Using less than minimum rate viz: 30,000 gallons per year	3,744	74,806,500	19,980	55	41,026.20	10.95	.548
Using over minimum rate but less than 75,000 gallons per quarter	16,652	1,447,514,250	86,927	238	387,430.00	23.27	.267
Using between 75,000 and 750,000 gallons per quarter	546	382,161,750	699,930	1,917	93,803.46	171.80	.245
Using between 750,000 and 7,500,000 gallons per quarter	106	659,950,500	6,225,948	17,057	140,762.10	1,327.94	.213
Using between 7,500,000 and 15,000,000 gallons per quarter	5	225,183,000	45,036,600	123,388	40,254.73	8,050.94	.178
Using over 15,000,000 gallons per quarter	18	3,337,629,750	185,423,875	508,010	256,182.69	14,232.37	.0767
Totals and averages	21,071	6,127,245,750			959,459.18		.175
Town of Fairhaven	1	104,009,250			18,224.31		.156
Town of Dartmouth Venturi Meter	1	75,340,900			13,707.04		.183
Town of Acushnet, Special Rate	2	85,937,250			16,451.89		.191
**City of New Bedford Departments		60,990,750			***18,462.20		
Metered Water Department Use		19,822,500			***4,081.55		
GRAND TOTALS	21,075	6,473,346,400			1,030,386.17		

*Includes special assessment accounts.

**Not charged to City of N. B. Depts.

***Not included in grand total.

As superintendent, I wish to express my appreciation for the help received from the Mayor, the Water Board, the members of the City Government, and particularly to the employees of the Water Department for their continued and wholehearted support.

Respectfully submitted,
GEORGE H. BRIGHTMAN,
Superintendent

SUMMARY OF STATISTICS

FOR THE YEAR ENDING DECEMBER 31, 1971 IN FORM RECOMMENDED BY THE NEW ENGLAND WATER WORKS ASSOCIATION

NEW BEDFORD WATER WORKS ·

NEW BEDFOD
BRISTOL COUNTY, MASS.

GENERAL STATISTICS

Population by census of 1971 — 101,846

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899 inclusive.

By whom owned, City of New Bedford.

Source of supply. — Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply. — Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40' + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6/10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30') located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154') located 1,879 feet distance, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from Little Quittacas Pond (grade 52'). It is pumped through two 48 inch force mains, 8¼ miles long to a distributing reservoir (capacity 67 million gallons, grade 216') located upon High Hill, in the town of Dartmouth. From this reservoir, it flows into the city's distribution system by gravitation through two 36 inch cast iron pipes averaging 4 1/17 miles in length and one 42 inch per-cast concrete pipe following a different course and approximately the same length. The concrete transmission line was put into operation in 1958.

It is also possible to pump directly to the city through a 48" and 36" main using the reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use.

PUMPING STATISTICS

LITTLE QUITTACAS STATION

1. Builders of Pumping Machinery.

Electric Units

No. 1 10 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, driven electrically by 400 H. P. 3 phase, 4160 volt, 60 cycle, synchronous motor with special step windings manufactured by the Electric Machinery Company.

No. 2 Duplicate of No. 1.

No. 3 15 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, electrically driven by 600 H. P. 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.

The three foregoing pumps are controlled by switches and automatic starting equipment in a switchboard manufactured by the Electric Machinery Company.

No. 4 30 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, directly driven by 950 H. P. Baldwin locomotive type 6 cylinder supercharged Diesel engine, 600 R.P.M., manufactured by the Baldwin Locomotive Company.

Electric current purchased off New Bedford Gas and Edison Light Company. Total installed capacity, 65 million gallons per day.

LITTLE QUITTACAS STATION — Pump 4 "Diesel"

2. Description of fuel used.
   a. No. 2 Diesel oil
   b. Brand of oil — various
   c. Price of oil per gallon — delivered to Little Quittacas Station 17.49 cents.
3. Oil consumed for the year — 21,630 gals.
4. Total pumpage for the year — 412,230,000 gallons by Venturi meter.
5. Average static head against which pumps work — 171.4.
6. Average dynamic head against which pumps work — 192.2.
7. Number of gallons pumped per gallon of fuel oil — 19,058 gals.
8. Number of gallons raised 100 feet per gallons of fuel oil — 36,629 gals.
9. a. Cost per million gallons raised into High Hill Reservoir — $21.73
9. b. Cost per million gallons raised into High Hill Reservoir — diesel fuel only — $9.18

LITTLE QUITTACAS STATION — Pumps 1, 2, 3.

10. Total pumping time for the year — 14,869:45 Hrs.
11. Total current used for the year — 5,257,686 K.W.H.
12. Total pumpage for the year — 7,239,530,394 gallons
13. Number of gallons pumped per K.W.H. — 1,377
14. Number of K.W.H. required to raise one million gallons into High Hill Reservoir — 726
15. Average cost per K.W.H. — $.0138 Cost per K.W.H. varies in accordance with amount consumed.
16. a. Cost per million gallons raised into High Hill Reservoir, (Pumps 1, 2, 3) — $32.31
16. b. Per power only — $9.99
Total cost of pumping, figured on pumping station expenses, viz: $242,860.03
17. Per millions gallons pumped — $31.74
18. Per million gallons raised one foot (dynamic) — 17 cents.
Cost of pumping figured on total maintenance and interest on bonds (see financial CC-DD) less credits, viz: $821,482.49
19. Per million gallons pumped — $107.36
20. Per million gallons raised one foot (dynamic) — 57 cents.
Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC-DD-EE) less credits, viz: $961,482.44
21. Per million gallons pumped — $125.66
22. Per million gallons raised one foot (dynamic) — 67 cents.

STATISTICS OF CONSUMPTION OF WATER

1. Estimated total population at date (New Bedford)	*101,846
Acushnet 8,250; Dartmouth 20,000; Fairhaven 16,718	*146,814
2. Estimated population on lines of pipe	*140,000
3. Estimated population supplied	140,000
Year July 1, 1970 through June 30, 1971	
4. Total consumption for the year	*7,332,591,500
5. Passed through meters	6,473,346,400
6. Percentage of consumption metered	88.3%
7. Average daily consumption	20,089,291
8. Gallons per day to each inhabitant	*137
9. Gallons per day to each consumer	*143
10. Gallons per day to each tap (active)	*553
11. Average rate received per million gallons metered	$159.74
12. Average rate received per million gallons consumed	$140.52
Year January 1, 1971 through December 31, 1971	
13. Cost of supplying water, per million gallons consumed figured on total maintenance (item C C) less credits	$99.65
14. Cost of supplying water per million gallons consumed figured on total maintenance plus interest on bonds (CC DD) less credits	$105.61
15. Total cost of supplying per million gallons consumed figured on total maintenance, plus interest on bonds and bond payments (CC DD EE) less credits	$123.61

*Includes population supplied in the towns of Acushnet, Dartmouth and Fairhaven.

STATISTICS RELATING TO DISTRIBUTING SYSTEM

MAINS

1. Kind of pipe cast iron, steel and cement asbestos.

2. Sizes, from 4 inch to 48 inch.

3. Extended 14,276 feet during year.

4. Discontinued 1,124 feet during year.

5. Total now in use 270.7 miles.

6. Cost of ordinary maintenance per mile including flushing and inspecting gates and hydrants — $162.22

7. Number of leaks per mile .0960

8. Length of pipes less than 4 inches diam. 2.32 miles.

9. Number of hydrants added during the year 29. Number of hydrants removed 3.

10. Number of hydrants public 2,242

11. Number of stop gates added during year 87.

12.Number of stop gates now in use, 4,229

13. Number of stop gates smaller than 4", 97.

14. Number of blow offs (waste gates) 209.

15. Range of pressure on mains, 23 lbs. to 91 lbs.

SERVICES

16. Kind of pipe; lead, cast iron and copper tubing.

17. Sizes, ½ inch to 16 inch.

18. Extended 10,638 feet.

19. Discontinued 2,366 feet.

20. Total now in use 190.7785 miles.

21. Number of service taps added during year:

New Bedford	244
Dartmouth	153
Acushnet	62
Fairhaven	
Total added	459

22. Number now laid:

New Bedford	24,106
Dartmouth	5,862
Acushnet	1,927
Fairhaven	4,808
total now laid	36,703
Total now in use in N. B.	21,153

23. Average length of service .... 47.62 ft.

24. Average cost of service for the year:

(a) Gross	$103.71
(b) Net	(minus)

25. Number of meters to be deducted 153

26. Number now in use, New Bedford only 20,765 (See Table X)

27. Percentage of active service metered 98.1%

28. Percentage of water receipts from metered water — 100.

FINANCIAL STATISTICS

FOR DETAILS SEE WATER REGISTRAR'S REPORT

Balance brought forward		
(a) From ordinary receipts (maintenance)		1,861,828.50
(b) From extraordinary receipts, (bonds, etc.) additional supply		198,541.02
Total Balance		$2,060,369.52
From Water Rates		
A. Meter rates	1,051,786.41	
B. Flushing charges, Rental, demands, shut off charges	101,502.22	
C. Total for consumers		1,153,288.63
D. From other sources		65,725.62
E. Total		$3,279,383.77

EXPENDITURES

Water Works maintenance:	
AA. Operation (management) and repairs	801,071.71
BB. Interest on Bonds	46,407.50
CC. Payment on Bonds	140,000.00
AA + BB + CC	987,479.21
Water Works Construction:	
DD. Extension of mains	85,124.95
EE. Extension of services	25,306.03
FF. Extension of meters	16,272.45
	126,703.43
GG. Unclassified expenses	63,278.30
HH. Land around ponds	
II. New Workshop	
JJ. Total Expense	1,177,460.94
Balance	
aa. Ordinary	1,921,223.41
bb. Extra-ordinary	180,699.42
KK. Total	3,279,383.77

Disposition of balance:

F. Net Cost of works to date	$12,545,082.13
G. Bonded debt to date	1,095,000.00
H. Value of sinking fund to date	0.00
I. Net debt to date	1,095,000.00
J. Average rate of interest	4.09%

*These balances have been diverted to General City Funds and Water Dept. Rev. Surplus Accts.

**New Bedford Water Works C, 400, 1924 — $18,189.12

**Water Loan No. 1 of 1968 — $976.19

**Water Loan No. 1 of 1969 — $81,534.11

WATER RATES

For water supplied from Quittacas Pumping Station:

For the first 10,000 cu. ft. per quarter or 3,300 cu. ft. per month	$2.00 per thousand cu. ft.
For the next 90,000 cu. ft. per quarter or 30,000 cu. ft. per month	$1.75 per thousand cu. ft.
For the next 900,000 cu. ft. per quarter or 300,000 cu. ft. per month	$1.50 per thousand cu. ft.
For the next 1,000,000 cu. ft. per quarter or 333,300 cu. ft. per month	$1.00 per thousand cu. ft.
For all over 2,000,000 cu. ft. per quarter or 666,600 cu. ft. per month	$ .30 per thousand cu. ft.

These rates shall apply only to units of property or to the total amount of water recorded as used, by one or more meters located on the same property or premises.

METER RENTALS

(Within Basement Walls)

Size 5/8 inch	$3.00 per year
Size 3/4 inch	4.00 per year
Size 1 inch	6.50 per year

In boxes, sizes over 1 inch and other special conditions, ten per cent of cost of meter and installation.

The property owner must keep the meter within his premises easily accessible for reading at all times. The owner will be held responsible for proper protection of the meter from all damage which may occur to freezing or from hot water backing from overheated house boiler or other causes.

The owner of property shall pay at the established meter rate for amount registered whether used or wasted.

Should a meter fail to register for any cause, the quantity shall be determined and the charge made based on average amount registered by meter when in order.

No meter shall be disconnected from the pipe, moved or disturbed without permission from the Water Registrar who will send a properly authorized person to attend to any change needed.

If a house becomes unoccupied the owner or agent may have the water shut off and the meter removed during the period of non-occupancy by making a request therefore to the Water Department and paying one (1) dollar to cover expenses.

CITY ORDINANCES
AND AMENDMENTS

PASSED BY THE CITY COUNCIL

of the

CITY OF NEW BEDFORD

From January 1, 1972 to December 31, 1972

THE BAKER MANUFACTURING COMPANY / PRINTERS
NEW BEDFORD, MASS. 02742

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-One

AN ORDINANCE

GOVERNING THE DESIGN, CONSTRUCTION, ALTERATION, ENLARGEMENT, EQUIPMENT, REPAIR, DEMOLITION, REMOVAL, CONVERSION, USE OF, MAINTENANCE OF ALL BUILDINGS AND STRUCTURES; KNOWN AS THE BUILDING CODE; PROVIDING FOR THE ISSUANCE OF PERMITS, COLLECTION OF FEES. MAKING OF INSPECTIONS; PROVIDING PENALTIES FOR THE VIOLATION THEREOF; DECLARING AND ESTABLISHING FIRE LIMITS; AND REPEALING SECTION 8-101 THROUGH 8-164A AND SECTION 10-301 THROUGH SECTION 10-317 OF THE CODE OF THE CITY OF NEW BEDFORD.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. Title 8, Chapter 1, Section 8-101 through Section 8-164A, inclusive, and Title 10, Chapter 3, Section 10-301 through Section 10-317, inclusive of the Code of the City of New Bedford are hereby stricken in their entirety and the following new sections are inserted in place thereof:

SECTION 8-101. ADOPTION OF BUILDING CODE

A certain document, one (1) copy of which is on file in the office of the City Clerk of the City of New Bedford, being marked and designated as "The BOCA Basic Building Code, Fifth Edition, 1970" as published by the Building Officials Conference of America, Inc., be and is hereby adopted as the Building Code of the City of New Bedford, Massachusetts; for the control of buildings and structures as herein provided; and each and all of the regulations, provisions, penalties, conditions, and the terms of the BOCA Basic Building Code, Fifth Edition, 1970, are hereby referred to, adopted and made a part hereof, as is fully set out in this ordinance, with the additions, insertions, deletions and changes prescribed in Section 8-102 of this ordinance.

SECTION 8-102. ADDITIONS, INSERTIONS AND CHANGES.

The following sections are hereby revised as follows:

SECTION 100.1 (Page 1, second line) Insert "the City of New Bedford."

SECTION 100.1 (Page 1, seventh line) Insert "City of New Bedford."

SECTION 100.0 (Page 1) Add new section to read as follows:

SECTION 100.4 BUILDINGS SUBJECT TO RULES AND REGULATIONS PUBLISHED BY THE BOARD OF STANDARDS OF THE COMMONWEALTH OF MASSACHUSETTS, DEPARTMENT OF PUBLIC SAFETY:

The provisions of the Basic Code shall apply to all buildings and structures which are subject to the provisions of Massachusetts General Laws Chapter 143, Section 3B; provided, however, that any additions, insertions, deletions, and changes promulgated by the Department of Public Safety in accordance with said

Chapter 143, Section 3B shall amend and supersede this Basic Code with respect to such buildings or structures.

SECTION 105.1 (Page 3, second line) Insert "January 17, 1972."

SECTION 107.1 (Page 4) Delete entire section and Insert "The Superintendent of Buildings of the City of New Bedford shall be known as the building official."

SECTION 107.2 (Page 4) Delete entire section.

Zoning Change No. 94

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-Two

AN ORDINANCE

Changing the zoning classification of property on the north side of COFFIN AVENUE, east of Belleville Avenue, from Industrial B to RESIDENCE C.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. That all of the property bounded and described, as follows:

Beginning at a point in the north line of Coffin Avenue, between Belleville Avenue and King Phillip Street, said point being also the southeasterly corner of an existing Residence C zone located on the northerly side of said Coffin Avenue;

thence northerly in the easterly line of said Residence C zone, a distance of one hundred twelve and 97/100 (112.97) feet to a point in a southerly line of said existing Residence C zone;

thence easterly in said southerly line of said existing Residence C zone, a distance of fifty-three (53) feet to the northwesterly corner of land now or formerly belonging to Abilio and Julia Goncalves;

thence southerly in the westerly line of said land, a distance of one hundred sixteen and 54/100 (116.54) feet to a point in the northerly line of Coffin Avenue;

thence westerly in said northerly line of Coffin Avenue, a distance of thirty (30) feet to the point of beginning;

all of which is now zoned as Industrial B, be reclassified and zoned as Residence C;

all as shown on a plan on file in the Office of the City Clerk; and, the zoning Map adopted as Part of Section 9-201 of the Code of the City of New Bedford, is hereby amended to conform with said reclassification.

SECTION 2. This ordinance shall take effect in accordance with provisions of Chapter 43 of the General Laws (Ter. Ed.).

SECTION 1. That all of the property bounded and described, as follows:

Beginning at the point of intersection of the southerly line of Ruth Street and the westerly line of East Rodney French Boulevard;

thence southeasterly in said westerly line of East Rodney French Boulevard, a distance of three hundred twenty-one and 33/100 (321.33) feet to a point at the northeasterly corner of land now or formerly belonging to the City of New Bedford;

thence westerly, in a northerly line of said land, a distance of four hundred ninety-three and 39/100 (493.39) feet to a point;

thence northerly in an easterly line of said land, a distance of fifty-one and 85/100 (51.85) feet to a point;

thence again westerly in a northerly line of said land, a distance of seventy-seven and 00/100 (77.00) feet, to a point at the southeasterly corner of land now or formerly belonging to Butler Mill Realty Trust;

thence northerly, in the easterly line of said land, and continuing in a straight line, a distance of two hundred five and 31/100 (205.31) feet to a point in the southerly line of Ruth Street;

thence easterly, in said southerly line of Ruth Street, a distance of three hundred seventy-seven and 39/100 (377.39) feet to the point of beginning;

all of which is now zoned as Industrial B, be reclassified and zoned Residence C;

all as shown on a plan on file in the Office of the City Clerk: and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford, is hereby amended to conform with said reclassification.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-Two

AN ORDINANCE

RELATIVE TO THE DOG OFFICER AND RESTRAINT OF DOGS

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. Chapter 8 of Title 1 of the New Bedford City Code is hereby amended by changing the title of said chapter to read, "Dog Officer and Restraint of Dogs", and by adding the following new sections:

Section 1-805 — DEFINITIONS.

As used in this ordinance the following terms mean:

OWNER: Any person, group of persons, or corporation owning, keeping or harboring a dog or dogs.

KENNEL: Any person, group of persons, or corporation engaged in the commercial business of breeding, buying, selling or boarding dogs.

AT LARGE: Any dog shall be deemed to be at large when he is off the property of his owner and not under control of a competent person.

RESTRAINT: A dog is under restraint within the meaning of this ordinance if he is controlled or at "heel" beside a competent person and obedient to that person's commands, on or within a vehicle being driven or parked on the streets, or within the property limits of its owner or keeper.

DOG POUND: Any premises designated by action of the City for the purpose of impounding and caring for all animals found running at large in violation of this ordinance.

Section 1-806 — RESTRAINT.

No person owning or harboring a dog shall suffer or allow it to run at large in any of the streets or public places in the City of New Bedford or allow it upon the premises of anyone other than the owner or keeper of such dog without the permission of the owner or occupant of such premises. No dog shall be permitted in any street or public place within the City of New Bedford unless it is effectively restrained as above defined by a chain or leash not exceeding seven (7) feet.

Section 1-807 — IMPOUNDMENT.

Any dog, or dogs, found running at large shall be taken up by the Dog Officer and impounded in the shelter designated as the city dog pound, and there confined in a humane manner for a period of not less than fifteen (15) days, and may thereafter be disposed of in a humane manner if not claimed by their owners. Dogs not claimed by their owners before the expiration of fifteen (15) days may be disposed of at the discretion of the dog officer, except as hereinafter provided in the case of certain dogs.

(a) The dog officer may transfer title of all animals held by the animal shelter to the Humane Society after the legal detention period has expired and the animal has not been claimed by its owner. In the event of such transfer of title, it is expressly understood that the Humane Society shall pay for each such animal's food, after the legal detention period, until it shall be removed from the city animal shelter.

(b) When dogs are found running at large, and their ownership is known to the dog officer, such dogs need not be impounded, but the agent may, at his discretion, cite the owners of such dogs to appear in court to answer to charges of violation of this ordinance.

(c) Immediately upon impounding dogs or other animals, the dog officer shall make every possible reasonable effort to notify the owners of such dogs or other animals, so impounded, and inform such owners by registered letter of the conditions whereby they may regain custody of such animals.

(d) No dog shall be turned over or sold to any hospital, institution, or organization of any kind for experimental purposes.

Section 1-808 — REDEMPTION OF IMPOUNDED ANIMALS.

(a) The owner shall be entitled to resume possession of any impounded dog, except as hereinafter provided in the cases of certain dogs, upon compliance with the provisions of Section 1-806 of this ordinance and the payment of impoundment fees set forth herein.

(b) Any animal impounded under the provisions of this ordinance and not reclaimed by its owner within fifteen (15) days, may be humanely destroyed by the dog officer, have its title transferred to the Humane Society as provided for in Section 1-807(a), or placed in the custody of some person deemed to be a responsible and suitable owner, who will agree to comply with the provisions of this ordinance and such other regulations as shall be fixed by the City of New Bedford.

Section 1-809 — IMPOUNDMENT FEES

Any dog impounded hereunder may be reclaimed as herein provided upon payment by the owner to the dog officer of the sum of $2.00 per day for the care of such dog, payable by the owner or keeper thereof, if known, otherwise from the dog fund.

Section 1-810 — CONFINEMENT OF CERTAIN DOGS

(a) The owner shall confine within a building or secure enclosure, every fierce, dangerous, or vicious dog, and not take such dog out of such building or secure enclosure unless such dog is securely muzzled.

(b) Any dog described in the foregoing sub-section (a) of section 1-810 of this ordinance, found at large shall be impounded by the dog officer and may not be redeemed unless such redemption be authorized by any court having jurisdiction.

(c) When in the judgment of the dog officer, an animal should be destroyed for humane reasons, such animal may not be redeemed.

Section 1-811 — RABIES CONTROL.

(a) The dog officer shall receive a prompt report of every dog bite case. Such dog shall thereupon be securely quarantined at the direction of the dog officer for a period of ten (10) days, and shall not be released from such quarantine except by written permission of the dog officer. At the discretion of the dog officer, such quarantine may be on the premises of the owner, at the shelter designated as the city animal shelter, or at the owner's option and expense, in a veterinary hospital of his choice. In the case of stray animals, or in the case of animals whose ownership is not known, such quarantine shall be at the shelter designated as the city animal shelter.

(b) The owner upon demand by the dog officer shall forthwith surrender any animal which has bitten a human, or which is suspected as having been exposed to rabies, for supervised quarantine, the expense of which shall be borne by the owner. Said animal may be reclaimed by the owner if it is adjudged free of rabies, upon payment of fees set forth in Section 1-809 of this ordinance.

(c) When rabies has been diagnosed in an animal under quarantine or rabies suspected by a licensed veterinarian, and the animal dies while under such observation, the dog officer shall immediately send the head of such animal to the State Health Department for pathological examination, and shall notify the proper public health officer of reports of human contacts and diagnosis.

(d) When one or both reports indicate a positive diagnosis of rabies, the dog officer shall recommend an area-wide quarantine for a period of sixty (60) days, and upon invoking of such emergency quarantine, no pet animal shall be taken into the streets, or permitted to be in the streets, during such quarantine, and no animal may be taken or shipped from the city without permission of the dog officer.

During this quarantine period and as long afterward as he decides it is necessary to prevent the spread of rabies, the health officer shall require all dogs three (3) months of age and older to be vaccinated against rabies and with a canine rabies vaccine approved by the Biologics Control Section of the United States Department of Agriculture. The types of approved canine antirabies vaccine to be used and the recognized duration of immunity for each shall be established by the health officer. All vaccinated dogs shall be restricted (leashing or confinement on enclosed premises) for thirty (30) days after vaccination. During the quarantine period, the health officer shall be empowered to provide for a program of mass immunization by the establishment of temporary emergency canine rabies vaccination clinics located throughout the city.

No dog which has been impounded by reason of its being a stray, unclaimed by its owner, is allowed to be claimed during the period of the rabies emergency quarantine, except by special authorization of the health officer and the dog officer.

(e) Dogs bitten by a known rabid animal shall be immediately destroyed or if the owner is unwilling to destroy the exposed animal, strict isolation of the animal in a kennel for six (6) months shall be enforced.

(f) In the event there are additional positive cases of rabies occurring during the period of quarantine, such period of quarantine may be extended for an additional six (6) months.

(g) No person shall kill, or cause to be killed, any rabid animal, any animal suspected of having been exposed to rabies, or any animal biting a human, except as herein provided, nor remove from the city limits without written permission from the dog officer.

Section 1-812 — REPORTS OF BITE CASES.

It shall be the duty of every physician to report to the dog officer the names and addresses of persons treated for bites inflicted by animals, together with such other information as will be helpful in rabies control.

Section 1-813 — RESPONSIBILITIES OF VETERINARIANS.

It shall be the duty of every licensed veterinarian to report to the dog officer any animal considered by him to be a rabies suspect.

Section 1-814 — EXEMPTIONS.

(a) Hospitals, clinics and other premises operated by licensed veterinarians for the care and treatment of animals are exempt from the provisions of this ordinance, except where expressly stated.

(b) The vaccination requirements of this ordinance shall not apply to any dog belonging to a non-resident of the City and kept within the City for not longer than thirty (30) days, provided all such dogs shall at all times while in the City be kept within a building, enclosure or vehicle, or be under restraint by the owner.

Section 1-815 — RABIES VACCINATION.

The owner or keeper of a dog six (6) months of age or older shall cause such dog to be vaccinated against rabies by a licensed veterinarian using a vaccine approved by the Department of Public Health.

Unvaccinated dogs acquired or brought into the Commonwealth shall be vaccinated within thirty (30) days after the acquisition or entry into the Commonwealth or upon reaching the age of six (6) months, whichever comes later.

Vaccinated dogs shall be revaccinated periodically in accordance with rules and regulations adopted and promulgated by the Department of Public Health.

Whoever violates the provisions of this section shall be punished by a fine of not more than fifty (50) dollars. (Chapter 140 of General Laws, Section 145B, approved April 22, 1969.)

Section 1-816 — NUISANCE ABATEMENT.

(a) The keeping or harboring of any dog, or other animal, whether licensed or not, which by habitual howling, yelping, barking or other noise disturbs or annoys any considerable number of persons or neighborhood is unlawful, and is hereby declared to be a public nuisance and each day shall constitute a separate offence. The provisions of General Laws, Chapter 140 shall be applicable.

Section 1-817 — MISCELLANEOUS PROVISIONS.

(a) No dogs are allowed in school yards or on school property, whether at large or under restraint, seeing-eye dogs, so-called, excepted.

(b) No dogs are allowed in any stores or eating places within the City, whether at large or under restraint, seeing-eye dogs, so-called, excepted.

(c) All complaints made under the provisions of this ordinance shall be made to the dog officer and may be made orally, provided, however, that such complaint is within forty-eight (48) hours reduced to writing on forms provided by the dog officer and shall be signed by the complainant showing his address and telephone number, if any.

Section 1-818 — INVESTIGATION.

In the discharge of the duties imposed by this ordinance, the dog officer shall have the authority at all reasonable times to enter upon any premises (but such authority should not include the right to enter any residence on such premises) to examine a dog or other animal which is allegedly in violation of a provision of this ordinance. Such dog officer shall have the further authority to take possession of any such dog or other animal and remove it from such premises.

Section 1-819 — INTERFERENCE.

No person shall interfere with, hinder or molest the dog officer of this City in the performance of his duties, or seek to release any animal in the custody of the dog officer, except as herein provided.

Section 1-820 — RECORDS.

(a) It shall be the duty of the dog officer to keep, or cause to be kept, accurate and detailed records of the impoundment and disposition of all animals coming into his custody.

(b) It shall be the duty of the dog officer to keep, or cause to be kept, accurate and detailed records of all bite cases reported to him and his investigation of the same.

Section 1-821 — ENFORCEMENT.

The provisions of this ordinance shall be enforced by the dog officer of the City of New Bedford and may be enforced by any Police Officer of said city.

Section 1-822 — PENALTY.

Except as otherwise provided herein, any person convicted of violating any provision of this ordinance may be punished by the payment of a fine not exceeding $25.00, to be recovered for the use of the City, and if such violation be continued, each violation may constitute a separate offence.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

Zoning Change No. 102

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-Two

AN ORDINANCE

Changing the zoning classification of property on the east side of LIBERTY STREET, between Parker and Smith Streets, from Residence A to Business.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. That all of the property bounded and described, as follows:

Beginning at the point of intersection of the northerly line of Smith Street and the easterly line of Liberty Street;

thence northwesterly in the easterly line of Liberty Street, a distance of nine hundred twenty-two (922) feet more or less to its point of intersection with the southerly line of Parker Street;

thence easterly in the southerly line of Parker Street, a distance of one hundred five (105) feet more or less to a point;

thence southeasterly in a straight line, parallel to the first described line and one hundred (100) feet distant therefrom, a distance of nine hundred twenty-two (922) feet more or less to a point in the northerly line of Smith Street;

thence westerly in said northerly line of Smith Street, a distance of one hundred five (105) feet more or less to the point of beginning;

all of which is now zoned as Residence A, be reclassified and zoned Business;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford, is hereby amended to conform with said reclassification.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

Zoning Change No. 103

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-Two

AN ORDINANCE

Changing the zoning classification of property east of ASHLEY BOULEVARD south of PINE GROVE CEMETERY, west of PINE GROVE STREET and north of OHIO STREET, from Residence B to Residence A.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. That all of the property bounded and described, as follows:

Beginning at the point of intersection of the easterly line of Ashley Boulevard and the southerly line of Pine Grove Cemetery;

thence easterly in said southerly line of Pine Grove Cemetery, a distance of five hundred thirty-six (536) feet more or less to a corner;

thence southerly in a westerly line of said Cemetery, a distance of eight hundred fifty-four (854) feet more or less to an angle;

thence continuing southerly in a westerly line of said Cemetery, a distance of one hundred fifty-seven (157) feet more or less to a corner;

thence easterly in a southerly line of said Cemetery, a distance of five hundred sixty-six (566) feet more or less to a point in the westerly line of Pine Grove Street;

thence southerly in the westerly line of said Pine Grove Street, a distance of five hundred sixty-nine (569) feet more or less to a point at the northeasterly corner of land now or formerly belonging to Roland L. and Frances Bouchard;

thence westerly in the northerly line of said land, a distance of eighty-five (85) feet more or less to a point in the easterly line of land now or formerly belonging to Frank and Filomena Pease;

thence southerly in the easterly line of said land, a distance of sixty-four (64) feet more or less to the northeasterly corner of other land now or formerly belonging to Frank and Filomena Pease;

thence westerly in the northerly line of said land and continuing in a straight line, a distance of five hundred seven (507) feet more or less to a point at the northwesterly corner of land now or formerly belonging to Everett S. and Albina M. Ward;

thence southerly in the westerly line of said land, a distance of twenty-four (24) feet more or less to the northeasterly corner of land now or formerly belonging to Simon and Jeanette Comeau;

thence westerly in the northerly line of said land, and continuing in a straight line, a distance of two hundred seventy-nine (279) feet more or less to a point in the easterly limit of an existing Business Zone on the easterly side of Ashley Boulevard;

thence northerly in the easterly limit of said Business Zone, a distance of one thousand ten (1,010) feet more or less to a point in the north line of Florida Street;

thence easterly in the northerly line of Florida Street, a distance of thirty (30) feet more or less to the southeasterly corner of land now or formerly belonging to John Riciutti and Sons, Inc.;

thence northerly in the easterly line of said land, a distance of ninety (90) feet more or less to the northeasterly corner of said land;

thence westerly in the northerly line of said land, a distance of thirty (30) feet more or less to a point in the easterly limit of the aforementioned Business Zone;

thence northerly in the easterly limit of said Business Zone, a distance of one hundred forthy (140) feet more or less to a point in the northerly line of York Street;

thence easterly in the northerly line of York Street, a distance of thirty (30) feet more or less to a point at the southwesterly corner of land now or formerly belonging to Wilfred G. and Dolores Valliere;

thence northerly in the westerly line of said land, a distance of ninety (90) feet more or less to the northwesterly corner of said land;

thence easterly in the northerly line of said land, a distance of forty (40) feet more or less to the southeasterly corner of land now or formerly belonging to Romeo J. and Ida Cormier;

thence northerly in the easterly line of said land, and continuing in a straight line, a distance of three hundred seventy (370) feet more or less to a point in the north line of Menton Street;

thence westerly in the northerly line of said Menton Street, a distance of one hundred seventy (170) feet more or less to its point of intersection with the easterly line of Ashley Boulevard;

thence northerly in the easterly line of Ashley Boulevard, a distance of fifty-five (55) feet more or less to the point of beginning; excepting therefrom such portions of the following streets, proposed or accepted, as may lie within the limits herein defined: Raymond Street, Jarry Street, Maryland Street, Appleton Street, Oregon Street, Florida Street, York Street, Roland Street and Menton Street;

all of which is now zoned as Residence B, be reclassified and zoned Residence A;

all as shown on a plan on file in the Office of the City Clerk; and, the Zoning Map adopted as part of Section 9-201 of the Code of the City of New Bedford, is hereby amended to conform with said reclassification.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-Two

AN ORDINANCE

Amending Section 8-102 of the City Code pertaining to Additions, Insertions and Changes to the Building Code of the City of New Bedford, relative to Fire Districts.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. Title 8, Chapter 1, Section 8-102 of the Code of the City of New Bedford, entitled, "Additions, Insertions and Changes" as amended on September 28, 1972, is hereby further amended by adding the following revisions to the Building Code of the City of New Bedford:

SECTION 301.1 (Page 47) Add the following:

(a) In addition to the preceding, the Fire Districts shall include all land one hundred (100) feet from the outside line of all streets bounding said Fire Districts. In addition to the Fire Districts above prescribed, said Fire Districts shall include the following:

(1) Rodney French Boulevard, from Cove Street to Brock Avenue; and Brock Avenue, from the intersection of the west line of said Rodney French Boulevard to the intersection of the south line of Mott Street therewith; and one hundred (100) feet from each line of Rodney French Boulevard and Brock Avenue.

(2) Pope's Island and Fish Island.

(3) Acushnet Avenue, from the intersection of North Front Street to Covell Street; and one hundred (100) feet from each line of said Acushnet Avenue.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Seventy-Two

AN ORDINANCE

Amending Section 12-120 of the City Code pertaining to REQUIREMENTS FOR TAXI LICENSES.

Be it ordained by the City Council of the City of New Bedford as follows:

SECTION 1. That Chapter 1 of Title 12 of the Code of the City of New Bedford be, and it is hereby amended, by striking out of Section 12-120 the words, "Nor unless he is a citizen of the United States or has declared his intention to become a citizen of the United States by filing first papers under the naturalization laws"; so that, as amended, Sec. 12-120 shall read, as follows:

Section 12-120 — LICENSES — DRIVERS.

Licenses as taxi drivers may be granted to suitable persons of good character otherwise qualified to operate motor vehicles. Licenses may be granted to veterans between the ages of 18 and 21 provided they have been honorably discharged from the armed service of the United States, but no license shall be granted to any other person under the age of 21 years, nor unless he can read, write and speak the English language intelligently, nor to a person who within one year of the date of application has been convicted of larceny, illegal gaming, illegal keeping, transporting or sale of intoxicating liquor, immoral conduct, driving under the influence of liquor, leaving the scene of an accident after causing an injury to a person or property, and driving to endanger, or any felony or the violation of any of the terms of this chapter.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).
